## **Request for Confidentiality**

Subject: Confidentiality Request for: FCC ID: E5MDS-LN400 & IC: 101D-LN400

Pursuant to FCC 47 CRF 0.457(d) and 0.459 and/or RSP-100, the applicant requests that a part of the subject FCC and/o

and/or IC application be held confidential.		
Short Term Hoshort Term Hoshort Term Hote:  GE MDS LLC has spent substated Having the subject information	easily available to "comp	Exhibit Block Diagrams External Photos Internal Photos Operation Description/Theory of Operation Parts List & Placement/BOM Tune-Up Procedure Schematics Test Setup Photos User's Manual
developing this product. Not protecting the details of the design will result in financial hardship.		
Permanent Confidentiality:  The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.  Short-Term Confidentiality:  The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of NA days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify FCC in the event information regarding the product or the product is made available to the public. FCC will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.		
Confidentiality, either type of n		stry Canada distinguishes between Short Term and Permanent I simply be marked Confidential when submitted to IC.  Dennis McCarthy

Since

<sup>&</sup>lt;sup>1</sup> - The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
