

iVMS-4200 Client Software

iVMS-4200 is versatile video management software for the DVRs, NVRs, IP cameras, encoders, access control devices, security control panels, video intercom devices, decoders, VCA devices, etc. It provides multiple functionalities, including real-time live view, video recording, remote search and playback, file backup, alarm receiving, etc., for the connected devices to meet the needs of small and medium-sized projects.

With the flexible distributed structure and easy-to-use operations, iVMS-4200 client software is widely applied to the surveillance project of financial, public security, military, telecommunications, transport, electricity, education, water conservancy industries, etc.

iVMS-4200 Main Features

Live View

- View settings and instant playback
- Main/auxiliary screen live view
- Up to 64-window division for standard screen, and 48-window division for the wide screen
- Custom window division configurable
- Live view in fisheye mode for fisheye camera
- · Master-slave tracking
- Resuming the latest live view status after client restart

Recording

- Recording both main stream and sub-stream for playback (if device supports)
- Remote manual recording
- Recording schedule for continuous recording, event recording and command recording
- Storing alarm pictures on Storage Server
- Providing SAN and CVR configuration for CVR device
- Video file overwritten and expired video file deleting

Alarm Management

- Camera linkage and multiple linkage actions
- Device arming and alarm output control
- Alarm configuration for camera event, alarm input, zone event and device exception
- Searching and exporting the linked pictures of alarm logs

- Audible waring and pop up image when alarm triggered
- Custom alarm sound as desired

Playback

- Local and remote playback
- Instant playback, normal playback, alarm input playback, event playback, ATM playback, VCA playback, and fisheye playback
- Up to 16-ch synchronous playback
- Locate the playback time accurately
- Skipping the unconcerned video during VCA playback
- Searching the video files which contain POS information
- Providing Player in the installation directory to view the downloaded video file
- Merging the video files when downloading by date

Access Control and Video Intercom

- Managing video intercom and access control in one module
- Adding cards, fingerprints, and permissions when adding a person
- Reporting card loss if the card is lost and canceling card loss if the card is found
- New design and interaction for time and attendance: Providing department schedule, multiple shift schedules, and various statistics
- Pre-defining scheduled report that the client will send to the email address automatically
- Real-time alarm management for added access control devices
- Subscribing alarm that the client can display in real-time alarm management when it is triggered
- Alarm linkage with added cameras, including pop-up live view and captured picture
- Adding access control point as hot spot on E-map and viewing the video of the linked camera
- Configuration wizard for access control and time and attendance

Security Control Panel

- Real-time alarm management for added security control panels
- · Subscribing alarm that the client can display in real-time alarm management when it is triggered
- Acknowledging the received alarm, viewing the alarm on E-map, etc.
- Alarm linkage with added cameras, including pop-up live view, captured picture
- Adding zone as hot spot on E-map and viewing the video of the linked camera
- Configuration wizard

Statistics

- Data statistics of heat map, people counting, counting, road traffic, face retrieval, license plate retrieval, behavior analysis, and face capture
- Showing large picture of face retrieval, license plate retrieval, and behavior analysis and the pictures can be exported for local storage

Network

- Encoding devices, decoding devices, Hik-Connect devices, access control devices, security control panels, video intercom devices, storage servers, stream media servers connectable
- Checking device's online users
- NTP protocol for time synchronization
- Searching the active online devices
- · Adding devices by Hik-Connect domain which have been added to the Hik-Connect account
- Adding devices by HiDDNS and IP Server; batch importing devices
- Generating QR code for encoding devices to add to the mobile client
- Two-way audio and broadcast function

Backup

- Downloading video files to PC
- Log search and backup
- Importing and exporting the configuration file
- Auto backing up database according to the configured schedule

General

- Applied in local area network and wide area network
- Facial identification device such as DeepinView and DeepinMind.
- H.264, H.264+, H.265, and H.265+ video encoding formats
- E-map function
- Remote configuration for added devices
- User permission management
- Creating a password to activate the device. For device which supports Hik-Connect, enabling Hik-Connect service when
 activating it.
- Resetting device password
- Hardware decoding for live view and playback
- Linkage between video surveillance and non-video surveillance (access control, video intercom, and security control panel)

PTZ Control

- Remote PTZ control, preset, patrol, and pattern settings
- 3D positioning, auxiliary focus, and wiper function
- Displaying analog speed dome's local menu via PTZ control panel
- PTZ control of one-touch patrol and one-touch park

Specifications

Feature		ture	Specifications			
	Model		iVMS-4200			
	Data	base	SQLite			
		User	Support up to 50 users and one super user			
	General	E-map	Support up to 256 maps			
		Encoding Device	Support up to 256 encoding devices			
		Decoding Device	Support up to 64 decoding devices			
		Group	Support up to 256 groups Support up to 256 channels for each group			
		Channel	Support up to 256 channels for all groups			
		Storage Server	Support up to 16 Storage Servers			
		Stream Media Server	Support up to 16 Stream Media Servers			
		Live View	Support up to 64-ch live view at a time			
		Auxiliary Screen Preview	Support up to 4 auxiliary screens for live view			
	Video	Playback	Support up to 16-ch playback at a time			
		Synchronous Playback	Support up to 16-ch synchronous playback			
		Download	Support up to 16 downloading tasks at a time			
Client	Access Control	Person	Support up to 10,000 persons Support up to 5 cards for each person			
		Organization	Support up to 10 hierarchies			
		Fingerprint	Support up to 10 fingerprints per person, and 100,000 fingerprints in total			
		Access Control Device	Support up to 16 access control devices			
		Access Control Point	Support up to 64 access control points			
		Template	Support up to 255 templates			
		Permission	Support up to 128 access control permission groups			
		Door Station	Support up to 16 door stations			
		Indoor Station/ Master Station	Support up to 512 indoor stations or master stations			
		Time and Attendance Data	Retention period of attendance result: one year Retention period of original data: three months			
		Shift	Support up to 64 shifts			
		Attendance Report	Support 12 reports, including check-in/out correction report, leave and business trip report, attendance summary, attendance details report, abnormal attendance report, overtime report, card swiping log report, total overtime monthly report, overtime details monthly report, attendance monthly report, start/end-work time report, and department attendance report			

	Security Control	Security Control Panel	Support up to 256 security control panels	
	Panel	Zone	Support up to 2,048 zones	
		User	Support up to 32 users	
Storage	Server	Recording Performance	Support up to 64-ch × 2 Mbps at a time	
	VOD Performance Sup		Support up to 64-ch × 2 Mbps at a time	
		iVMS-4200 Client	Support up to 128 iVMS-4200 clients connected to the Storage Server	
Stream Media Incoming/ Support up to 64-ch incoming video stream Support up to 200-ch outgoing video stream		11 1		

System Requirements and Performance

Client Requirements

Feature		Requirement			
	Processor	Intel® Core™ i5-4590 @ 3.30 GHz			
Minimum	Memory	8 GB of RAM			
Willimani	Operating System	Microsoft® Windows 7 (64-bit)			
	Video Card	NVIDIA GeForce GTX 970			
	Processor	Intel® Xeon® E3-1226 V3 @ 3.30GHz			
Recommended	Memory	8 GB of RAM			
Kecommended	Operating System	Microsoft® Windows 7 (64-bit)			
	Video Card	Intel® HD Graphics P4600			
	Processor	Intel® Core™ i7-6700K @ 4GHz			
High Darformance	Memory	16 GB of RAM			
High Performance	Operating System	Microsoft® Windows 7 (64-bit)			
	Video Card	NVIDIA GeForce GTX 1070			

Performance under Different Client Requirements (Software Decoding)

Encoding Format	Resolution	Bit Rate (Mbps)	Frame Rate (fps)	Maximum Number of Cameras Viewed Simultaneously		
				Minimum	Recommended	High Performance
	720p	3	30	27	25	42
H.264	1080p	6	30	13	12	20
п.204	3 MP	8	30	9	9	14
	8 MP	16	30	3	2	5
	720p	1	30	33	29	65
H.264+	1080p	3	30	18	14	29
	3 MP	4	30	10	9	18
	720p	1	30	26	24	41
H.265	1080p	3	30	10	9	16
	3 MP	4	30	6	6	11
	720p	0.5	30	29	26	45
H.265+	1080p	1	30	13	11	21
	3 MP	2	30	8	7	14

Performance under Different Client Requirements (Hardware Decoding)

Encoding Format	Resolution	Bit Rate (Mbps)	Frame Rate (fps)	Maximum Number of Cameras Viewed Simultaneously	
				Recommended	High Performance
H.264	1080p	6	30	25	25

	8 MP	16	30	6	6
	720p	1	30	45	45
H.264+	1080p	3	30	24	23
	3 MP	4	30	19	17
	720p	1	30	N/A	45
H.265	1080p	3	30	N/A	23
	3 MP	4	30	N/A	15
	720p	0.5	30	N/A	45
H.265+	1080p	1	30	N/A	22
	3 MP	2	30	N/A	15

Note:

- For the field of N/A, the video card under the recommended system requirement does not support H.265 or H. 265+.
- The above parameters are for reference only. Under the same resolution and frame rate, the bitrate of different camera manufacturers may be different. Moreover, the decoding performance of different manufactures may also be different.

Server Requirements (Storage Server and Stream Media Server)

Feature		Requirement		
	Processor	Intel® Core™ 2 Duo E6850 3.0 GHz		
	Memory	4 GB of RAM		
Minimum	HDD	80 GB Hard Drive		
	NIC	100/1000 Mbps Ethernet Network Interface Card		
	Video Card	Standard SVGA Video Card		
	Processor	Quad Core Intel® Xeon® E5640 2.66 GHz		
	Memory	16 GB of RAM		
Recommended	Operating System	64-bit Operating System		
Recommended	HDD	80 GB SATA II Hard Drive		
	NIC	GbE Network Interface Card		
	Video Card	Standard SVGA Video Card		

Typical Applications

Application for Video Surveillance

Application for Video Intercom

Application for Security Control Panel

Application for Access Control
