## NOTES

With a digital recorder optimized for notes, you'll never lose those thoughts and ideas you have when you're on-the-go. Simple and convenient.

## CONVERSATIONS

Spare yourself the writing or typing and concentrate on the conversation. With a digital recorder optimized for conversations, you'll never miss a single word or key fact.

## LECTURES & INTERVIEWS

With a digital recorder optimized for lectures and interviews, you can record the speakers even if you're at a distance from them. No more missing-out or misunderstanding.

## MUSIC

Capture every beat with a digital recorder optimized for music. Achieve studio-like quality recordings of your favourite instruments and songs.

## MEETINGS

Capture every meeting in excellent audio quality. Simply place the 360° meeting microphone on the table, press record and capture all speakers, from every angle.

### 2Mic recording

The two built-in stereo microphones are designed to deliver clear voice recordings and reduce background noise, even in loud environments. High-quality recording is essential for clear playback and accurate speech recognition results.

### AutoAdjust+ recording

Recording in different environments is often a challenge. AutoAdjust+ is an innovative, intelligent recording algorithm which chooses the perfect settings for each recording situation. This makes the device the ideal companion when recording more than one speaker.

### 3Mic AutoZoom+ recording

The innovative 3Mic AutoZoom+ technology suppresses surrounding noises, while zooming in on the speaker's voice, creating crystal clear recordings. The motion sensor senses whether the device is in the hand or on the table, automatically adjusting microphone sensitivity accordingly.

### 3Mic High-Fidelity recording

The three high-quality microphones offer uncompromised high fidelity sound recording. The line-in slot and included XLR connector allow you to connect your instruments directly to the device for an even crisper recording.

### 360° recording

The innovative full radius meeting recorder captures everyone's ideas in excellent audio quality no matter where they are seated at the table. The included remote control makes operation even more convenient.
