20

Smart features. Sophisticated designs.

At GE Profile™, innovation isn't tech for tech's sake. We design appliances to make fast-paced modern lives simpler, incorporating intelligent home technology and advanced features into every appliance.

Discover Smarter Innovation with GE Profile, bringing the latest in meaningful innovation to tech-loving Feature Seekers. **This is smarter living.**

INNOVATIONS

We're revolutionizing the way homes work with features that allow you to do more: through remote monitoring, voice activation and technology that takes the guesswork out of cooking and cleaning.

We're bringing the future of appliances to homes today with connected appliances that continue to get better over time via downloadable updates.

PARTNERS

We've partnered with the most innovative brands to bring the latest tech and compatibility to your home.

This is smarter cooking.

Whether you're checking in on your meal with livestreaming footage to your smartphone, or simply air frying a family favorite, GE Profile ovens are filled with features that make cooking easier.

SEE THE TECHNOLOGY

Precision Cooking Modes

Automatically adjust temperature and cook time for perfect results.

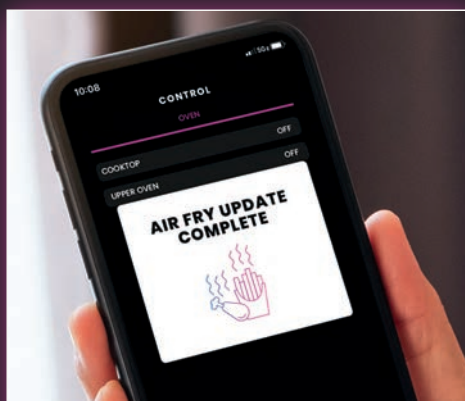

Precision Temperature Probe

Check the progress of meats from your smartphone, or sync with Precision Cooking Modes for expertly cooked dishes.

No Preheat Air Fry

Cook healthier, crispier versions of your favorite foods in less time.

GE Profile™ CONNECT +

Appliances keep getting better over time with downloadable updates and features like Air Fry, Turkey Mode and more.

In-Oven CookCam™

Check inside your oven from anywhere via the SmartHQ™ app.

the oven of the future is here

30"

Induction Cooktop

Makes stovetop cooking fast and efficient, with more precise temperature controls and easy cleanup.

SEE IT IN ACTION

"Induction cooking and that precision make smart cooking on a stove top a lot more realistic, or easier for you to do."

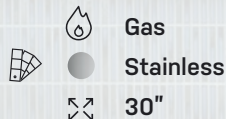

– David Cogen, TheUnlockr.com

This is smarter cleaning.

Cleaner clothes and dishes don't have to mean more work. From sensors that automatically adjust rinse cycles to antimicrobial surfaces that clean up after themselves, cleaning has never been this easy.

Smart Assist

makes it simple for you to unlock optimal wash and dry performance. Innovative dishwasher sensors and intelligent machine learning enhance and improve cycles over time.

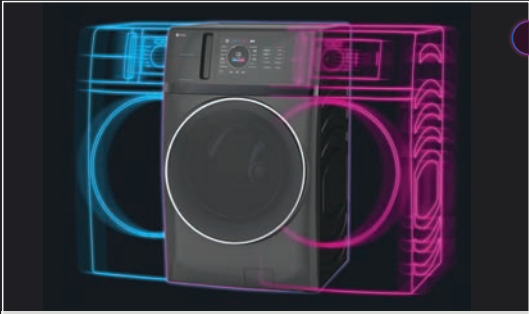

Microban® Technology

Helps reduce 99% of bacteria growth on treated surfaces compared to untreated surfaces.

SEE THE TECHNOLOGY

No Load Transfer

The UltraFast Combo is designed to enhance the way you experience laundry by optimizing washing + drying all in one machine.

Complete Cycle in 2 Hours*

Wash + dry a large load of laundry in about 2 hours* without the hassle of transferring clothes between two machines.

Greater Energy Savings

50% more energy efficient drying** with Ventless Heat Pump (**Efficiency rating as compared to the requirements for ENERGY STAR qualification for standard electric dryers).

SEE THE TECHNOLOGY

*Based on completing the Normal Wash + Dry cycle with Eco Dry using a 10-lb. DOE or Mixed Load in about 2 hours See Use & Care

FingerPrint Resistant Stainless Steel

This is smarter chilling.

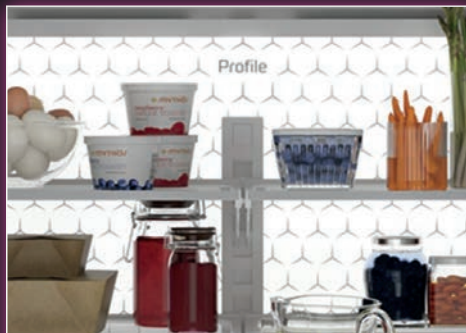

Whether it's food that's easier to find, glasses that are easier to fill, or settings you can control from your smartphone, it's time to step up your storage game with the features that make our fridges smarter than the average appliance.

Built-In WiFi

Allows you to receive notifications, control temperatures, adjust LED light wall brightness and more from your smart device.

LED Wall

The showcase LED light wall sheds bright, uniform light throughout the interior of this LED refrigerator.

**Sleek on the outside,
smart on the inside.**

Adjustable Temperature Drawer

4 temperature settings help you store meat, beverages, snacks, wine and more at their ideal temperatures.

DUAL-DISPENSE
AUTOFILL
PITCHER
pours two
ways.

Dual-Dispense Autofill Pitcher

Hands-free AutoFill uses sensors in the refrigerator dispenser to release the exact amount of filtered water or ice you want, so you can walk away while your glass fills up.

FOR BEVERAGES

Whether you're customizing your perfect morning coffee or crafting your favorite beverage with the good ice, GE Profile countertop appliances are loaded with connected features to make entertaining a breeze.

Opal™ Nugget Ice, The Good Ice

Serve up chewable, crunchable, craveable nugget ice that's ready fast and retains its flavor, unlike traditional hard cubes.

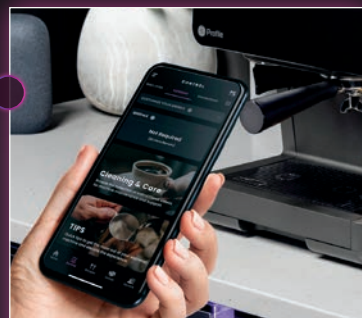

Rapid Production

Begin enjoying your first batch of ice in 20 minutes or less, with a pound of ice produced per hour.

SEE THE TECHNOLOGY

Drink Customization Technology

Sync up with the SmarHq™ app to customize drink preferences by volume and strength, while also enabling software updates.

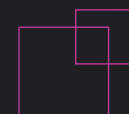

Built-In Conical Burr Grinder

The stainless-steel conical burr grinder delivers an exact amount of fresh grounds directly into the machine, with 15 grind levels to choose from.

Steam Frother

Get a variety of microfoam textures and thicknesses for lattes, flat whites, cappuccinos and more.

FOR COOKING

Whether you're baking a favorite family recipe or cooking up something new, the advanced features in GE Profile countertop appliances can help you craft the foods you crave.

Auto Sense Technology

Actively monitors changes in texture and viscosity to optimize mixing performance while eliminating over-mixing and under-mixing.

Built-In Smart Scale

Precisely weigh ingredients right in the mixing bowl or other container to remove doubt from any recipe.

SEE THE TECHNOLOGY

No Preheat for Any Mode

Start cooking without the wait with technology that eliminates the need to preheat.

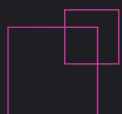

Purposeful Smart Features

Features like voice control and guided recipes help you move through your cooking process seamlessly so you can maximize your time as you create delicious meals.

Full Size Oven-Like Capacity

The large-capacity countertop oven has enough room for a 12" pizza, a 13" x 9" sheet cake or up to 7 lbs. of chicken.
