SAMSUNG Chat

1. Available colors may vary by country.
2. Feature can be configured in the Galaxy Wearable app.
3. Bixby service availability may vary by country, carrier, and device.
4. Galaxy Buds Live must be connected to a smart device with a data network or Wi-Fi connection to fully operate Bixby features; Samsung Account login also required.
5. Availability of Bixby features and content providers may vary by country or language; Bixby only recognizes certain accents and dialects of English (UK), English (US), French (France), German (Germany), Italian (Italy), Korean (South Korea), Mandarin Chinese (China), Spanish (Spain) and Portuguese (Brazil).
6. Must be logged into Spotify. Subscription required.
7. Availability of Spotify service may vary by country.
8. Spotify is only supported on devices running version 8.5.62 and later.
9. Based on internal testing. Audio playback time tested by pairing a pre-production Galaxy Buds Live to a recently released Galaxy smartphone with settings (Active Noise Cancellation on, Bixby voice wake-up off). Actual battery life and charging time may vary by usage conditions, number of times charged and many other factors.
10. Earbuds and case provide up to 21 hours of battery life when the case charged to 100%, charging multiple times from case.
11. Play time may vary based on settings.
12. The compatibility of Galaxy Buds Live with the Wireless PowerShare function is on Galaxy Note20 series, Galaxy Z Fold2, S20 series, Z Flip, Note10 series, S10 series, and Fold. If the smartphone's battery power is less than 30%, Wireless PowerShare may not function.
13. Actual battery life and charging time may vary by usage conditions, number of times charged, and many other factors.
14. Feature only supported on devices running One UI 2.5 or later.
15. Compatible with smartphones and tablets running Android 5.0 or later and with more than 1.5GB of RAM. Also compatible with iPhone7 or later models with iOS 10 or later.
16. Some features may not be available on non-Samsung devices.
17. Compatible with PCs running Windows 10 April 2018 update or newer. To enable Swift Pair on your computer, go to "Bluetooth & other devices" and make sure that "Show notifications to connect using Swift Pair" is checked.
