**We believe in a seamless connection to the world around us;** unlocking potential and enabling freedom. Through innovative technology and stunning design, we have created the ultimate in mobile productivity.

Brydge first launched in 2012 as a successful Kickstarter project (Top 5). It broke records and instantly developed a cult following. Its philosophy was simple; the iPad was beautiful and so should be the keyboard.

Brydge was born in California, raised in Singapore (by Australian founders), and now calls Park City, Utah home. Our Silicon Slopes location provides the perfect combination of an outdoor lifestyle and accessibility to the largest consumer tech market in the world.

Today, Brydge's products are recognized by the industry and customers as one of the leading tablet keyboards on the market. Brydge is now the fastest growing tablet keyboard brand for Apple iPad, Microsoft Surface, and Google Pixel Slate.

How did we grow from a niche brand to a global leader in premium tablet accessories?  
By creating quality, innovative, design-focused products that allow users to Go Do More.

“

... this was the keyboard Apple should have made.
