Telit Communications PLC

Mobile World Congress announcements

London and Barcelona, February 28, 2017 – Telit Communications PLC, (AIM: TCM, the Group, "Telit"), a global enabler of the Internet of Things (IoT), has made a number of significant product, services and partnership announcements during MWC, this week.

The Group has published the following press releases:

- Demonstrating the business value of IoT
- Expand collaboration on pan European broadband IoT services with Tele2
- Simplifies IoT Deployment with single form factor LPWAN, WLAN, and WPAN IoT Modules
- Demonstrate real-time industrial IoT data collection solution
- Expands connectivity management dash boarding functions on the IoT Portal
- Unveils Bluetooth 5 module
- Demonstrate multiple live network applications around NBIoT with Ericsson, Intel, Nokia and Telefonica

Full announcements can be found at the following link: <http://www.telit.com/press-media/>

Oozi Cats, CEO at Telit, commented:

"These announcements demonstrate our momentum and leading market position in IoT. Our ability to provide an end-to-end solution and innovation to our customers around the world is being continuously enhanced by product upgrades and the widening of our ecosystem and partners."

Telit's stand at Mobile World Congress (February 27 – March 2, 2017) is in Hall 5, booth 5E61.

About Telit

Telit (AIM: TCM), is a global leader in Internet of Things (IoT) enablement. The company offers the industry's broadest portfolio of integrated products and services for end-to-end IoT deployments – including cellular communication modules in all technologies, GNSS, short-to-long range wireless

modules, IoT connectivity plans and IoT platform services. Through the IoT Portal, Telit makes IoT onboarding easy, reduces risk, time to market, complexity and costs for asset tracking, remote monitoring and control, telematics, industrial automation and others, across many industries and vertical markets worldwide.
