The maximum allowable bandwidth for the 5.925 - 7.125 GHz band is 320 MHz per 47 CFR 15.407(a)(10). The 26 dB emission bandwidth measured within this filing for the 320 MHz mode is larger than 320 MHz. The 320 MHz mode for this device must be disabled and please edit all applicable documents (test reports, operational description, user manual, grant comments etc.) from this filing that reference it.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal pursuant to Section 2.917(c).
