Legrand Australia Price Adjustment 1st November 2022

Dear Valued Customer,

Throughout the year we've seen ongoing inflationary pressures affecting our industry and the wider economy both locally and abroad.

Legrand Australia has continued to focus on efficiency activities to stem these inflationary pressures which we can no longer absorb in whole.

Effective 1st November 2022 we'll be implementing a price adjustment with varying changes across our product portfolio with a weighted average impact of 5.5%.

Legrand Australia continues to focus on delivering the highest standard of products and service through our local R&D, Manufacturing, Sales and Service teams who all appreciate your understanding and support with these changes.

Please don't hesitate to contact your local Legrand representative should you require further information.

Yours Sincerely,

Tosh Bourke
General Manager - Commercial
