

Android devices will require a USB Host Mode (OTG) cable (Tripp Lite [U052-06N](#)) to connect the U209-005-DB25 to the device.

USB-to-Serial Cable Adapter (USB-A to DB25 M/M)

MODEL NUMBER: **U209-005-DB25**

Description

If you need to connect a PDA, digital camera, modem or an ISDN terminal with a serial port to your laptop or tablet, then Tripp Lite's U209-005-DB25 USB-to-Serial Cable Adapter is a great choice. The U209-005-DB25 allows you to connect legacy RS232 peripherals with either a 9-pin DB9 or 25-pin DB25 connector to your computer's USB port. The U209-005-DB25 comes with USB A (Male) and DB9 (Male) connectors; the included DB9-to-DB25 cable adapter can be inserted onto the DB9 connector for use in USB-to-DB25 (M/M) connections. The cable is plug-and-play and requires no external power. The U209-005-DB25 supports data transfer rates up to 230 kbps and has a 5 ft. overall length. It is compatible with Windows, Mac and Linux operating systems, as well as Android tablets / phones with a USB Host Mode (OTG) cable (Tripp Lite [U052-06N](#)) and OS version 3.2 and above.

Features

- Connect a RS232 serial device to the USB port on your computer
- Connectors: USB-A (M); DB25 (M); DB9 (M)
- No external power is required
- Supports data transfer rates up to 230 kbps
- Premium double-shielded cable with gold-plated contacts, tinned copper braid and an aluminum Mylar foil shield that eliminates cross-talk and reduces EMI/RFI interference
- Compatible with Windows, Mac and Linux computers
- Compatible with [Android tablets / phones](#) with USB Host Mode (OTG) support and OS version 3.2 and above

Specifications
