## Category 5e & Category 6 Cables

- Premium cabling for Category 5, 5e and 6 applications
- PVC 4-pair stranded UTP, includes boots with integral strain-relief and RJ45 (Male) connectors
- Meets the most current industry standards

### Top Reasons to Switch Network Cable Sales to Tripp Lite

- Provide greater bandwidth to accommodate the increased data volume of the latest communication technology! Compare Category 6's wide 550 MHz bandwidth to Category 5's narrow 100 MHz bandwidth.
- Transmit data 10 times faster than standard Category 5 cables! Compare Category 6's fast 1,000 Mbps (or 1 Gbps) to Category 5's relatively slow 100 Mbps.
