Let's illuminate what your Wire-Free Smart Switch can do:

①

Dim and brighten lights from the switch.

Go to **Cync app.** Add the Wire-Free Smart Switch and a Cync or C by GE Smart Light to the same room or group (smart light sold separately).

②

Control devices like fans and small space heaters from the switch.

Go to **Cync app.** Add the Wire-Free Smart Switch and a Cync or C by GE Smart Plug to the same room or group. Plug the fan or space heater into the Smart Plug (smart plug sold separately).

③

Create a 3-way switch without new wiring.

Go to **Cync app.** Add the Wire-Free Smart Switch and another Cync or C by GE Smart Switch to the same room or group. The Wire-Free Smart Switch will control the other Smart Switch (wired smart switch sold separately).
