LC90

FREE copy of the **2023 World Radio TV Handbook** with Choyong LC90 purchase.

The **Choyong Radio LC90** is a new type of radio that can receive over 40,000 stations worldwide by connecting to a 4G cellular network or Wi-Fi. Enjoy virtually 100% reliable reception 24/7 with no fading, static or interference. Global WiFi stations are categorized by region, country and city. Users can also search for the stations via voice commands. You can also edit and add your favorite stations. For cellular operation please see your phone provider for a SIM card. Monthly charges would apply. WiFi reception requires access to a 2.4G wideband network. Your LC90 can also work like a regular radio with coverage of longwave, medium wave, shortwave and FM stations. The current version supports the reception of SSB - Single Side Band for more shortwave listening opportunities such as amateur radio, maritime, aero and military traffic. The LC90 provides audio fidelity not normally found in portable receivers, especially of this compact size. The two-way frequency division design is achieved with the mid and low frequencies emitted by a bass speaker and the high end handled by a silk dome tweeter. A passive bass radiator further enhances the sound. Enjoy a quality feel and crisp backlit IPS color LCD display. You can connect external devices, to play through the radio's sound system using the Bluetooth 5.0 protocol. Do you have your own music on a TF card? Simply plug it into the radio! Supported formats include APE, FLAC, WAV, MP3, M4A, etc. If the TF card is in FAT32 format, it can handle up to 256Gb TF cards. Advanced features include multiple bandwidths, keypad entry, memories, full function color display, backlit keypad, 3.5mm external antenna jack. Over the air (i.e. WiFi) firmware updating is supported (requires TF USB card not larger than 32Gb). The radio is powered by two replaceable 18650 batteries, providing a battery capacity of 5000mAh, which allows for up to 48 hours of continuous operation. A wrist strap and USB-C power cable are supplied. The user must supply a USB power cube. We will update firmware to latest version 4.6.2 [09/30/24]. List \$299.00
