

Safety Precaution:

1. Do not squeeze or collide the Magnetic Wireless Charger.
2. Do not disassemble or throw the Magnetic Wireless Charger into fire, water or other liquid.
3. Do not use Magnetic Wireless Charger in severely hot, humid or corrosive environment.
4. Please keep Magnetic Wireless Charger away from cards with magnetic stripe such as ID card, bank card or credit card in order to avoid magnetic failure.
5. Please keep the Magnetic Wireless Charger away from any implantable medical devices such as pacemaker and other devices in order to avoid potential interference.
6. Please do not allow children to play with Magnetic Wireless Charger. The Magnetic Wireless Charger is not a toy.
7. Disconnect Magnetic Wireless Charger from power before cleaning with a dry cloth.
8. Optimal operation temperature: 32°F-104°F.
9. Magnetic Wireless Charger is equipped with smart IC to prevent a short circuit. Even with the smart IC protection, do not attempt to charge the smartphone if it is inside a metal phone case or any smartphone coming with a metal backing in the center of the device.

Magnetic Wireless Charger

User Manual

Specifications

Model No.:P14027

Input: 9V $\overline{=}$ 2.2A

Output: 15W Max

Compatible with:

iPhone models 12 & higher

Works with ANDROID™

Special attention

Please place smartphone with wireless charging capability on the center of the Magnetic Wireless Charger for successful charging.

20W power adapter is required for optimal charging.

Smart IC(Internal Protection Design):

Prevent the phone from overheating.

Content:

Magnetic Wireless Charger, User's manual.

*AC adapter is not included.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
