

Insigna

Sign lighting worthy of a Hollywood premiere

Insigna

Insigna introduces the “linear era” in floodlighting, with the power to light up an entire building or billboard with maximum lighting and energy efficiencies. This unique, cool-running fixture is configured in a single row, and features wide-spread beam patterns, amazing output, sealed optics, and a remote driver. Insigna comes in shorter versions for smaller wall washing, canopy lighting, and architectural detail illumination.
