G-C Quality Radio and Electronic Products

SINCE 1929 GENERAL CEMENT has faithfully served the Radio Field by producing quality Chemicals, Parts, Materials, Tools and Equipment necessary for the maintenance of Radio and Electronic Equipment. General Cement originated items such as Cements, Chemicals, Packaged Hardware, and many special tools, kits and accessories for the Radio Field. Now in the rapidly expanding and changing industrial fields, G-C is cooperating by aiding other industries as well by supplying them with their new requirements resulting from the changing electronic age, which is now so important to every type of industry desiring to keep abreast of times.

Distributors, Dealers and Manufacturers are assured of satisfaction when using G-C Products. High quality, precision standards and laboratory control in manufacturing assure the best parts or products obtainable.

Special products, parts and tools can often be supplied made to special order, and inquiries are invited. Excellent manufacturing facilities are at your disposal. Let G-C help you solve your problems.

ALWAYS DEMAND G-C PRODUCTS FROM YOUR DISTRIBUTOR

Standard Carton 12 Units

G-C can supply Cements, Chemicals, Coil Dopes and Adhesives for all purposes in any quantity.

5-gallon cans and 50-gallon drums available. Write for quotations on larger containers.

"STICK WITH G-C"

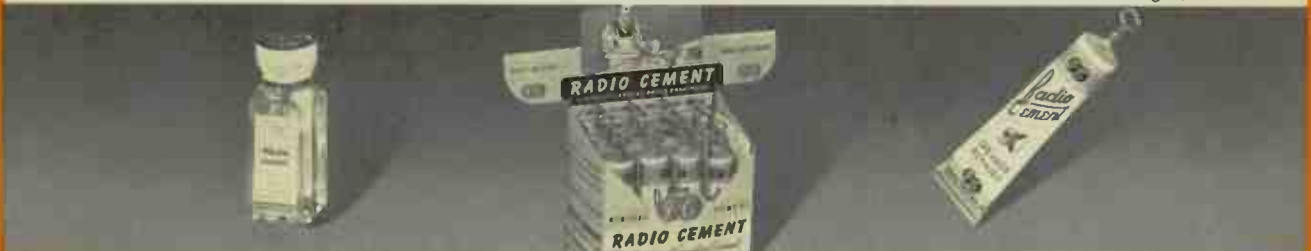

G-C RADIO SERVICE CEMENT
"For Radio and Speaker Repairs"

This high grade cement is specially prepared for Radio and Speaker Work. It is unexcelled for cementing and replacing cones on dynamic speakers, repairing rattling or torn cones, cementing voice coils, spiders, etc. It can also be used for a bakelite or glass cement, in cementing loose tube bases and grid caps to glass, sealing adjustments, cementing parts to chassis, etc. It is dependable, vibration-proof, water-proof and very fast drying. It will not crack or shrink paper cones. This is the original Speaker Cement as used by Manufacturers and the best that is made for the purpose. Brushes are attached to caps of bottles.

No.		List Price
30-2	2-oz. Bottle, brush attached to cap	\$0.50
30-2-D	Display 12 No. 30-2	6.00

30-5G	5 Gallons	42.00

Standard Carton 12 Units

The proper thinner for G-C Radio Service Cement is G-C No. 28 Cement Thinner (Page 5).

G-C PLASTIC CEMENT
"Works on All Types of Plastics"

This is the best all-purpose cement for any emergency job you may have. Excellent for cementing broken plastic cabinets, cementing grille cloth in place, cementing dial and glass crystal assemblies, cementing knots in dial cord, etc. This is truly a cement of many uses. Very fast drying, water-proof. Brushes are attached to caps of bottles.

No.		List Price

Standard Carton 12 Units

The proper thinner for G-C Plastic Cement is G-C No. 28 Cement Thinner (Page 5).

G-C SPEAKER REPAIR CEMENT IN TUBES

"The Original Speaker Cement"

Here's our high grade speaker cement in a handy tube for those who prefer to use a tube. Cement can be applied directly from tube on the parts to be cemented without the use of a brush. This tube is very handy to carry with you on every service job, and should be a part of your tool kit. This tube is very satisfactory and handy for other purposes besides speaker repairs. It can be used in the repair of parts and cabinets. It is also a very good general purpose water-proof glue and makes the best model and hobby cement.

"A Tube in your Service Kit will come in handy."

No.		List Price
34-2	Large Size	\$0.42
34-2-D	Display 12 No. 34-2	5.04

G-C BAKELITE CEMENT
"The Only Practical Cement for Bakelite and Plastics"

This cement is especially made for cementing Bakelite to Bakelite, and Bakelite to other materials. Produces a bond practically as strong as the material itself. Very useful for repairing broken molded pieces, knobs, panels, and for building up thickness of Bakelite for machining, for inserts in moldings, tubing, for attaching labels to Bakelite, etc. Indispensable to the experimenter. Brushes are attached to caps of bottles.

No.		List Price
32-2	2-oz.	\$0.60
32-8	8-oz.	2.00
32-16	16-oz.	3.75
32-32	32-oz.	5.50
32-G	1 Gallon	18.50
32-5G	5 Gallons	70.00

Standard Carton 12 Units

The proper thinner for G-C Bakelite Cement is G-C No. 67 Thinner. (Page 5.)

G-C VINYLITE CEMENT

This new G-C Cement of Vinylite Base has great adhesion, high tackiness, and extreme flexibility. Excellent for cementing metals, plastics, paper, leather, etc. Can also be used as a thermoplastic cement for non-porous materials. Cement is applied to both surfaces, dried and then pressed together under heat such as flat irons, hot plates, or soldering irons. Sets on cooling. It can be air dried in most applications of cementing porous and non-porous materials. It sticks to most anything. Water-proof, fast drying. Brushes are attached to caps of bottles.

No.		List Price
58-2	2-oz.	\$0.50
58-8	8-oz.	1.60
58-G	1 Gallon	9.35

Standard Carton 12 Units

The proper thinner for G-C Vinylite Cement is G-C No. 31-2 Solvent (See Pages 3 or 5.)

G-C HOUSEHOLD and MODEL CEMENT

Fast-drying cement, suitable for many uses. Excellent "Household Cement". Also an ideal "model-makers" cement for use on model airplanes, railroads, ships, toys, etc. Will cement wood, paper, plastics, metal, china, crockery, ceramics, etc. Fast-drying, water-proof. Brushes are attached to caps of bottles.

No.		List Price
45-2	2-oz. Bottle with Brush	\$0.50
45-3	2-oz. Tube	.42
45-3-D	Display of 12 Tubes	5.04

Standard Carton 12 Units

The proper thinner for G-C Household Cement is G-C No. 28 Cement Thinner. (Page 5.)

G-C FABRIC TO METAL AND TRIM CEMENT

For cementing cloth and felt to metal. Ideal for cementing felt to phono turntables, grille cloth to metal cases, re-pairing auto upholstery, fabrics, etc. Fast drying, waterproof.

No.		List Price
22-4	4-oz.	\$0.50
22-8	8-oz.	.90
22-16	16-oz.	1.75

Standard Carton 12 Units

The proper thinner for G-C Fabric to Metal Cement is G-C No. 67 Thinner (Page 5).

G-C GRAY RUBBER CEMENT

Best quality general purpose rubber cement for cloth, paper, rubber, etc. This cement makes a very handy all-purpose Rubber Cement due to its great tackiness and adhesion. It has many applications in home, industry, automotive or hobby shop.

No.		List Price
23-4	4-oz.	\$0.50
23-8	8-oz.	.90
23-16	16-oz.	1.75

Standard Carton 12 Units

The proper thinner for G-C Gray Rubber Cement is G-C No. 67 Thinner (Page 5).

G-C RUBBER TO METAL and DIAL DRIVE CEMENT

Specially prepared for cementing rubber dial drives to metal shafts, rubber mountings to chassis, or for cementing any rubber material to metal. Excellent for refrigerator door rubber gaskets, weather stripping on auto doors, etc. It can also be used on any material where flexibility is required. Fast-drying, waterproof.

No.		List Price

35-8	8-oz.	1.60
35-16	16-oz.	3.00
35-32	32-oz.	4.50
35-C	1 Gallon	9.35
35-5C	5 Gallons	42.00

Standard Carton 12 Units

The proper thinner for G-C Rubber Cement is G-C No. 67 Thinner (Page 5).

G-C WOOD CABINET GLUE

This is the ordinary well-known wood glue that is used in repair of furniture, chairs, radio cabinets, etc. It can also be used for gluing on radio grille cloth, labels to wood, etc. It will not injure the finish on cabinets.

No.		List Price
39-2	2-oz. bottle with brush	\$0.50
39-4	4-oz.	.65
39-8	8-oz.	.90
39-16	16-oz.	1.50

Standard Carton 12 Units

G-C GRILLE CLOTH FABRIC CEMENT

This is a gray rubber cement specially formulated for cementing grille cloth, leatherette and luggage fabric covering to metal or wood cases or cabinets, test equipment, etc. It will not penetrate, stain or shrink the materials. It's just the cement for the purpose.

No.		List Price
38-4	4-oz.	\$0.50
38-8	8-oz.	.90
38-16	16-oz.	1.75

Standard Carton 12 Units

The proper thinner for G-C Grille Cloth Fabric Cement is G-C No. 67 Thinner (Page 5).

G-C ELECTRICAL AND RESISTOR CEMENT

Here's the heat-proof cement that hardens like porcelain, same as used on resistors, flat irons, electrical appliances, etc. The service man will find many uses for this cement.

No.		List Price
27-2	2-oz. Bottle	\$0.60
27-2-D	Display 12 No. 27-2	7.20

Standard Carton 12 Units

Prices on larger quantities available on request.

G-C FILM SPlicing CEMENT

This is a new improved Film Cement. Here is the best buy in cement for the best grade of home or professional movie film splicing cement. Will work on both safety and nitrate film. Compare this value with other cements.

No.	List Price
33-1 Reg. Bottle with Brush	\$0.35

G-C COIL DOPE KIT

Handy Coil Dope Kit, containing one 2-oz. bottle G-C Polystyrene Q-Dope and one 2-oz. bottle G-C Q-Dope Thinner. Kit includes 2 brushes.

Especially handy kit for amateurs, experimenters and servicemen, requiring a low-loss compound for designing or repairing high frequency coils.

No.	List Price
888 Kit	\$0.80

G-C RADIO CHEMICAL LABORATORY

"Use G-C Chemicals for Radio Repairs and Save Time"

Here is a real professional Radio Chemical Laboratory that is complete in every respect. Twenty large 2-oz. bottles put up in permanent laboratory stand that can be placed on your bench or hung up on the wall. The stand is a permanent rack to hold all your Radio Service Chemicals and find them when you need them. Every needed chemical and cement is included in this Laboratory for all kinds of Radio Repairs, speakers, coils, contacts, dials, controls, etc. Every Radio Man, Radio Laboratory, Radio Engineer and Radio Manufacturer should have this complete Laboratory.

No.	List Price
997 G-C Chemical Laboratory	\$9.10
	Including FREE METAL RACK

CEMENT AND SOLVENT KIT

"A Handy Kit to Carry With You"

This is a handy kit for speaker repairs on the job. The kit contains one bottle of high grade Speaker Cement and one bottle of Cement Solvent, together with a handy brush. This cement can also be used for other radio work, such as cementing parts to chassis, sealing adjustments, etc. The solvent is a good cleaner for controls and contacts. The bottles are put up in a neat compact carton, making it easy to carry.

No.	List Price
343 Cement and Solvent Kit	\$0.65

G-C CONTACT & ATTENUATOR SERVICE KIT

"Eliminates Noise . . . Prevents Corrosion"

Ideal kit for cleaning noisy attenuators, tuners, all-wave switches, variable contacts, etc. Consists of special contact cleaner and special corrosion-resistant lubricant. With this kit you can easily clean these noisy controls and 9 times out of 10 without dismantling the chassis or control unit. Your first job will more than pay for this kit in time saved.

No.	List Price

212-2-D	Display 12 No. 212-2	9.00

G-C GRAFOLINE

"A Radio Contact Lubricant for Metallic Contacts"

Grafoline is absolutely necessary to insure proper and lasting repairs for all air-exposed contacts, switches, and wire-wound volume controls—wherever dust and dirt affect the quiet action of adjustable radio parts or controls. Radio Men need this compound for all-wave switches, wire-wound controls, to clean noisy tube-prongs, etc. On switch contacts it increases the current capacity of the switch and contacts last longer.

"It Cleans As It Lubricates"

No.		List Price
120-2	2-oz. Bottle	\$0.50
120-16	16-oz. Bottle	2.00

Standard Carton 12 Units

G-C CARBON-X

"For Noisy Carbon Controls"

Here is an item every Service Man has been looking for. A practical method to touch up those worn and noisy spots on carbon volume controls. You simply apply CARBON-X over the bad spots and the job is done. When you cannot sell a replacement control you can do the job with Carbon-X. Brushes in bottles.

Carbon-X Is An Electrical Conductor

No.		List Price

WHAT IS FLOCK FINISHING?

Flock finishing is becoming a very popular and practical application used in many industries. It is used in the Radio Industry on phono turntables, speaker grilles, radio cabinets, for sound deadening, etc. In the home it has applications as a soft base to prevent scratching furniture, it is applied to bottoms of table lamps, vases, statues, stands, ornaments, etc. The Automotive Industry uses this in

lining compartments, making artificial upholstery, patching upholstery, etc. It is also used on displays, in jewelry boxes, silverware boxes, tool and instrument kits, filters, etc. It really has thousands of uses for many trades and industries.

With the G-C Flock Kits, Applicators and Guns you can obtain a production finish easily without any special equipment.

G-C FELT-KOAT FLOCK FINISH SPRAY KITS

"New Patented Blower Spray Gun for Flock"

The new G-C method of applying flock with the G-C patented gun. It distributes flock evenly and blows each fibre into the undercoat vertically with great power. The flock in reality "flocks to the undercoat in a heavy velvet coat." Coats of varied softness and density can be obtained by amount you apply.

You can do a professional job without any experience with the new G-C patented Blower Gun; no special skill required. You can really turn out a professional job on phono turntables, cabinets, grilles, instrument cases, tool boxes, toys, ornaments, signs and hobby uses.

Earn extra profit on refinishing turntables for Juke Boxes, Home Sets, etc. Many ornamental designs can be obtained with this new kit.

Kit Contains:

G-C AMO MINIATURE TUBE PULLER

"Pat. Pend."

"Prevents Tube Breakage and Burned Fingers"

Patented AMO was designed to prevent tube breakage, prevent burned fingers and to speed up production of radios using the miniature type tubes. AMO now makes it possible to easily remove or insert miniature tubes such as 6AG5, 50B5, etc. It works on the suction and vacuum principle.

Now . . . for the first time the miniature tube, which is coming into the market in ever increasing numbers, and which will in time replace most common and high frequency radio tubes, can easily be extracted or placed into their proper sockets, without the fear of breakage or burning the hands, into those hard-to-reach places, with AMO.

This wonderful new tool is simple to operate, and can reach places where fingers alone would find it difficult. To extract tubes, simply press "AMO" down on tube and lift up. Tube is then released by pressing release button. AMO will pull tubes out of the tightest sockets, where it is impossible to pull them by hand without breaking the tube. To insert tubes into hard-to-reach places, place tube in AMO holder, press into socket and release!

G-C CHASS-EZ

"The New Wonder Tool for Every Service Bench"

"Pat. Pend."

A Radio Chassis Holder built by a Radio Serviceman who knows the problems of other Radio Servicemen. The very simplicity of the CHASS-EZ is its chief merit. The tubes and undersides of the Radio Chassis are held open and accessible; this allows the Serviceman more convenience in working on the intermittent set that must be set aside and played for a few hours

Here is your opportunity to do away with big, awkward holders and eliminate the necessity of using cigar boxes, bottles, etc., to hold the radio chassis. The CHASS-EZ does the job simply and easily.

The CHASS-EZ has special reversible hooks on one end to handle the flanged type chassis or to tilt the chassis back if necessary. The slide adjustment on the CHASS-EZ compensates for the chassis width and to clear any obstruction that may be on the inside edge of the chassis.

Enjoy increased income through greater efficiency and output of work. Order your CHASS-EZ now!

PLASTIC CONTAINERS

Now all 25-ft., 50-ft. and 100-ft. spools of G-C cord are put up in non-breakable, transparent plastic containers. When cord is used up container can be used for storing parts, screws, etc.

G-C RADIO DIAL CABLES AND CORDS are accepted and approved as standard by the Radio Industry, Government and Testing Laboratories. They are manufactured of finest raw materials available under strict production and laboratory control.

All G-C Dial Cords are made of finest Nylon Braid, braided over a Spun Fibre Glass Core. They are prestretched and are chemically treated after braiding to prevent stretching, insure long life and prevent slipping. G-C Cords are the best on the market. All G-C Cords are available at leading Radio Parts Jobbers in 25, 50, 100, 500 and 1,000 foot spools.

G-C No. 75, 75-A and No. 74 Nylon Dial Cables will take care of 90% of the replacements.

The Three Most Popular Cords Being Used

EACH BELT List Price \$0.25

INSTRUCTIONS — FOR MEASURING BELTS

To determine size of belt, if the old belt is available, cut the belt and measure for stretched-out length. This will be "cut length" of belt. If old belt is not available or is worn out so that it cannot be properly measured, stretch a thin thread around belt pulleys on set. (Be sure to use thin thread as a thick cord will give an inaccurate reading.)

Measure the thread, it will be our "circumference around pulleys." In measuring belts always remember that the circumference around pulleys is not the same as stretched out or cut length. A belt when cut, develops approximately $3/16''$ extra length when stretched out, depending on thickness of belt.

G-C PHONO TURNTABLE MOTOR & GEAR LUBRICANT

New "Sta-Put" - Recommended by Mfgs.

A new special lubricant for phonographs. Other lubricants will thin and run to the lowest point of gravity on the mechanism, but this is specially formulated so that the lubricant clings to the surface of the parts. Eliminate trouble on phono repairs by using the best. This lubricant insures long life to parts that are not lubricated often.

No.	Description	List Price
1223	Tube	\$0.50
1223-D	Display 12 Tubes	6.00
122-2	2-oz. Bottle	.50

G-C LUBE-REX "LUBRIPLATE"

"Prevents Corrosion"

The best contact cleaner on the market. Fine for attenuators, push-button switches, all-wave switches, contacts, etc. Cleans contacts and prevents corrosion. The only acceptable lubricant for Philco Mystery controls. Moisture repellent and rust preventing — fine for use on locks, fishing reels, guns, dial mechanisms, phonograph equipment, etc. It is especially desirable since it clings to the metal and prevents corrosion.

No.	Description	List Price
1206	2-oz. Tube	\$0.50
1206-D	Display 12 Tubes	6.00
1209	2-oz. Bottle	.50

7584-C Box of 144	9/16"	1/4"	1/4"	1/16"	3/8"	4.10

*Standard Jobber's Quantity 20 Envelopes. Specify Box (X) or Card Display (D).
(For complete specifications and other listing of grommets, see Page 61.)

New! STATIC CHASER

G-C STATIC POWDER AND INJECTOR

(Pat. Pend.)

"Approved by Tire and Auto Manufacturers"

Anti-Static Powder dissipates static which causes radio noise and contact shock. Minimizes auto radio static interference caused by friction of rotating parts, including wheels, brakes and tires. New powder should be blown into all inner tubes—especially helpful in the new synthetic type tires. Tire static powder kits include new easy-to-use injector for injecting G-C Wheel Static Powder into tire tubes without completely deflating the tires.

Tire static powder is blown into the tire inner tube under air pressure—as available at regular gasoline service stations. By using the new G-C special powder injector the new G-C tire static powder can be blown into the inner tube without completely deflating the tire. Merely reduce the tire air pressure 5 or 10 pounds, attach the injector to the tube valve stem, pour the contents of one envelope of G-C tire static powder into the injector. After replacing the cover on the injector, apply air pressure and adjust the tire to the proper pressure. The powder will automatically be properly blown and distributed into the inner tube.

"It Really Works!"

No.	List Price
5604 G-C Injector Only for G-C Static Powder	\$1.50
5605 G-C Static Powder Packet for 5 Tires (1 car)	1.00
5606 Kit of Injector and Static Powder	2.50

GENERAL CEMENT Grommets—Cleaner Belts—Static Chaser

G-C INSULATING CAMBRIC

"Breakdown Voltage 10,000 Volts"
Dry yellow varnished cambric for field coils, transformers, chokes, resistors, motors, etc. Needed for many repair jobs to insulate parts and wires.

No.	Description	List Price
549	Roll, over 210 sq. in.	\$0.75
549-D	Display, 10 Rolls	7.50
548	36" x 36", yd., any length	4.00

G-C LAMINATED BAKELITE PANELS

Black laminated bakelite. Needed by all experimenters, amateurs and radio men for insulating parts, terminal strips, building sets, etc. 1/16" thick stock. Black color.

No.	Description	List Price
590	6" x 6" x 1/16"	\$0.60
591	6" x 12" x 1/16"	1.10
592	12" x 12" x 1/16"	2.20

G-C FIBEROID

"Fish Paper"

Fish paper has many uses around the shops for repair jobs where electrical insulation is required.

No.	Description	List Price
560	.010"—240 sq. in. roll	\$0.50
560-D	Display 8 No. 560	4.00

G-C ATTACHMENT CAPS

Approved attachment caps. Made of rubber or bakelite body with brass blades and spring contacts.

MODERN STREAMLINE CAP
(a) No. 865 List Price \$0.25
SPRING ACTION BAKELITE CAP
(b) No. 860 List Price \$0.25

SCREW BASE
For Attachment Plugs
(c) No. 867 List Price \$0.17

G-C SPRING ACTION CUBE TAP

New type bakelite cube tap, with 3 outlets always available. It will stay in place because of spring action features. High quality cube tap that will not go to pieces.

No.	Description	List Price
862	Brown Cube Tap	\$0.30

G-C CUBE CORD CONNECTOR

Bakelite cord connector to fit on end of cords. Make your own extensions with this cube connector.

No.	Description	List Price
863	Cube Connector	\$0.25

G-C BAKELITE SURFACE BLOCK

Brown bakelite convenience block to fasten to the wall, base boards or on the extension cord.

No.	Description	List Price
866	Surface Block	\$0.50

G-C RADIO CORD SETS

Handy replacement cord sets, ready to attach to radio sets and appliances. Made of approved brown parallel wire with plugs attached.

No.	Description	List Price
885	6 ft. Brown	\$0.45
886-P	7 1/2 ft. Brown	.60

G-C EXTENSION CORDS

G-C extension cords are made of approved wire ready to use with a plug on one end and a 3-way tap on the other end.

No.	Description	List Price
887	6 ft. Brown	\$0.75
889	7 1/2 ft. Brown	.90

G-C CORD STRAIN RELIEFS

Use G-C cord strain reliefs on chassis and appliances when replacing cords. It will prevent shorts and do a better job.

No.	Description	List Price
6675-E	Env. of 4 Strain Reliefs	\$0.40
6675-D	Display of 20 Pkgs. of 6675	8.00

G-C FELT PADS AND BUMPERS

Assorted felt pads can be cemented to bottoms of cabinets, lamps, vases, etc., to prevent scratching.

No.	Description	List Price
*1069-E	40 Asst. Pads in Env.	\$0.40

G-C RUBBER FEET

Screw Type

A solid rubber foot for radio cabinets, tool kits, boxes, etc. Prevents scratching of furniture. Can be used with any type of screws, tacks or nails.

No.	Description	List Price
*1075-A	Env. of 12 Asst.	\$0.40
*1075-B	Env. of 12	.40
(A) 1/2" Diam. (B) 3/16" High		
*1075-C	Env. of 10	.40
(A) 1/2" Diam. (B) 1/4" High		
*1075-F	Env. of 8	.40
(A) 1/2" Diam. (B) 5/16" High		

RUBBER BUTTON BUMPERS

The rubber bumpers require no screws to mount. Simply slip into hole and bumper will stay there. Very popular on table model radio sets. Plastic and metal cabinets.

No.	Description	List Price
*7596-E	Env. of 10	\$0.40
(A) 3/8" (B) 1/2" (C) 3/16" (E) 3/16"		
*7597-E	Env. of 10	.40
(A) 1/2" (B) 7/16" (C) 1/4" (E) 1/4"		
*7598-E	Env. of 8	.40
(A) 1/2" (B) 9/16" (C) 1/2" (E) 5/16"		

G-C CABINET FELT FEET

Screw type chassis felt feet, such as used under radio cabinets, chassis, instruments, etc.

No.	Type Screw	List Price
*1086-E	Env. 4 Assorted	\$0.40
*1086-BE	Env. 4 Sheet Metal	.40
(A) 1/2" (B) 3/16" (C) 1/2"		
*1087-E	Env. 4 6-32 Screw	.40
(A) 1/4" (B) 3/16" (C) 1/2"		
*1088-E	Env. 4 Sheet Metal	.40
(A) 3/4" (B) 1/4" (C) 1/2"		
*1089-E	Env. 4 10-32 Screw	.40
(A) 3/4" (B) 1/4" (C) 1/2"		

G-C TACK BUMPERS

Handy tack bumpers of many uses. Can be used under radio cabinets, etc., to prevent scratching. Tack is molded into the rubber ready to use. 3/8" diam.

No.	Description	List Price
*1075-E	Env. of 10 Tack Bumpers	\$0.40
1077	Box of 100 Tack Bumpers	3.50

G-C RUBBER CHASSIS MOUNT KITS

Soft rubber mounts for floating chassis, speakers and motors to prevent vibration, microphonic noises and to deaden sound on motors and machinery.

No.	Description	List Price
*1038-E	Env. of 10 Small Assorted	\$0.40
No. 1030	Kit of 25 Assorted	1.80

(For detailed specifications and other sizes of Chassis Mounts, see Page 62.)

G-C RUBBER KIT ASSORTMENT

Handy kit to keep in the shop. Contains various sizes of rubber grommets, chassis mounts, etc. An exceptional buy.

No.	Description	List Price
7600	Rubber Kit	\$1.00

*Standard Jobber's Quantity 20 Envelopes. Specify Box (X) or Card Display (D).

STANDARD TUBE SOCKETS

G-C BAKELITE SOCKETS

High quality molded bakelite sockets. High dielectric. Sockets have plated bronze contacts and will not corrode. Three grounding lugs are on metal base of each socket, and are automatically grounded when the socket is installed. 1 1/4" mounting centers. 1-3/8" mounting hole.

Standard R.M.A. Contact Spacings

No.	List Price
1528 8-prong Octal Base	\$0.15
1528-L 8-prong Octal Type	.20

G-C WAFER SOCKETS

High grade laminated bakelite sockets with positive contacts. Std. spacings.

No.	Mtg. Centers	List Price
1534 4-prong	1-1/2"	\$0.15
1535 6-prong	1-1/2"	.15
1536 6-prong	1-1/2"	.15
1537 7-prong, small	1-1/2"	.15
1537-L 7-prong, large	1-1/2"	.18
1538 8-prong, Octal	1-5/16"	.18
1538-2 8-prong, Octal	1-1/2"	.18
1538-L 8-prong, Octal	1-5/16"	.20

MINIATURE TUBE SOCKETS

G-C BAKELITE MINIATURE SOCKET

For Miniature Tubes

High quality bakelite molded socket with metal saddle mounting. Made with phosphor bronze plated contacts for 7-prong tubes. Standard mounting centers.

No.	List Price
1540 Bakelite Socket	\$0.25

G-C WAFER MINIATURE SOCKET

For Miniature Tubes

Made of bakelite, high grade sockets for the new miniature tubes. Phosphor bronze contacts for 7-prong tubes. Standard 3/8" mounting centers.

No.	List Price
1541 Wafer Socket	\$0.15
1542 Wafer Socket with mounting strap	.17

G-C AUTO ANTENNA PLUG

Shielded positive connector plug same as used on Motorola and other auto radios.

No.	List Price
1740 Shielded Pin Plug	\$0.15

G-C ANTENNA CONNECTOR JACK

Shielded type jack to fit the 1740 plug for auto antenna and phonograph connection.

No.	List Price
1741 Shielded Jack	\$0.25

G-C PHONO PLUG

Used on all types of phonograph connections, on RCA, Zenith, Phleco and others. Can be used for auto radio connector.

No.	List Price
1742 Midget Pin Plug	\$0.10
*1742-E Env. 4 - 1742	.40
1742-M Per 1000 - 1742	39.00

G-C PHONO JACK

Very popular jack used for phonograph attachments. To be used with No. 1742 plug.

No.	List Price
1743 Phono Jack	\$0.15
*1743-E Env. 3 - 1743	.40
1743-M Per 1000 - 1743	98.00

*Standard Jobber's Quantity 20 Envelopes. Specify Box (X) or Card Display (D).

G-C EXTENSION JACK AND CONNECTOR

Special jack used in extending radio antenna cables and phonograph attachments. Will fit 1740 or 1742 plugs.

No.	List Price
1744 Extension Jack	\$0.20

G-C FUSE CONNECTOR

Regular Type

Same as used on auto radios and other equipment. Completely assembled, ready to use.

No.	List Price
1749 Reg. Fuse Connector	\$0.20

G-C JUMBO FUSE HOLDER

Large size fuse holder, 2 1/2" long x 1/2" diameter.

No.	List Price
1748 Jumbo Fuse Holder	\$0.30

G-C ANTENNA CONNECTOR

Used for connections on auto antenna and ground lines.

No.	List Price
1747 Antenna Connector	\$0.15

G-C MOTOROLA LEAD ADAPTER

Adapter plug used to adapt a bayonet type of connector to motorola type.

No.	List Price
1745 Motorola Lead Adapter	\$0.35

G-C ADAPTER SHELL

Used to change the motorola type of fitting to a bayonet type connector.

No.	List Price
1746 Adapter Shell	\$0.10

G-C ANTENNA CONNECTOR END

To be used with regular antenna connectors. Supplied complete with bushing.

No.	List Price
1750 Antenna Connector End	\$0.10

G-C AUTO FUSE INSULATOR SLEEVE

Insulating sleeve to fit regular fuse holders.

No.	List Price
6720-E Env. of 16	\$0.40
6720-D Display of 20 Env.	8.00

G-C REPLACEMENT PARTS FOR ANTENNA AND FUSE CONNECTORS

No.	List Price
(a) 1791 Sleeve of Fuse Connector	\$0.05
1791-C Box of 144 No. 1791	7.20
(b) 1792 Sleeve of Antenna Connector	.05
1792-C Box of 144 No. 1792	5.00
(c) 1793 End Piece for Antenna and Fuse Connector	.04

**G-C ONE-INCH
JEWEL SIGNAL LIGHT**

Very popular on radio and electrical switch boards, signal devices, laboratory equipment, etc. Bulbs can be easily changed from the front by removing the jewel. Available in various bases as listed and jewel color of red, green, blue, amber, opal and clear. 1" mounting hole required. (Specify color of jewel.)

No.	Type of Socket	Jewel	List Price
7901	110-volt Candelabra	Facetted	\$1.40
7902	110-volt Candelabra	Smooth	1.40
7903	Miniature Bayonet	Facetted	1.40
7904	Miniature Bayonet	Smooth	1.40
7905	Miniature Screw	Facetted	1.40
7906	Miniature Screw	Smooth	1.40

**G-C 3/4-INCH
JEWEL SIGNAL LIGHT**

3/4" Signal Light that can be used for many purposes. Jewels can be removed from front of panel. Supplied in various bases as listed and faceted jewels in colors of red, green, blue, amber, opal and clear. 11/16" mounting hole required. (Specify color of jewel.)

No.	Type of Socket	List Price
7907	Miniature Screw	\$0.80
7908	Miniature Bayonet	.80
7909	110-volt Candelabra	.80

**G-C 1/2-INCH
JEWEL SIGNAL LIGHT**

Very popular 1/2" Signal Light. Jewel can be removed from the front. Supplied in various bases as listed and faceted jewels in colors of red, green, blue, amber, opal and clear. 7/16" mounting hole required. (Specify color of jewel.)

No.	Type of Socket	List Price
7910	Miniature Screw	\$0.35
7911	Miniature Bayonet	.40
7912	110-volt Candelabra	.40

G-C PANEL JEWELS

Complete jewel assemblies available in 1", 3/4" and 1/2" diameter jewels in both smooth and faceted types. Holders are brass nickel plated supplied complete with nuts to fit panels up to 1/4" thick. Colors red, green, blue, amber, opal and clear. (Specify color desired.)

No.	Diam.	Jewel Type	Mounting Hole	List Price
7913	1/2"	Facetted	7/16"	\$0.25
7914	1/2"	Smooth	7/16"	.25
7915	3/4"	Facetted	11/16"	.60
7916	1"	Facetted	1"	1.10

**G-C CLIP-ON
PILOT LIGHT SOCKETS**

Available in both types, clip up and clip down. Makes an ideal replacement socket. Cadmium plated.

No.	Type	List Price
7920	Min. Screw Clip Up	\$0.15
7921	Min. Screw Clip Down	.15
7922	Min. Bayonet Clip Up	.17
7923	Min. Bayonet Clip Down	.17
7924	110-volt Candelabra Clip Up	.20
7925	110-volt Candelabra Clip Down	.20

**G-C BRACKET-TYPE
PILOT LIGHT SOCKETS**

Available with bracket up or down, as listed, in various bases. Sturdy construction, cadmium plated.

No.	Type	List Price
7926	Min. Screw Bracket Up	\$0.15
7927	Min. Screw Bracket Down	.15
7928	Min. Bayonet Bracket Up	.17
7929	Min. Bayonet Bracket Down	.17
7930	110-volt Candelabra Bracket Up	.20
7931	110-volt Candelabra Bracket Down	.20

**G-C UNMOUNTED
PILOT LIGHT SOCKETS**

Unmounted sockets can be used for replacement or other purposes.

No.	Type	List Price
7932	Min. Screw Base	\$0.15
7933	Min. Bayonet Base	.14
7934	110-volt Candelabra	.16

G-C PILOT LAMP INSTALLER

Make a hard job easy with this handy bulb installer. Made of rubber, will take all types of miniature, neon and candelabra lamp. Very handy in places that are hard to reach. Speeds up production and service work.

No.	List Price	
7935	Pilot Lamp Installer	\$0.40
7935-D	Display of 12	4.80

**G-C MINIATURE
TUBE-PIN STRAIGHTENER**

Precision-constructed steel die designed for straightening pins on fragile miniature tubes of the 1S5, 6AK5, 9002 variety. Quickly aligns pins that have been bent on the production line or when removing tubes from sockets. Operation is entirely automatic and is performed by simply inserting tube within guide pillars and plugging die into die in base. Unit can be carried in tool box or can be fastened to the bench. Every Service Shop needs 3 or more of these straighteners. It will pay for itself in tubes saved.

No.	List Price	
5191	Tube-Pin Straightener	\$ 1.00
5191-D	Display of 12	12.00

G-C MICROPHONE CHASSIS UNIT CONNECTOR

Single contact male connector that is used on the chassis. This is used with our No. 7942 Female Connector. Made of brass, nickel plated. Supplied with washers and nuts.

No.	List Price
7941 Chassis Connector	\$0.35

G-C MICROPHONE CONNECTOR
Single Contact Male Type

This is a sturdy completely shielded single contact microphone connector. Made of brass, bright chrome plated with steel spring cord protector to prevent breakage of wire.

No.	List Price
7940 Single Contact Male Connector	\$0.45

G-C MICROPHONE CONNECTOR
Single Contact Female Type

To be used with our Nos. 7940, 7941 and 7943 Male Connectors to make connections to microphones and amplifiers. Comes complete with coupling rings. Made of brass, chrome plated.

No.	List Price
7942 Single Contact Female Connector	\$0.55

G-C MICROPHONE CONNECTOR
Closed Circuit Type

Same as our No. 7941 except the closed circuit type. It prevents open circuit noises when microphone is disconnected. It can be used with our No. 7942 Female Connector.

No.	List Price
7943 Closed Circuit Connector	\$0.55

G-C MICROPHONE CONNECTOR CAP

To protect connector on microphones and amplifiers. Seals against dirt and protects the thread against damage.

No.	List Price
7944 Connector Cap	\$0.50

G-C SHAFT EXTENSIONS

Popular 1/4" shaft extension with flat shaft for spring type push-on knobs.

No.	List Price
6755 1/4" x 1/4" Long Flat Shaft Extension	\$0.35
6716 1/4" x 4" Long Round Shaft Extension	.35

G-C SHAFT COUPLINGS, EXTENSIONS AND REDUCERS

Accurately machined fittings made of brass and high grade insulating material for coupling and extending shafts of the same or different diameters. Made in as small dimensions as practical so as to use the minimum of space.

with Speedex WIRE STRIPPERS

HELD IN YOUR
HAND OR

HELD ON THE BENCH

FAST OPERATING TOOL. Fast operating precision made hand tool strips insulation from all types of wire. This stripper saves considerable time in Aviation industry, Automotive industry, Army, Navy, Signal Corps and Tank Corps. An ideal tool for Manufacturers, Electricians, Radio Men, Ignition Experts and Maintenance Men.

Speedex Strippers are made to strip wire sizes No. 8 to No. 30. Hardened Steel precision ground cutting blades are interchangeable and can be purchased separately.

EASY TO OPERATE. Speedex Wire Stripper can be used as a production tool on the bench or as a portable hand tool wherever needed. 750 to 1000 wires can be stripped per hour by girls or men.

STANDARD MODELS

This is the most popular Speedex Model and is satisfactory for 90% of stripping jobs. Illustrated on the right.

AUTOMATIC MODELS

With "stay open feature" for stripping fine standard wires. Automatically holds jaws open until wire is removed. Strips all types fine stranded wire without crushing. Can also be used on solid wire. Has "on or off" mechanism so Automatic Model can be used as a Standard Model if desired.

The New G-C Wonder Tool

CHASS-EZ

(Pat. Pend.)

New Wonder Tool to Make the Radio Service Man's Job Easier

Here is the best and simplest Chassis Holder on the market to make your job easier. The simplicity of this holder is its chief merit. It can be installed in five seconds, it's easy to use and there are no parts to get lost. It's all one simple unit made of steel and nicely plated.

The tubes and undersides of the chassis are always open and accessible. This allows the service man more convenience in working on intermittent sets that must be set aside and played for a few hours.

Here is an opportunity to discard boxes and bottles and make your job simpler. Try one and you will buy several for your bench. It will fit over 90% of all straight or flanged chassis.

No. 5207 Chass-Ez

List Price \$3.65

New Improved Model

G-C PHONO TURNTABLE STAND

Here is just what you have been looking for. An adjustable, inexpensive stand to hold phono turntables while you are making repairs and adjustments. The new stand raises the turntable about 15 inches above the bench so you can easily look under the mechanism to check it while in operation. Then the unit can be easily pivoted on the swivel joints so that repairs can be made without removing the turntable from the stand. Easily adjusted to all sizes and types of phono turntables. Sturdily made of steel. Every service shop needs several of these stands.

No. 5205 Phono Turntable Stand

List Price \$6.65

DEALER'S NET ONLY \$3.99

G-C RADIO JACKS

Convenient Tool to Keep on the Bench

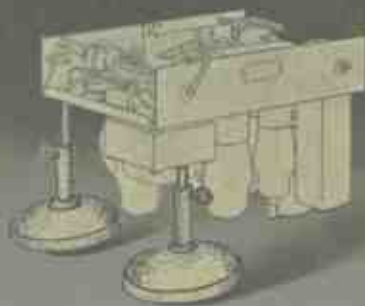

Another practical tool for the radio bench. Have you ever tried to prop up a set with boxes, old parts, batteries, etc.? If you have—then you will appreciate a pair of these CHASSIS JACKS. They are adjustable to fit any set, or any conditions. They are made of metal, and much superior to any type of wood props. They take very little space and are very convenient.

Service men should have at least two pairs of jacks on the bench. They will more than pay for themselves in saving time. After you once try these jacks they will become a part of your regular equipment.

No. 711 Chassis Jacks, per pair

List Price \$1.95

DEALER'S NET ONLY \$1.17

G-C RADIO CHASSIS GUARDS

"The Answer to the Radio Man's Problem!"

Inexpensive set of guards that will protect the chassis and tubes. When working on set, chassis can be turned in any position without damage to set or tubes. Adjustable to fit all sets. Easily applied. Install these on a set when you take it out of the cabinet and leave them on till you return the set. These guards protect the set and make it easy to carry the chassis.

No. 709 Chassis Guards, complete, pair

List Price \$2.25

NEW G-C SPEAKER SHIM KIT

Here's a kit of shim stock that you can use for repairing and centering any type of cone the "new way". A generous supply of both celluloid and bronze shim stock is included in various widths and thicknesses to take care of any cone adjustments. Shim stock can be used for spacers in centering or for wrapping around pole piece to center properly and reposition the cone. It will true up cones out of shape if cone is moistened and allowed to dry with shims in place. A kit will more than pay for itself on the first job and will last a long time. Instructions included.

No. 7720 Kit of Celluloid and Bronze Shim Stock.
