Thank you for purchasing Sega Sports NCAA College Football 2K2.

The power of the Dreamcast brings college football to life as never before. From the creators of incredible games like NFL 2K1 and NBA 2K1 comes the quintessential college experience with NCAA 2K2.

In Season Mode, you will get to compete in the regular 2001 schedule all the way through the bowl games and the National Championship. If your team is good enough. Plus, full stats are compiled on every player so you won’t be able to take any games off if you expect your star to win the Heisman Trophy.

With Legacy Mode, you will take over the responsibilities of coach and athletic director. Do you have what it takes to build a powerhouse year after year? Here is your chance to prove it.

Then there is Exhibition Mode, where you can pit any two teams against each other for a quick game. And Tutorial Mode - that’s where you can learn the ins and outs of the game right on the screen. There’s even a Scrimmage mode where you can practice your plays before the big game on Saturday rolls around.

Oh, and did we mention network play? NCAA 2K2 joins the impressive list of SEGA Sports titles that offer what no other console game can match - multiple players over the Internet. With up to four players per console, NCAA 2K2 is the first 8-player network college football game in history.

This isn’t the same old college football you’ve used to. This is NCAA 2K2. Do you have what it takes to tame the game?

Can you go online and grind it out with real, live opponents? The only way to tell is to get out of the locker room and onto the field - that’s where heroes and legends are made.

NOTE: Sega Sports™ NCAA 2K2 is a one to four player game. Before turning the Dreamcast Power ON, connect the controller(s) or other peripheral equipment into the control ports of the Dreamcast. To return to the title screen at any point during gameplay, simultaneously press and hold the A, B, X, Y, and START buttons. This will cause the Dreamcast to soft-reset the software and display the title screen.

Control Summary

NCAA 2K2 is designed with analog functionality in mind. The SEGA Dreamcast analog controls provide a full range of motion and add to the overall depth of the game. By going to the Game Options -> Controller menu however, you can change the control scheme to use the D-Pad instead. Either way is acceptable, it’s a matter of personal preference.

To highlight and select specific menu items, press the Analog Stick (or Dpad) in the direction of the menu item until it highlights. If you have questions when viewing most menus and screens, press the Y button for Command help.

### Quarterback Scramble

Even the best offensive line is going to let a defender through from time to time. So when you feel the pressure coming, get the quarterback away with a scramble. Hold down the R Trigger and the QB becomes a runner. (Don’t forget to let go of the R Trigger if you want to make a pass.) Once you cross the line of scrimmage, you can no longer make a pass, so you can let go of the R Trigger and control the QB as if you were a running back on a running play.

Coach’s Corner: Hands Free

On defense, if you do not take control of a player (either by pressing the Analog Stick or an action button), NCAA 2K2 will run the play for you. Once you take control of a player, that player is under your control until the play ends, or until you press B to control another player.
After the NCAA 2K2 title screen has appeared, press start to see the main menu screen. From here, you can jump to any one of your favorite game modes. Need to brush up on your game? Do you have what it takes to be the big man on campus? Drew Brees does. After compiling his senior season, the Big Ten standout could look down at all of the records he shattered. Thanks to the help from his teammates, Drew was able to set 14 school records and make a run at two Heisman Trophies. Can you do better? Find out if you can match these impressive stats:

SELECTING YOUR PLAYS

The National Championship is built around the talents of the student athlete, teamwork, and the coach’s playbook. This isn’t old school AI where you could call the same plays over and over again. To win, you are going to have to mix up your plays on offense and defense. Play to your team’s strengths. If you have great cornerbacks, you can gamble more with blitzes and man-to-man coverage. If you have a great running back, then pound the ball out on the ground. For the offensive playbook, passing plays are displayed in blue, running plays are displayed in red, and option plays are displayed in yellow.

The Pause Menu allows you to stop gameplay and call a time out, select your audibles, make substitutions, view the replay, change the game options and controller configuration, adjust the game camera angles, and view the current stats. When you are playing with more than one person, the player who pressed the Start Button to enter the Pause Menu has control of selecting all of the above options.

CHOOSING TEAMS

Note: the team on the left is the visitors, and the team on the right is at home.

To make it easier to find the team you are looking for, the teams are grouped by conference. Press the X button or A to scroll through the list of conferences. Then move down (Analog stick or D-Pad) to select your team (using the X and A buttons again). For a change of pace, you can also change the playbook your team is using. Want to see what your team would look like running an option offense, then select an option school like Nebraska.

CONTROLLER ASSIGNMENT SCREEN

Once you’ve selected the teams, the Controller Assignment screen appears. Press the analog stick or D-Pad LEFT / RIGHT to align your controller with the team you wish to command. If you wish to use Maximum Passing (and you should to get the ultimate NCAA 2K2 experience), press the A Button to toggle it on. When everything is set the way you want, press the Start Button to advance to the game.

COIN TOSS

The visiting team gets to call it. The winner of the toss gets to choose whether to kick or receive. The loser chooses which goal to defend. Following the coin toss, the Special Teams play calling screen appears.
Choose either to play in a new tournament or load a previously saved one. Select your teams and determine human or CPU control for each team of the 4, 8 or 16 that you are using.

SEASON
Take your team through the regular season schedule. If your team does well enough you will get invited to a postseason bowl game. And if you are ranked high enough, you could even wind up competing for the National Championship.

From the Main Menu, you’ve got a ton of choices. Here is a quick description of all of the different game modes that NCAA 2K2 has to offer.

SCRAMMAGE
Practice makes perfect. Head on over to the practice field to learn the formations and plays of your favorite team. Fine tune the running game, learn the timing of your passing routes, and find your defensive positioning. Once you’re into Scrammage Mode, you have three different styles of practice.

- **Special Move Practice**
  - Get a feel for the controller and how to perform special moves.

- **Full Scrammage**
  - Line up against another team.

- **Offense Only**
  - Work out the kinks in your offense without a defense to get in the way.

- **Scrammage Line**
  - Where you will be starting the play

- **Direction of Play**
  - North (up the screen) / South (down the screen)

- **Randomize Defense**
  - Set what type of defensive formation the CPU can call.

- **Randomize Offense**
  - Set what type of offensive formation the CPU can call.

- **Offense Play Type**
  - Set Offense to practice Pass, Run or Both.

- **Randomize Down**
  - Select the play situation.

- **Defensive Play**
  - Pick a specific defensive play to practice against.

- **Offensive Play**
  - Pick a specific offensive play to practice against.

**Coach’s Corner: The Heisman**

College Football’s premier award is the Heisman Trophy – and what would NCAA 2K2 be without handing out this impressive piece of hardware. You’ll have to be on your game week in and week out to win the hearts of the voters, so never let up – pile on the stats.
LEGACY
Legacy Mode is a lot like Season Mode. You pick your team and go through a full season. But it’s at the end of the season where Legacy Mode is different. After the post season is complete, you will have to go out and recruit new players to come to your program. You have five weeks to recruit players and five meetings per week to do it. Can you convince the top talent to play football at your school? A lot of things will go into a player’s decision – geography, past performance, what bowl game you get invited to, etc.

When recruiting is done, you will move to the spring practice season. Here you will be able to decide what your team will work on and how to better improve your team by boosting the strength, speed and endurance numbers of all of your players.

QUICK START
NCAA 2K2 will pick two teams at random for a quick exhibition game.

TUTORIAL
Learn right from NCAA 2K2. The game will guide you with on-screen help boxes as you learn how to play NCAA 2K2. This is a great way for new players to learn from the best.
