AORUS 17X

AORUS 17X (Intel 11th Gen)

AORUS 17X proudly receives recognition and certification by the world-renowned E-sport team, G2 Esports. With sensational keystrokes, powerful performance and ultra-high refresh rate display of up to 300Hz, providing gamers with E-sport standards, especially in first person shooting games like the CS:GO. Gamers can now experience how it feels like to be part of the pro G2 Esports team.

All New 11th Gen Intel Core i9-11980HK Processor

The all new AORUS 17X is the world's first laptop to equip itself with an Intel® Core™ i9-11980HK with 8 core processor, with a clock speed of 5.0GHz, gamers can expect flying speeds when it comes to media processing and gaming experiences.

NVIDIA® GeForce® RTX 30 series laptop GPUs

The all new AORUS 17X, equipped with NVIDIA® GeForce® RTX 30 series laptop GPUs, based on the NVIDIA Ampere™ GPU architecture with real-time ray tracing, artificial intelligence, and programmable shading bringing gamers a whole new experience.

WINDFORCE Infinity Cooling System

The AORUS 17X is equipped with the latest WINDFORCE Infinity Cooling System, cooling efficiency is up by 37%, not only does it help the AORUS 17X achieving 100% CPU and GPU outputs but also remains quite and stable at the same time.

300Hz Gaming Display Panel

The all new AORUS 17X comes equipped with the world's thinnest 3mm display bezel for unforgettable visuals, in addition to an 300Hz gaming panel that has an insanely high refresh rate and shortest response rate of just 3ms, enough to combat motion blur that may determine victory within the game.

Supports PCIe Gen4 SSD / Up to 2 x M.2 slots

High-speed loading and easy to expand storage means zero compromise. AORUS supports 2 sets of SSD slots, with one of the slots for the PCIe Gen4, allowing players to instantly load big files and enter games with zero wait time!

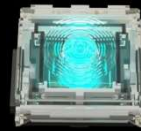

AORUS 17X (Intel 11th Gen)

OMRON Gaming Switch

AORUS joins the world-renowned mechanical switches innovator (OMRON), creating the world's first laptop with OMRON mechanical switches, the AORUS 17X. Not only does it have sensational feel, every key comes at an optimal height of 2.5mm with an ultra-durable keystroke lifespan of up to **15 million** times.

AORUS and OMRON leads the way with gold plated contact points, not only does it transfer signals more effectively but also combats deterioration from friction. Greatly increase the lifespan of the switches.

AORUS and OMRON designed a unique "concentric" keycap, letting the LED underneath the keycap to shine through evenly and in a way that increases overall lighting intensity by 27%.

AORUS FUSION

Each and every key can be customized to light up only the required keys for each application, allowing the user to instantly identify which keys to press. In conjunction with the surround RGB lighting. You will be able to control all the RGB lighting found throughout the AORUS 17X.

Full CNC Carved

Extreme is what AORUS believes in. The chassis of the AORUS 17X is made fully with aluminum and is uniquely designed and carved through the method of CNC in order to create a tighter, more robust fitting chassis. The world's thinnest display bezel, clean, quality and sharp design all comes together thanks to the CNC

Up to 99Whr Battery

Besides exceptional performance and flagship keyboard, mobility is what makes the AORUS 17X the most powerful and versatile laptop on earth. The AORUS 17X comes with a whopping 99Wh long lasting battery. This is not just about the mechanical keyboard or the performance, it is about creating an ultimate laptop that gamer has always wanted.

99Whr Battery

Supports DTS:X Ultra

Pro players need their gear as sharp as their reflexes to stay on top. AORUS works directly with eSports players to keep every aspect cutting edge. Equipped with the prime audiovisual DTS:X Ultra sound software, get ready for the adrenalin rush! The AORUS 17X puts you in the with a full immersive experience, so you can feel the victory!
