

# NEW LED GU10 Bulb

The new LED GU10 bulb is an ideal replacement for traditional halogen GU10 bulbs.

With improved lamp life, the GU10 is a great way to reduce both energy consumption and maintenance. Available in warm and cool white colour temperatures and with a wide beam angle and high lumens, it is ideal for use in traditional GU10 downlights and spotlights. Rated 15,000 hours, the LED GU10 will last 7 times longer than 28W halogen equivalents.
