Re: FCC ID: SK9OW1

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron, Inc., for evaluation of their model OW1 for single modular approval certification under FCC Part 15.247.

The Itron OW1 is a communications module which includes a 902.4 MHz to 927.6 MHz transmitter. The module operates on DC voltage which is supplied by a host device.

The OW1 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.

Sam Wismer
Vice President, Technology
