

Secure and optimize your contact center with ChromeOS

In Feb 2021, McKinsey & Company reported a 24x increase in migration to cloud technologies, 27x increase in deployment of new service technologies, and 43x increase in deployment of collaboration technologies in the customer service sector.*
Deploying ChromeOS enables contact centers to be cloud-first and agile while improving agent productivity, securing business data, and supporting IT teams with a stress-free device deployment and management experience.

**Great service, productive agent experience,
from anywhere with ChromeOS**

Protect your business and customer information

Safeguard your business from growing threats and reduce employee errors with built-in and proactive security features

- Google Safe Browsing stops employees from navigating to malicious sites
- Executables can't run on ChromeOS, providing built-in protection from malware
- Automatic and timely security updates
- Built-in Titan C security chip ensures devices stay secure, protects user identity, and ensures system integrity

Increase your agent productivity

Reduce the cognitive load on your agents with an intuitive and productive experience on ChromeOS.

- Familiar, intuitive, and error-free experience
- Fast and easy onboarding
- Reduce device downtime with background updates
- Built-in productivity tools
- Easily share devices and pick up where you left off

Deploy and manage easily even with high turnover

Manage and deploy stress free even with high turnover rates and distributed workforces.

- Deploy devices within minutes with no imaging through cloud profiles
- Drop ship devices and manage from anywhere with zero-touch enrollment
- 500+ configurable policies
- Deprovision existing ChromeOS devices and set up new agents with quick wipe/reset
- Repurpose existing Windows and Mac devices to a managed Chromium environment with ChromeOS Flex

**No reported
ransomware attacks
on ChromeOS
devices, ever**

**Save up to 3
hours per agent
per week in
downtime**

**Deploy
ChromeOS 76%
faster than
Windows 10
devices¹**

1. ESG Technical Review, Google Chromebook: Accelerating Device Lifecycle Management, July 2020

As a dedicated and innovative leader in the Chromebook space, Acer has carefully engineered its portfolio of ChromeOS Enterprise devices for contact centers. Reliable, durable, and secure devices coupled with Acer's award-winning U.S.-based Premier Support provide the exceptional user experience and technical support for your agents.
