

609L UltimateTaste french door refrigerator, natural stainless with ice & water & convertible compartment

RRP AUS \$4,649.00

Product Details

FEATURES

TasteSealFlex -23C to 7C

TasteLockAuto

TwinTech Cooling System

WaterStream with Autolce

Connectivity

TasteGuard deodorizer

Asymmetrical Doors

FlexStor

BENEFITS

THE COMPLETE COOLING SOLUTION

The TasteSealFlex convertible compartment easily adapts to the temperature required, giving you the freedom to store everything from cheeses & deli meats to cold drinks and ice-cream. You can even store meat and fish without freezing (chilled -2C), avoiding the need for inconvenient defrosting. Always find the right space to keep your food fresh and full of flavour by choosing one of the five temperature settings from -23C to 7C.

FRESH FRUIT AND VEG, ALL WEEK

TasteLockAuto crispers do what they say they do - lock in taste automatically. These sealed crispers with automatic humidity control maintain the right humidity levels for fruit and vegetables, removing excess moisture, reducing condensation and keeping your produce fresher for longer.

OPTIMAL COOLING, OPTIMAL TASTE

TwinTech Cooling technology keeps your fresh food tasty and juicy for longer. Two independent cooling systems optimise humidity levels in your fridge to ensure that cold air doesn't dry out your fresh food, maintaining taste and texture for longer.

ICE AND WATER ON DEMAND

Enjoy chilled water and cubed or crushed ice through the fridge door whenever you need a refreshing drink. You don't even have to compromise on storage space with the slim design.

COOL, CALM AND CONNECTED

Fresh ingredients form the most important part of every meal. With Electrolux Life App you can be confident that your produce is stored in optimal conditions by remotely monitoring and adjusting the temperature of the fridge. Set the TasteSealFlex convertible zone to 0C when you're out buying drinks so that you have the ideal storage conditions when you get home. With automatic push notifications, you'll never have to worry about leaving the fridge door open or forgetting to change the water filter.

CLEAN, HYGIENIC STORAGE

TasteGuard uses a carbon filter to keep your fridge fresh, hygienic and free from unwanted odours* that can change the taste and smell of your food.

MINIMISE THE ESCAPE

Cool air escapes every time that you open the fridge or freezer door, slowing down the preservation process. Our SmartSplit door design has created 2 separate openings - one for larger items and the other for smaller. This means you don't have to open both at the same time to access items, preventing cool air from escaping & maximising energy usage.

CUSTOMISABLE DOOR DESIGN

Customise your fridge just the way you want it. FlexStor makes it simple to arrange the fridge to your needs with adjustable door bins and shelves. Different sized compartments effortlessly accommodate items big or small

Dimensions

Minimum Recommended Airspaces

Please note: Doors are designed to sit proud of cabinetry (not flush).

Front face of bench aligned to front corner edge of cabinet.

When positioned in a corner area, spacing of at least 310mm on the right hinge side and 219mm on the left hinge side will allow the doors to open enough to enable the removal of bins and shelves.
