

Cooking Range 2016

Discover the Electrolux Life

Redefining modern living

Life is what you make of it. So why not make it the very best? With Electrolux products in your home, even the simple, everyday tasks become a pleasure. It's taking the ingredients fresh from the fridge, as though they were bought yesterday. It's switching on the enhanced FullTaste steam oven setting, which cooks with steam and heat, to

serve up restaurant quality dishes with all the succulent flavours locked in, it couldn't be simpler. It's fitting all the used pots, pans, jugs and utensils into the dishwasher with ease, the same level of flexibility that serves busy restaurant kitchens, daily. Meanwhile, laundry day transforms from chore to near joy with a simple way to care for your clothes so

they feel like new every time you wear them. Your washer and dryer remember your favourite cycles, consume only what's necessary for pristine results and even offer programmes that cut your ironing in half. It's enjoying our professional knowledge and experience in your own home with our Inspiration Range. It's living the Electrolux Life.

discover the
Electrolux Life

Our professional experience

Did you know that nearly 50% of chefs featured in the Michelin Guide in Europe use Electrolux equipment in their restaurant kitchens? For 90 years, we've been supplying products to the world's most prestigious restaurants and professional laundries.

As the only global brand with a full range of both professional and domestic kitchen appliances, we believe that everyone can achieve amazing results with the right appliances. From delicious mouth-watering meals expertly cooked in your steam oven to freshly laundering your most delicate garments with ease, with Electrolux you enjoy easy, beautiful living every day.

Electrolux Appetite for Excellence

To support the next generation of Australian hospitality talent, Electrolux sponsors Australia's only national hospitality awards program, Electrolux Appetite for Excellence.

Created by Luke Mangan and Lucy Allon in 2005, the program searches for Australia's hottest young talent within the industry and offers three award categories - Electrolux Young Chef, Electrolux Young Waiter, Electrolux Young Restaurateur.

As a brand that designs both professional and household appliances, Electrolux is pleased to play a role in supporting the young talent who will drive the future of Australian cooking and dining.

taste FESTIVALS

Taste Festivals

Electrolux is the major sponsor of Taste Festivals - a series of high profile restaurant festivals which take place in the heart of large cities throughout the world including London, Milan, Dubai, Amsterdam and Stockholm. Locally, Electrolux is the major sponsor of Taste of Sydney, Taste of Perth, Taste of Melbourne and Taste of Auckland.

The partnership is designed to bring unique and memorable food experiences to Australian food lovers including the Electrolux Taste Theatre which features live cooking demonstrations by Australia's leading chefs on the latest Electrolux appliances. New to Taste Festivals in Australia is the Electrolux Chefs' Secrets - an intimate masterclass where guests can cook alongside their favourite chefs and learn how to cook one of their signature dishes, before sitting down to enjoy the meal together with the chef.

Ovens

Worth knowing

With the Electrolux range of 60cm and 90cm ovens, design meets function for truly incredible results. We've incorporated the very best in technology including our unique Intuitive Oven Interface, smart food temperature probe and steam cooking. Add this to stunning design features and pyrolytic cleaning and you have a collection that is as luxurious as it is functional.

Smart food probe
For the ultimate in consistency, the Smart Food Probe measures the core temperature of food so you enjoy perfect results every time. With a range from 50 to 99°C, simply set your desired core temperature and walk away. The oven will turn itself off when your set temperature is reached. That means you'll never overcook a roast again! This smart IOI control also lets you know when your food will be ready so you can get on with other things.

Cleaning solutions
Pyrolytic Self cleaning
An oven that cleans itself? Now that's the Electrolux life. Our Pyrolytic cleaning function does all the hard work for you without harsh chemicals. Just turn it on, wait for it to finish and wipe away the residue. It's that simple. Plus, the easy clean reminder lets you know when your oven needs a clean.

Catalytic cleaning
Rounded edges and the optional self-cleaning catalytic wall liners makes cleaning easy as they absorb grease during cooking and oxidise the grease at high temperatures, reducing cleaning time.

FullFlex telescopic slides
Safely pull oven racks and trays all the way out of the oven with our FullFlex telescopic slides. Not only is loading and unloading the oven more efficient, it's also easier to turn dishes and stir your food. And with better access, you'll enjoy even better results for every dish.

Cool touch doors
For added safety and peace of mind in the kitchen, the cool touch door features an innovative cooling system with multiple glazed door glass panels. So it's cool on the outside, no matter how high the temperature is on the inside. The intelligent design also includes a Soft Close Door mechanism on selected models for smooth operation, while minimising heat from being transferred outside the oven for an optimal kitchen environment.

IOI™ makes cooking easy
Cooking should be a joy. That's why we removed all the complexities and guesswork to develop our unique Intuitive Oven Interface (IOI). We watched how people use their ovens, then designed an oven so intuitive you won't even need a manual to use it. The elegant and stylish full colour screen displays temperature and function feedback, so you can easily program and check your cooking for consistently impressive results. Each function has a suggested yet adjustable temperature. There's even an automatic count up timer, so you know exactly how long you've been baking. With just one touch, the display will come to life and be ready to create your next delicious meal.

For great taste, just add steam

Steam is your secret ingredient.

FullTaste STEAM SYSTEM

Bring out the full taste of food

The FullTaste Steam System has two performance levels for you to choose from – standard or advanced. These ovens ensure the right combination of steam, moisture and heat to bring out the taste and texture every time you cook.

Cook with steam and hot air

The 60cm steam ovens use a combination of steam and hot air, a cooking method perfected by Electrolux for professionals. Cooking with steam locks in flavour and vital nutrients, while also preventing the cross-contamination of flavours. Steam is also a great addition when baking, delivering crispier golden crusts for breads and even lighter and fluffier cakes and pastries.

FullTaste advanced steam oven

Advanced steam cooking allows you to cook every dish to perfection and get fantastic results, faster. Used in professional kitchens, this versatile cooking method preserves food's natural flavour and goodness with the power of steam and heat. Use it to bake, roast, grill and even slow cook, and produce amazing mouth-watering dishes just like a top chef. (Model EVE678SC)

Reheat with Steam

Reheat already cooked food (rice, pasta, pizza, vegetables) directly on a plate without drying it out or leaving it soggy.

Succulent

Cooking with steam ensures that the natural juices remain and a succulent joint is achieved without constantly basting.

Crisp

Due to the combination of fan heat and steam, meat is sealed and crisp on the outside.

Less shrinkage

The touch of steam whilst cooking means less shrinkage on meat joints.

Perfect colour

First impressions are key, cooking meat with steam and fan heat ensures it's cooked to perfection to suit your individual taste, be it rare or well done.

Tender

Cooking with fan heat and steam keeps meat tender and juicy.

IOI™ Steam Pyrolytic Oven

EVEP618SC
60cm pyrolytic and steam
15 multifunction oven

Technical info

Cut-out dimensions (mm)
600 (H) x 600 (W) x 581 (D)

Product dimensions (mm)

Freestanding cookers what's new

Offering the perfect combination of cutting-edge design, power and functional features, the Electrolux 90cm freestanding cooker with Pyrolytic oven will be the standout performer in your kitchen. With class-leading capacity, you'll be able to prepare several dishes simultaneously with absolute ease and control. Incorporating the very best in oven technology, the unique Intuitive Oven Interface is so stylish and simple to use, you won't even need a manual. The high definition full colour animation clearly shows the oven's status and proves that functional design can be beautiful too.

Pyrolytic self cleaning
An oven that cleans itself? Now that's luxury. Our Pyrolytic cleaning function does all the hard work for you without harsh chemicals. Just turn it on, wait for it to finish and wipe away the residue. It's that simple. Plus, the easy clean reminder lets you know when your oven needs a clean.

IOI™ makes cooking easy
The elegant and stylish full colour screen displays temperature and function feedback, so you can easily program and check your cooking for consistently impressive results. Each function has a suggested yet adjustable temperature. There's even an automatic count up timer, so you know exactly how long you've been baking. With just one touch, the display will come to life and be ready to create your next delicious meal.

Huge 125L gross capacity
Designed for the entertainer and large families, this large capacity 125-litre oven will make catering for every occasion quick and easy. Plus, energy use is also kept to a minimum, despite its size.

5 zone induction or 5 burner gas cooktop

Pyrolytic self cleaning

IOI™ touch controls

Twin fan system

Split system grill

125L capacity

Twin fan system
Cook each dish to perfection with the twin fan system. Fans rotate in opposite directions, distributing heat evenly throughout the oven, so you enjoy great results every time.

Split grill system
Take grilling to a new level of flexibility with the split grill system. Select to utilise both of the powerful grill elements, or just the one, depending on your cooking needs. For further control of your grilling, select to grill on either low or high temperature levels, or with the assistance of the fan.

IOI™ Multifunction Oven

EFEP915SB

90cm pyrolytic dual fuel cooker

Technical info

Compact Steam Oven

EVE678SC

38cm compact combination oven with grill, steam and hot air

Technical info

Flush fit cut-out dimensions (mm)
391 (H) x 600 (W) x 570 (D)

Product dimensions (mm)
388 (H) x 596 (W) x 567 (D)

Features

- FullTaste advanced – 100% full steam cooking
- 16 multifunctions
- Convection oven with grill
- A compact oven offering combination steam cooking
- Full touch controls to ensure precise setting of the temperature and functions
- Quadruple glazed door for cooler door temperatures
- Child safety device for added confidence
- Design alignment with 60cm ovens and other compact ovens
- Full, half and quarter steam
- Favourite program
- Mark-resistant stainless steel

Built-in Combi Microwave Oven

EMB2527BA

Built-in combination microwave oven

Technical info

Product dimensions (mm)
388 (H) x 595 (W) x 460 (D)
(with trim kit)

Features

- Built-in for seamless integration
- 7 cooking modes
- Easy touch controls
- Auto defrost
- Mark-resistant stainless steel
- Full digital display
- Convection, microwave and grill
- 9 Power levels

Compact Microwave Oven

EVEM677SC

38cm compact microwave, grill and fan forced oven

Technical info

Flush fit cut-out dimensions (mm)
391 (H) x 600 (W) x 570 (D)

Product dimensions (mm)
388 (H) x 596 (W) x 567 (D)

Features

- 12 multifunctions
- 45 pre-set recipes
- Full touch controls to ensure precise setting of the temperature and functions
- Fully programmable timer
- Pre-program and save up to 20 favourite functions
- Quadruple glazed door for cooler door temperature
- Child safety device for added confidence
- Design alignment with 60cm ovens and other compact ovens
- Mark-resistant stainless steel

Countertop Combi Microwave Oven

EMF2527BA

Countertop combination microwave oven

Technical info

Product dimensions (mm)
328 (H) x 515 (W) x 460 (D)

Features

- Countertop for added convenience
- 7 cooking modes
- Easy touch controls
- Auto defrost
- Mark-resistant stainless steel
- Full digital display
- Convection, microwave and grill
- 9 Power levels

Cooktops

Worth Knowing

Our Inspiration range of gas cooktops add a professional touch to your kitchen. Enjoy unrivalled adjustability and go from cooking at the highest temperature to the lowest controlled simmer. Professional levels of power ensure super fast heating, while the stable cooking surface allows you to easily move pots across the flat cast trivet surface.

Convenient electronic ignition
The convenient press down and hold electronic ignition is operated by burner control knobs and alleviates the need for untidy matches and gas guns.

Versatile dual gas valve
Experience fast heating and slow simmering from professional levels of power from 17MJ to 1MJ. The highest setting allows for rapid boiling, searing and stir-frys while the lowest lets you simmer slowly and is ideal for delicate sauces.

Flame failure safety device
For added peace of mind, the flame failure safety device shuts down the gas if the flame becomes accidentally extinguished while cooking. This gives you confidence to use your cooktop at the lowest simmer and also reduces the risk of fire.

Stability with flat cast trivets
Experience a supremely stable and stylish cooking surface with flat cast trivets. Enjoy peace of mind when cooking with a large heavy pot with the practicality of a flat surface when moving pots and pans across the cooktop.

Innovative wok burner
Take your cooking expertise to the next level with our innovative wok burner. With professional levels of power, you will experience super fast heating and amazing results every time.

5 Burner Gas Cooktop

EHG955SA

Stainless steel 90cm front control gas cooktop

Technical info

Features

- Powerful 17MJ/h wok burner for rapid heating of large pots and pans
- Gentle 1MJ/h for simmering
- Dual valve control for better range of power on wok burner
- Cast trivets give a broad flat work surface for easy movement of pots and pans
- Flame failure safety device
- Metalised knobs for quality feel and control
- Ceramic glass for high durability
- Electronic ignition
- Side control
- Wok trivet supplied

Single Glass Gas Cooktop

EHG313BA

Black ceramic glass 32cm single power burner gas cooktop

Technical info

Cut-out dimensions (mm)
303 (W) x 485 (D)

Product dimensions (mm)
320 (W) x 520 (D) x 56 (H)

Features

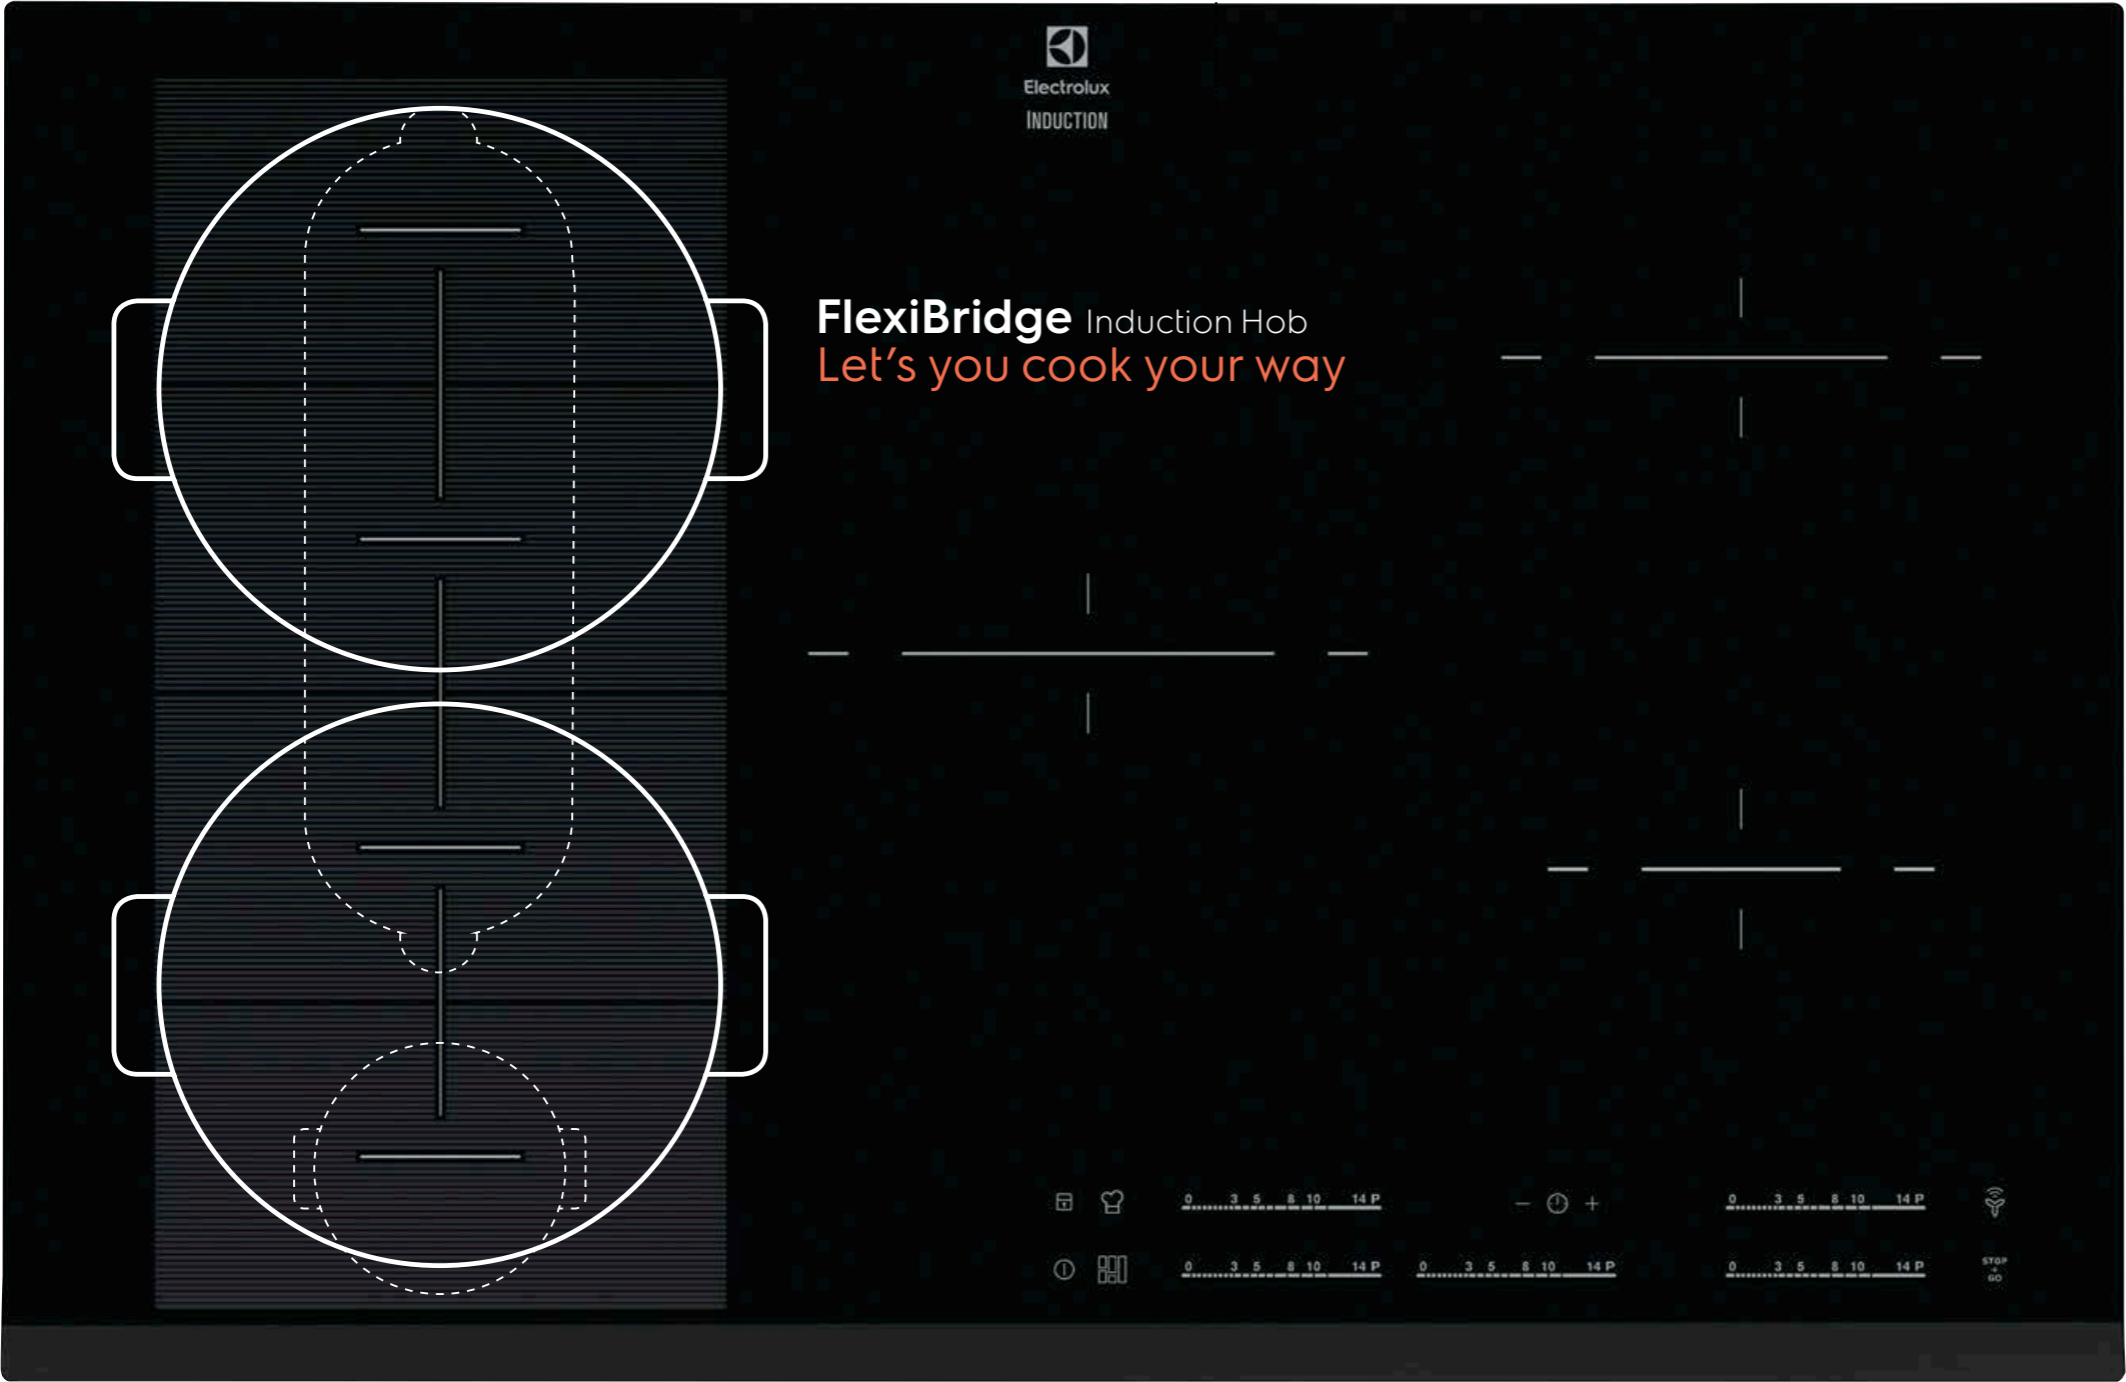

- Powerful 17MJ/h wok burner for rapid heating of large pots and pans
- Gentle 1MJ/h for simmering
- Dual valve control for better range of power on wok burner
- Cast trivets give a broad flat work surface for easy movement of pots and pans
- Flame failure safety device
- Ceramic glass for high durability
- Integrates with 60, 70 & 80cm induction cooktops
- Electronic ignition
- Front control for easy access
- Wok trivet supplied

Cooktops

What's new

Cook how you want on one of the largest cooking areas available.

Culinary freedom

Enjoy the flexibility to cook exactly the way you want to with our new FlexiBridge induction cooktops. The special four-segment cooking area not only allows you choose how you want to combine each area, but also lets you combine all four segments. This gives you one of the largest single cooking areas available. Plus you'll also enjoy optimised heat distribution for great results every time. Designed to accommodate a wide range of pan shapes and sizes.

Flexible bridging

Regular use:
For when you use normal size pots and pans.

Bridge one:
For when you use larger cookware, you can join three segments together. At the same time, you can use the small segment separately for an espresso or sauce pot.

Bridge two:
For when you use extra large cookware (such as a plancha grill or fish kettle), you can combine all four segments.

PowerSlide

Cook like a professional with three temperature areas.

1. Heat up:
The high heat setting that heats up your dishes fast.

2. Cooking:
The medium heat setting that keeps your dishes cooking at a steady, even temperature.

3. Keep warm:
The low heat setting for keeping your dishes warm without over cooking them.

1. Heat up:

2. Cooking:

3. Keep warm:

Direct Access controls

Quick and accurate. Precise heat control in an instant, with just one touch. Individual Direct Access controls enable you to adjust and control heat levels quickly, easily and accurately.

Made for each other

Our expansive range of induction hobs gives you perfect control and even heat, so why not add the perfect complement with an exquisitely versatile cooking tool?

The Professional Connection

Chefs use woks for a range of cooking techniques, from stir-frying to braising, deep-frying and simmering.

e Motion trivet (EIWT01)

Want to use a rounded wok pan on a flat hob? No problem. With the e Motion® wok trivet, you'll enjoy quick, intense cooking for tastier, healthier dishes. Beautifully designed for both form and function, the chromed aluminium trivet is a work of art. And the great thing

is, it doesn't hold heat yet it allows for easy rounded wok cooking on your induction cooktop. A masterpiece in design, the stand will create just as much conversation as the meals you make using it. For more details visit electrolux.com

- Black ceramic glass
- Safety child lock
- Front control for easy access

Hoods Worth knowing

How innovation across our Inspiration Range helps you in the home.

8-12 changes of air per hour

Extraction Rate Calculation
Air-flow is the capacity of the hood to extract air from the kitchen. Air-flow is expressed in m³/hr (cubic meters per hour) and indicates the quantity of cubic meters of air that the hood can extract in one hour at maximum power. A larger number means a faster rate of extraction but not necessarily a better hood for you. A suitable rangehood will be able to change the air in your kitchen at least 8 times in an hour but ideally 12 times.

Volume of kitchen (length x width x height) eg. 4m x 3m x 2.5m = 30m³

12 changes of air per hour eg. 12 x 30m³ = 360m³

Benefits of LED lights vs. normal lamps

- Low energy consumption**
 - Reduction of energy consumption up to 70%.
- Sustainability**
 - No use of quicksilver, sodium, lead or other heavy metals.
 - Reduction of air pollution and heat generation.
- Good life expectancy**
 - Life expectancy of 50,000 hours
 - Reduction of maintenance cost.

Island hood

- Perfect if you have a central island at the heart of your kitchen.
- Suits those with a social life that revolves around cooking.
- Adds style with sophisticated design and technology.

Slide out cooker hoods

- A space-saving solution with impressive technology for air extraction.
- Easy to interact with while you are cooking.

*Please note that the above overview does not include all available hoods.

Hob²hood

Cooking takes on a new dimension when appliances do the thinking for you. Designed to let you focus on cooking while keeping your kitchen fresh, our innovative Hob²Hood feature turns on the rangehood as you turn on your induction hob.

This smart technology allows a compatible rangehood and induction hob to seamlessly work together using an infrared connection. As you increase the heat, the induction hob automatically adjusts your hood to your cooking intensity so you don't have to worry. With a sleekly designed hood and powerful motor, you'll also use minimal energy to instantly get rid of those unpleasant cooking odours.

Noise Level (dB)

Cooking Rangehood

Canopy Hob²Hood Rangehood

ERC930SA

90cm wall mounted canopy rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)

90cm curved glass canopy rangehood

Technical info

Duct diameter (mm)
200

Product dimensions (mm)
900 (W) x 500 (D) x 1158 (H Max)

Features

- Stylish ‘Touch on’ black glass controls
- Architectural curved glass design
- Dishwasher safe filter
- Low energy, high performance dimmable LED strip lighting
- 3 speeds plus Boost
- Maximum 1000m³/hr extraction
- Filter saturation sensor
- Low noise levels during operation
- 68 dB(A) maximum

Canopy Rangehood

ERCE9025BA
90cm touch control canopy rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)
900 (W) x 500 (D) x 1145 (H Max)

Features

- Stylish combination of stainless steel and black ‘Touch on’ glass controls
- Backlit controls for easy use
- Dishwasher safe filters
- Halogen lighting
- 3 speeds to cater to your needs
- Maximum 630m³/hr extraction
- Filter saturation sensor
- 62 dB(A) maximum

Island Rangehood

ERC1931SA
100cm island canopy rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)
998 (W) x 700 (D) x 1150 (H Max)

Features

- Stylish combination of stainless steel and black ‘Touch on’ glass controls
- Backlit controls for easy use
- 725m³/hr maximum airflow
- Hob²Hood connectivity capable
- 725m³/hr maximum airflow
- Stainless steel body
- Touch on glass controls
- 4 x 4w LED lights
- Multi-layer dishwasher safe filters
- Noise level 63dB (68dB Intensive)

Integrated Rangehood

ERI712SA
80cm integrated rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)
702 (W) x 284 (D) x 305 (H)

Features

- 720 m³/hr maximum airflow
- 3 speed twin fan motor plus boost
- Push button electronic controls
- 2 x 4w LED lights
- Multi-layer dishwasher safe filters
- Noise level 70dB(A)

Integrated Rangehood

ERI512SA
60cm integrated rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)
522 (W) x 284 (D) x 305 (H)

Features

- 650 m³/hr maximum airflow
- 3 speed twin fan motor plus boost
- Push button electronic controls
- 2 x 4w LED lights
- Multi-layer dishwasher safe filters
- Noise level 70dB(A)

Slide Out Rangehood

ERR927SA
90cm slide out rangehood

Technical info

Duct diameter (mm)
150

Product dimensions (mm)
900 (W) x 300 (D) x 275 (H)

Features

- 625m³/hr maximum airflow
- Stainless steel front trim
- 2 speed twin fan motor
- Switch and slide controls
- 2 x 4w LED lights
- Multi-layer dishwasher safe filters
- Noise level 69dB(A)

- Noise level 69 dB(A)

Dishwashers

Worth knowing

No matter what you put in your dishwasher – from the largest, dirtiest pans to your most delicate glassware – RealLife® XXL TimeManager will deliver outstanding cleaning, ensuring you get sparkling results every time.

Excellent cleaning
Achieve outstanding results with our clever FlexiSpray Arm and five spray levels. Unlike traditional spray arms, ours moves in multiple different ways, also reaching the most crowded areas to get all of your items spotlessly clean, no matter how they are loaded.

FlexiWash
Everything will be spotlessly clean, all in the same cycle. Wash glasses in the upper rack and pots and pans in the lower rack.

Intelligent AutoFlex program adjusts the settings to your load
Our clever AutoFlex program uses sensors to determine how dirty your dishes are – and then picks the best cycle to get them outstandingly clean. As a result – high performance, economical cleaning that uses minimum energy, water and time.

Quiet inverter system
Enjoy the peace that comes with an ultra-quiet dishwasher. With a whisper-quiet 42dBA operation noise level, you can wash your dishes at any time convenient for you. The Inverter motor is also extremely durable and long lasting. (ESF8725ROX)

XtraPower option
Experience professional cleaning results on even the most heavily soiled loads with the XtraPower feature. This high-power option increases the water pressure in the prewash and washing phases by 40% to ensure a sparkling clean every time. (ESF8725ROX)

Take control with TimeManager
Use the TimeManager option which makes some clever adjustments. You can reduce the programme's time cycle by up to 50% – while enjoying the same comparable performance. (selected programs)

SoftSpikes®
Keeps your glasses in a steady position giving outstanding glassware.

FlexiBasket
Enjoy the perfect combination of foldable racks and shelves with FlexiLift adjustable upper basket, and successfully load even those awkwardly shaped items with ease.

RealLife XXL wash system
Now you can be creative and prepare multiple dishes without having to worry about washing up. With its extra tall tub and generous internal space, the RealLife XXL Wash System has been cleverly designed to fit those larger, awkwardly shaped items like chopping boards, pots and pans.

Aqua Control
Peace of mind with Aqua Control anti-flood protection.

MyFavourite program
This handy feature allows you to save your personal favourite wash program and use it with the touch of a button.

QuickPlus at 60°C
Our 30 minute quick wash program washes at up to 60°C and ensures great results for lightly soiled dishes.

Pyrolytic underbench cut-out dimensions

Type of fit	A (width)	B (height)	C (depth)	D*
Flush fit (mm)	600	600	581 min.	20

Please note! Dimensions to be used as a guide only. All customers MUST refer to the user manual supplied with the product for detailed installation instructions.

Note: Dimension 'D*'
For proper ventilation there must be a gap at the bottom rear of the cabinet. This can be a slot 20mm deep or an equivalent, full width opening (e.g. a series of holes) with a min area of 120cm². The opening must be clear of the product when fully installed. This is a requirement any EVEPxxxx model. Power point connection for the EVEP618SC must be accessible with the appliance fully installed. If the supply cord is damaged it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

TOP SERVICE

Electrolux Top Service encompasses the after sales service including Delivery, Home Service and Spare Parts.

delivery

The purchase of a new appliance is an exciting experience. Electrolux customers can, for an additional charge, choose to have their new appliance delivered by our experienced staff. This service, at the customer's option, includes the removal and recycling of packaging materials and even the old appliance if necessary. Delivery is available in Adelaide, Brisbane, Melbourne, Perth and Sydney. It may not be available in some rural locations and is not available in New Zealand.

home service

Home Service is provided for repairs to appliances by trained technicians. For repairs to appliances that are outside the manufacturer's warranty period and not required as a result of a manufacturing defect, a service fee is payable. Home Service is available throughout Australia and New Zealand.

spare parts

Home Service and Spare Parts can be contacted by phone using our toll free national numbers.

warranty

Electrolux Home Products Pty Ltd and Electrolux (NZ) Limited (collectively Electrolux) warrants that for domestic or equivalent applications the Electrolux products featured in this brochure are free from defects in materials and workmanship for 2 years. All warranties are subject to the conditions set out in the warranty card accompanying the product when purchased. An additional 3 year warranty is also provided for domestic applications only to cover replacement of parts only for the sealed refrigeration system.

product information

The descriptors and illustrations in this publication apply to the specific products and models described as at the date of issue. Under our policy of continuous product development, product specifications may change without notice. Prospective purchasers should therefore check with their retailer to ensure this publication correctly describes the products that are being offered for sale. All information supplied is to be used for general reference purposes only and is on the understanding that Electrolux will not be liable for any loss, liability or damage of whatever kind arising as a result of reliance on such information. Electrolux will at all times comply with its obligations pursuant to law. Colours of products illustrated are as close as printing limitations allow.
