BOSCH
Invented for life

Contents.

When every single one of our appliances makes your life a little bit easier – that's Bosch in every detail.

We believe the perfect built-in appliance must be designed for one thing above all else: to make your time spent in the kitchen as pleasant as possible. Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use, reducing the workload for you and consistently delivering perfect results.

Proven quality

We devote the same high level of care, passion and dedication to all areas of our work – from the first design draft right through to customer service. It's the same Bosch quality that you have been able to rely on for more than 128 years.

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German made and engineered technology. These attributes have earned us many accolades, national, and international, such as the red dot design award, the iF design award and other endorsements year after year.

Top performance

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations. Take, for example, the new PerfectBake sensor in our Series 8 ovens – perfectly baked pastries and cakes, at the touch of a button.

Maximum convenience

Bosch is dedicated to making your life easier. Our innovative built-in appliances are easy to use, and you won't waste a second trying to figure out how they work. Sophisticated features deliver the best results every time, and save you considerable effort and expense in the process.

The new generation of ovens.

Put a new spin on your cooking career.

Using the highest quality stainless steel and glass, our ovens and compact appliances combine beautifully to deliver a timeless, elegant and stylish finish to any kitchen with sleek, co-ordinated lines and matching panels.

No matter how complicated a recipe may look, with the Series 8 ovens it will be a piece of cake. These cutting-edge ovens constantly monitor the progress of your cooking and automatically regulate temperature and length of time.

Built-in single ovens

Whether you're preparing poultry, meat, fish, vegetarian dishes, baked goods or desserts, your favourite dishes are always cooked to perfection – and it couldn't be easier. Now you have a master chef to help you in the kitchen: your oven.

Double oven

The Bosch double oven allows you to roast in the bottom oven cavity while grilling in the top oven for maximum cooking convenience.

Freestanding cookers

Each of the freestanding cookers offers reliable and enduring Bosch technology of the finest standard – technology that makes cooking, baking and roasting easy and more convenient.

Ovens | Control panel

We didn't reinvent the wheel.
But we taught it how to cook.

Everything you need at hand: our new, intuitive control ring makes cooking easier than ever. With just a small turn of the stainless steel ring, you can adjust any of your oven's settings. The TFT-touch display, with its clear and straightforward design, guides you through the various menu options. This gives you full control over your dishes at all times.

Control panel with TFT-touchdisplay

You'll always have a complete overview and full control of all your oven's functions. The intuitive control ring and full-width, high-resolution clear-text TFT-touchdisplay with direct select TouchControl-buttons make operating our ovens a breeze. Clear, vivid images and helpful prompts guide you through each step as you navigate through the various programme options.

Control panel with TFT-display

Our intuitive control ring and display with direct select buttons make oven operation a pleasure from day one. Helpful icons inside the control ring provide all the information you need, making it very easy for you to keep track of the progress of your dishes.

Ovens | Functions

The first recipe collection in the form of an oven.

You could search through stacks of cookbooks and old family recipes without ever finding precise information on temperature or cooking time. Thanks to the Bosch Assist function for automatic oven settings, you don't have to worry about that anymore: simply select the desired dish in the control panel and your oven automatically sets the ideal heating mode, temperature and length of time. Of course, you can also select these settings yourself every bit as easily.

PerfectBake
Baking has never been easier. The PerfectBake sensor offers uniquely precise sensitivity, constantly measuring the moisture level of your dishes and automatically regulating the baking process. You'll never have to set the heating mode, length of time or temperature ever again – the PerfectBake sensor has it all under control. Simply select the type of dish, such as 'Cake', and press 'Start'. Your oven will do the rest. The result: bread, cake and quiche baked to perfection.

PerfectRoast
Christmas turkey, Easter lamb or Sunday roast – with the PerfectRoast meat probe, you'll get perfect results every time. Just like a professional chef, but with total ease. Through several highly sensitive measuring points, the probe determines the core temperature of your roast to the exact degree and second, guaranteeing perfect roasting results. Another benefit: you can also use the meat probe in the microwave- and steam oven mode.

SoftOpen & SoftClose function
Thanks to a special damping mechanism, the oven door can be opened and closed even more softly and quietly.

Ovens | Features

Perfect features.

Different people need different things in their kitchen, therefore Bosch ovens are available with a wide variety of features. Whether it concerns the interior lighting, the door or the rail system, with our ovens you can find the solution that fits you best.

CoolTouch doors
Of course, safety is also of paramount importance: doors stay cool enough for comfortable handling while the oven is operating to provide maximum protection for large and small hands alike.

Full glass inner door
The full glass inner door has no joints or screws – a common area that can accumulate grease. For added convenience, the doors can be easily removed for cleaning.

Enamel coating
The grey enamel interior coating is easy-to-clean and the lighter colour improves visibility during cooking.

Shelf systems
Whether you choose a standard shelf system or one with single or double telescopic rails – all of our shelf systems are safe and easy to use. Selected telescopic rail sets are fully extendable – ideal for conveniently loading and removing baking trays. And for the first time, all shelves are pyrolytic-proof and suitable for microwave and steam operation – Series 8 ovens only.

Lighting versions
Different lighting options guarantee optimal visibility – for example, the energy-saving lateral LED lights not only illuminate your dishes from all sides, but also save you money. The lateral LED lighting also offers separate illumination on each level, which is especially convenient when baking with multiple trays simultaneously.

Oven clock and timer with programming
The electronic clock displays time of day and also acts as a countdown timer with an audible beep to indicate the end of the timer function. Programming adds extra convenience. Simply select the end-time (when you arrive home, e.g. 6.30pm), the length of cooking, along with the cooking function and temperature, and the oven will do the rest.

Precise temperature control
Electronic thermostats monitor the ovens cavity temperature to maintain temperature consistency during the cooking process.

Automatic switch-off
The oven will switch-off after a specific period of time if left unattended.

Child lock
Selected Bosch ovens feature a child lock function. The entire oven can be disabled simply by activating the lock function, helping protect against unwanted use.

Features vary depending on models. Please check individual product specifications.

Ovens | Cleaning

# At last, someone in the house who enjoys cleaning up.

Anyone who has ever cleaned an oven by hand knows how exhausting and time-consuming it can be. However, this chore is a thing of the past, thanks to our new EcoClean Direct cleaning aid and pyrolytic self-cleaning function. While the oven is in operation, the special EcoClean Direct coating works to reduce dirt accumulation. The pyrolytic cleaning function burns off grime at the touch of a button – so your oven practically cleans itself. You won't waste a minute on cleaning, leaving you more time to enjoy cooking.

EcoClean Direct
While the oven bakes or roasts, the special direct coating of microfine ceramic particles on its interior walls absorbs grease and residue and breaks them down through oxidation. All you need to do is wipe the areas not coated with EcoClean. The direct coating also regenerates every time you heat the oven, and continues to do so for the entire service life of the appliance. To remove substantial residues, simply activate the EcoClean Direct cleaning programme.*
*Selected models only.
Pyrolytic cleaning
When you activate the pyrolytic cleaning function, the oven heats up to 480°C and burns off any burned-on grease and food residue. All that's left is a little ash that you can easily remove with a paper towel. Depending on the degree of residue that has accumulated, select one of three different cleaning programmes and press 'Start' – your oven will do the rest for you. And because the baking trays and shelf rails* are all pyrolytic-proof, you can leave them in the oven during cleaning.
*Series 8 oven models only.

BOSCH

4D Hotair

Thanks to 4D Hotair, you can place your food
on any shelf level from one to four and the results
will be consistently perfect. Our new fan wheel
makes it possible: it changes the direction of
rotation during operation to distribute heat evenly
on every level. And that's not all: with 4D Hotair,
you can also bake and roast on up to four
different levels simultaneously. For reliable
results from top to bottom.

4D Hotair

Ovens | Heating modes

Because there's hot – and then there's hot.

Truly perfect baking and roasting requires not only the ideal temperature, but also the appropriate heating mode. From 4D Hotair to Hotair Eco, Bosch ovens offer heating modes that deliver everything from haute cuisine to simple daily dishes.

Hotair Eco
Hotair Eco is our improved version of convection, the heating mode most commonly used in homes. Thanks to special temperature controls, your oven maintains perfect temperature. This makes our ovens great for precision cooking on a single baking level – ideal for cakes, casseroles, meat dishes, frozen foods, and much more.

Top and bottom heat Eco
In addition to classic top and bottom heat, Series 8 ovens feature a new eco-friendly mode for extremely efficient operation. Prepare perfect sponges, pound cakes, delicate pastries, bread and rolls while saving valuable energy.

Bottom heating
Only the bottom element is used to generate heat. This method is ideal for reheating or for when a crisp underside is required for pizza bases and pastry cases. It can also be used for drying herbs and bain-marie cooking.

Hot air grilling
An ideal cooking method for meat and poultry where a rotisserie effect is desired. The grill and fan operate alternately, circulating hot air around the food.

Pizza setting
Designed with the pizza-lover in mind, but equally useful for quiches and tarts, this innovative function delivers cooking power for a perfectly crisp, browned base while keeping the topping moist. Suitable also for frozen food. In many cases, preheating is not required.

Defrost
Perfect for gentle defrosting of meat, poultry, bread and much more.

Rapid heating
Most Bosch ovens feature an automatic rapid heating function. On Top and Bottom heating, 200°C can be reached in approximately six minutes, and 175°C on 4D HotAir Plus heating can be reached in approximately five minutes.

Other heating options

Top and bottom heat
Uses both upper and lower heating elements

3D HotAir Plus
Cook on up to 3 levels simutaneously with even heat distribution

Low temperature

Pre-heat

Keep warm
Keep food warm without spoiling or drying out

Full-width grill
Grill large quantities with precise temperature control

Half-width grill
Can select just the centre section of the grill

Intensive heat
Top element with a more powerful bottom heating element, perfect for crispy bases and tin bakery

Add a touch of steam.

Selected ovens are equipped with an added steam function to produce succulent roasts with crisp outer crusts as well as perfectly browned bread crusts. As you'd expect from any Bosch appliance, they are also easy to operate and clean.

Added steam function
When you cook using one of our classic heating modes, dishes turn out even better if you add a little bit of moisture from time to time. And that's exactly what our added steam function does. You can use an added steam function like reheating or dough proving, or you can simply set the oven to automatically add steam and regulate its intensity.

BOSCH

BOSCH

BOSCH

The new generation of compacts.

Compact appliances.

Bosch compact appliances offer exceptional cutting-edge features and extras. Matching controls and metal-touch-control panels mean that you can mix and match compact appliances for a coordinated look. With electronic controls, operating functions are harmonised for easy use.

Combination steam ovens
Cooking with steam helps retain vitamins and minerals in fresh foods as well as maintain original colour, shape and consistency.

Combination microwave ovens
Discover the speed and versatility of microwave technology. With the combination microwave oven you can add speed to your traditional cooking process without compromising on taste.

Microwave with grill
Standard microwave cooking, with the addition of a grill to offer more cooking options.

Coffee machine
Whether your preference is a Latte or a double shot Cappuccino, our compact coffee machine brings café-style drinks to your home.

Warming drawers
Bosch warming drawers ensure food stays just at the right serving temperature. You can gently defrost, prove dough or slow cook. They are the perfect partner for Bosch's Series 8 60cm wide built-in ovens and compact appliances.

BOSCH

The new Series 8 generation of combination steam ovens.

Steams so gently that even vitamins stay for dinner.

There is no healthier or tastier way to prepare food than in a Series 8 combination steam oven. When gently cooked in steam, foods retain their vitamins and aroma while bringing out their full and natural flavour. Vegetables stay crisp, while poultry and fish remain juicy and tender. With steam, you can even cook without adding oil or fat. Thanks to its integrated water tank, the oven doesn't need a direct water connection, giving you much more flexibility in choosing its location.

Menu cooking

With the Series 8 combination steam oven, you can prepare an entire set menu using up to three levels at once. Salmon with asparagus and rosemary potatoes? Cook them all together and everything will turn out perfectly. Need to prepare dessert, too? No problem. Thanks to the moisture in the oven, there's no intermingling of flavours – each dish retains its own authentic flavour.

Preserving vitamins and minerals

Dishes that are cooked in hot steam not only retain their vitamins and minerals, but also their full, natural flavour. So you can also go easy on the extra seasoning, and use much less salt when cooking. In short, healthy food has never tasted better.

Mineral content

100%
50%

Raw   Boiled   Steamed

*Illustration purposes only.
The new Series 8 microwave.

Some gourmets shouldn't be kept waiting.

Sometimes you just can't get food to the table fast enough. Our new Series 8 microwave helps you speed up the cooking process and give you perfect control over your menu and your schedule. Whether you're heating food, pre-cooked meals or frozen foods, you'll get outstanding results quickly, hygienically and without compromising on taste. So instead of killing time waiting for dinner to be ready, you and your loved ones will have much more time to enjoy it.

Power levels and automatic programmes
Our Series 8 microwave with high-resolution TFT displays allow you to heat, defrost, roast or grill anything – thanks to 900 watts with five power levels and, depending on the model, also with an additional 1,300 watt grill with three power levels. The AutoPilot programme also helps you achieve the best possible results with next to no effort. Just insert your roast, enter its weight and select the right programme from the menu. The rest takes care of itself.

BOSCH

The new Series 8 built-in coffee machine.

Now your favourite café is open 24/7.

Espresso, cappuccino or latte macchiato? With the Series 8 built-in coffee machine, you can treat yourself and your guests to any beverage at the touch of a button. Bosch Barista technology guarantees a full-bodied aroma and perfect crema – for coffees as delicious as those brewed in your favourite café.

SensoFlow system for a perfect aroma
The optimal brewing temperature for an espresso is between 90°C and 95°C. If the temperature is any higher or lower, the flavour of the beans is only partially released or the coffee is bitter. Our smart SensoFlow system heats the water to just the right temperature, for a full-bodied espresso aroma from the first cup to the last.

A choice of coffee at the touch of a button
Want the perfect espresso, cappuccino or latte macchiato? With the OneTouch function, it'll be ready in an instant. Innovative technology regulates the release of coffee, hot milk and foam to deliver the beverage of your choice at the touch of a button.

Automatic cleaning of the milk system
Now you can clean your coffee maker as easily as you prepare your morning pick-me-up. Each time you make a coffee drink with milk, the milk system is automatically rinsed out with a blast of steam. The coffee machine takes total charge of the milk system's daily maintenance, so that you can concentrate on enjoying your cappuccino or latte macchiato.

Electric cooktops.

There is a wide range of induction and ceramic cooktops to choose from.
As you would expect from Bosch, all are made using high-quality materials,
are easy to use and add versatility, style and elegance to any kitchen.
FlexInduction cooktops
The ultimate Bosch Induction
experience. Unique technology
provides even heating across
the entire FlexZone. Enjoy total
flexibility and control with two
standard round zones and the
FlexZone.
Induction cooktops
Quite simply, Bosch has a
range of induction cooktops
that are designed to make it
easier and quicker for you
to create the dishes you love.
Ceramic cooktops
With their electronic touch-
controls and flexible cooking
zones, Bosch ceramic cooktops
combine great looks with smart
function and design.

Electric cooktops | Induction

The best cooking needs just one ingredient. Bosch Induction.

Modern cooking offers so many wonderful new tastes and textures, you need a cooktop that's flexible enough to keep up.

Old pots, new technology
Most of your old pots will also work with induction if they have a magnetic base. All pots and pans with ferromagnetic bases are suitable for induction. So, if a fridge magnet sticks to your pot, you know it's induction-ready. In general, special stainless steel, iron and enamel are all suitable.

Cooking speed
Time required to heat 2 litres of water from 15°C-90°C

0.225 kWh / 4.01 min	0.314 kWh / 9.06 min	0.320 kWh / 12.24 min	0.500 kWh / 7.39 min

DirectSelect 2.0
Maintain control even in the most hectic kitchen situations. Select your desired power level – including intermediate levels – with complete accuracy.

DirectSelect 1.0
Enjoy total convenience with DirectSelect. Simply select the required power level from the power settings laid out on the cooktop, without the need to press +/- repeatedly.

TouchSelect
With this control panel, you can regulate the desired cooking zone easily. Select your cooking zone and use the +/- keys to choose the power level you need.

Features may vary depending on models. Please check individual product specifications.

FlexInduction
Introducing Bosch FlexInduction, the result of decades of research and development. Introducing freedom in the kitchen.

Ideal for small pots, large pots, multiple pans, frying pans or casserole dishes – you name it, the system allows you to control pots and pans separately. An electromagnetic current applies heat only where it's needed – in the pot. At the touch of a button induction zones become one large induction surface.

17-stage power setting
Enjoy total control on every recipe with 17-stage power settings. This function allows cooking zones to be set in increments of 0.5 (e.g. 0.5, 1, 1.5, 2...9).

PowerBoost
PowerBoost channels increased power to a selected zone to turbocharge the cooking process. With PowerBoost, you can boil 2 litres of water almost three times faster than on a conventional glass-ceramic cooktop.

Dual function timer including automatic switch-off for each zone
Use the independent audible timer to set the length of cooking time or set the cooking zone at a specific temperature (i.e. level 5.5) for up to 99 minutes – ideal for busy households. Once the selected time has been reached, the cooking zone is switched off automatically.

Automatic pot detection
Bosch Induction cooktops feature automatic pot detection, which recognises the diameter of the cookware and determines the size of the cooking zone accordingly. If the pot is removed, the control panel indicator will flash and remain inactive until the pot is detected.

QuickStart
Start cooking quicker. Bosch QuickStart functionality automatically detects the location of your pot and displays the cooking zone on the control panel. Just select the power level and you're away.

Available on selected models only.

ReStart
Things happen quickly in the kitchen – if you spill something on the control panel or accidentally switch-off the cooktop, ReStart will store your last selected settings. Those settings can be instantly recalled by simply pressing the main power switch within 4 seconds.

Available on selected models only.

Energy Consumption Display
Each time you finish cooking, your Energy Consumption Display shows exactly how much power you've used. So if you wish, you can adapt your cooking style to save energy and money. (For example, placing a lid on a pot can help reduce your energy consumption).

Available on selected models only.

WipeProtection
Stay in complete cooking control even while you've had a spill or boil-over. Bosch WipeProtection locks the control panel for 20 seconds so you can clean the surfaces easily, without losing your cooking settings.

Child lock
Maximum safety for tiny hands. Lock your cooktop's control panel and prevent accidental little chefs from 'helping out' and hurting themselves. Enjoy the reassurance of maximum safety for both you and your loved ones.

2-stage residual heat indicators
Provides clear indication of when a zone is still hot after use. Two levels: 'H' means residual heat sufficient to finish off cooking or to keep items warm; 'h'- residual heat insufficient to cook, but zone is still hot enough to advocate caution.

Automatic safety switch-off
Never worry again if you have forgotten to turn off the cooktop. If you've stopped using it, your Bosch Induction cooktop will automatically shut down.

Electric cooktops | Induction overview

Induction cooktops.

Cooking with induction provides faster results and efficient cooking at higher and lower temperatures. The TouchSelect, DirectSelect 1.0 and DirectSelect 2.0 intuitive controls all boast 17-stage power settings. Bosch Induction cooktops make the entire cooking process so much easier to manage.

Dual circuit cooking zone
Available on selected ceramic cooktops, this energy-saving feature allows you to select a smaller cooking zone for small pans, and a larger zone for larger pans.

Extendable zone
Selected cooking zones can be extended giving you a much larger area to accommodate big saucepans, casserole and other (special) cooking dishes.

Automatic electronic boil start
The automatic electronic boil start heats the hotplate using the highest heat setting and then reverts down to the simmer setting you have previously selected, reducing the risk of boil overs.

QuickTherm technology
For improved control and flexibility, heat is delivered to the cooking zone in approximately three seconds. This feature is quicker than standard ceramic zones or electric-sealed plates.

For complete specifications see pg.65

The new generation of gas cooktops.

Gas cooktops.

Our German-designed gas cooktops are available in a range of different styles.

Stainless steel cooktops

With a stainless steel base, all models offer a flame failure device. Other features include up to six burners, a dedicated wok burner for high intensity cooking and cast-iron pan supports.

Control dials

The control dials match the design of our range of ovens so that you can perfectly coordinate your appliances.

Cast-iron supports

Cast-iron pan supports are both stylish and highly durable, providing solid and robust support for your cooking pans.

High-power wok-style burner

Selected gas cooktop models feature a powerful wok-style burner, which provides up to 18Mj/h. Suitable for use with flat-based pans or with a wok using the wok ring provided.

Flexible burners

All our gas cooktops feature different burner combinations for greater flexibility. With wok, high-speed, standard and economy burners, you can cook more efficiently with the burner most suited to the size of the pan.

Flame failure device

For added safety, all Bosch gas cooktops feature a flame failure device. This feature stops the supply of gas to the burners if the flame is extinguished.

One-hand ignition

Push and turn the ergonomically designed control knobs and the gas ignites automatically. As well as offering the convenience of only using one-hand, there is also no separate ignition button to clean.

The new generation of rangehoods.

Rangehoods.

With a wide variety of sizes, types and finishes to choose from, it's easy to find the right Bosch rangehood to perfectly suit your kitchen's design.

Rangehoods | Convenience

Rangehoods.

Halogen lighting
Integrated halogen lighting ensures that the cooking area is clearly illuminated. They are more efficient than standard lights and are designed to last longer.

LED lighting
The new LED lights offer a longer lifetime and use less energy than conventional halogen lighting. Additional convenience is offered with SoftLight which gently fades lighting in and out with dimmer function.

EcoSilence Drive®
Relax in a quieter kitchen with family and friends
The new EcoSilence Drive® motor operates without carbon brushes, eliminating the disadvantages of conventional motors. Instead of energy loss, wear and noise, you get efficiency, durability, and smooth operation. To reduce motor noise even further, we have optimised the airflow inside the hood. The result: low noise levels with high power.

Rim ventilation filter
With its smooth uninterrupted surface and grease separation, the rim ventilation filter from Bosch has a multipatented filter sealing system and flow-optimised filter system with 12-layer filter mats.

Stainless steel filter
The stainless steel filter provides an exceptionally high level of grease absorption. It is concealed behind an elegant stainless steel cover with a stainless steel handle.
Metal grease filter
Metal grease filters are required for ducted and recirculating systems to filter grease and other solid particles out of the extracted air. To make sure filters operate at maximum efficiency, they should be cleaned regularly.
Dishwasher-safe metal filters
For easy cleaning, all Bosch filters can be safely loaded into any Bosch dishwasher for sparkling clean results.

Rangehoods | Features

Rangehoods.

L x W x H

2.5m height

4m width

4m length

= 40m³

x 6 times / hour → **240m³** necessary air extraction rate at normal use (simmering on 2-3 hotplates)

x 12 times / hour → **480m³** necessary air extraction rateat intensive use (e.g. strong frying activities)
Bosch extraction rates are tested inline with EU standards.
See page 66-67 for more information.

What extraction rate do I need?
It is recommended that air be extracted (or exchanged) in a room depending on your type of cooking: minimum of 6 times per hour; and a maximum of 12 times per hour.

Air Extraction is measured using room volume. This is calculated by multiplying Length x Width x Height.
Ducted extraction

Ducting out is the most effective method of extraction. Ideally the rangehood should be sited on an outside wall, or an outside wall can be reached via ducting. Most Bosch extractors are now standardised to facilitate a 150mm diameter outlet for maximum performance, although smaller ducting can be used if required. Please refer to the installation guide for further advice on best practice installation.
Recirculation kit

Odours are extracted and filtered, then purified air is returned to the room. The kit comprises of a carbon filter and all components needed to ensure that odour free air is returned into the kitchen. To maintain performance, the carbon filter should be replaced on a regular basis. A recirculation kit needs to be purchased as a separate accessory.
CleanAir module

The CleanAir module is a special active carbon filter with a large slatted surface, the module reduces odours by up to 95%, every bit as good as the ducted system. The surface of the CleanAir filter is the equivalent of around 50 football pitches.*

*Accessory to be purchased seperately. Available for selected Bosch Rangehoods.

Variable power settings

All Bosch rangehoods feature variable power settings, which can be set to effectively remove odours, smoke and moisture caused by cooking. Many models also feature an intensive extraction setting, which gives an extra boost to the performance when required.

Automatic run-on

Selected Bosch rangehoods automatically continue to run-on for approximately 10 minutes after normal operation to ensure remaining odours are removed. The rangehood then automatically switches off.

Automatic power revert

When the intensive setting is selected, it can be set to automatically revert to a pre-defined setting after a short period of time.

Electronic filter saturation indicator

For maximum extraction efficiency, an illuminated light indicates when the filter needs cleaning. For hassle-free cleaning, the one-piece filter can be loaded into your Bosch dishwasher.

Electronic control

3 power levels + 2 additional intensive settings, automatic run-on, filter saturation indicator, automatic power revert and SoftLight with dimmer function, control at your fingertips.

Electronic button control

This control provides you with 3 power levels + 1 intensive setting. There's also a push-button for turning the lights on and off. And to make operation even easier, the buttons are back-lit.

Rocker switch control

It doesn't get any easier: 3 push-buttons for 3 power levels and one for turning the lights on and off.

Reference Guide Coffee machine.

Product overview		Coffee Machine
Model	Features	CTL636ES1
		Series 8
Dimensions	Appliance dimensions (HxWxD)	455 x 594 x 375mm
	Built-in dimensions (HxWxD)	449 x 558 x 354mm
Design		Stainless steel & black glass
	Display	TFT Touch Graphic Display
	Controls	Bosch Control Ring with TFT Display
Convenience	SensoFlow System: constant brewing temperature	●
	AromaPro Concept: Optimnal aroma extraction	●
	Intelligent AutoValve system switches automatically between steam and hot water	
	SilentCeram drive ceramic grinding unit	●
	Coffee outlet height-adjustable up to 15cm (max)	●
	Flexible milk solution: decide for yourself if you prefer connecting the yes milk container or using any other container	●
	Bean container with aroma protection lid for up to 1kg	●
	Water pump with 19 bar pressure	●
	One touch function for Ristretto, Espresso, Espresso Macchiato, Coffee, Cappuccino, Latte Macchiato, Caffe Latte at the touch of a button	●
	6 Personalised beverages: Save favourite beverages with individual names and adjustable mixing ratio of milk and espress	●
	Fully programmable functions including grinding grade, cup size, strength and temperature	●
	Milk froth, warm milk and hot water separately available	●
	Early warning of bean container and water tank close to empty	●
	Bean container and water tank empty indicator	●
	Removable brewing unit and 2.4L water tank	●
Cleaning	Fully automatic-descaling and cleaning program	●
	Fully automatic rinse cycle when switched on and off	●
	Hygienic single portion cleaning function	
	Steam blast: Fully-automatic steam cleaning of the milk system after every beverage	●
	Removable milk nozzle for easy cleaning (dishwasher safe)	●
	Display of remaining cups before cleaning or descaling	
Safety Technical	Child-proof lock	●
Technical requirements	Total connected load	1600w
	Power requirements	220-240V / 50-60Hz
Supplied accessories	1 water filter cartridge	●
	1 measuring spoon	●
	1 milk container and hose	●
	1 set assembly screws	●

Accessories.

Oven Accessories		
	Wire rack insert. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ324000
	Pizza pan.	HEZ617000
	Split Grill tray, enameled - Pryo proof. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ625071
	Baking tray - Pyro proof. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ631070
	Multipurpose pan - Pryo proof. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ632070
	Lid for Professional pan. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ633001
	Professional pan - Pyro proof. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ633073
	Wire rack (standard). Fits HBG633BS1A, HBG655HW1A & HBG655HS1A	HEZ634000
	Wire rack (standard). Fits HBG672BS1A, HBG6753S1A, HBG6767S1A & HRG6767S1A	HEZ634070
	Wire rack (microwave). Fits HNG6764S1A, CMG633BS1B & CMG656RS1A	HEZ634080
	Wire rack (steam). Fits CSG656BS1A & CSG656RS1A	HEZ664070

	Glass pan. Fits all Series 8 60cm ovens & 45cm combination microwave ovens	HEZ636000
	Glass roasting dish, 5, 1L. Fits all Series 8 60cm & 45cm built in ovens, combination microwaves & combination steam ovens	HEZ915001
	1 level telescopic rail, full extendable - Pyro proof. Fits all Series 8 60cm built-in ovens - excluding HNG6764S1A	HEZ638170
	2 level telescopic rail, full extendable - Pyro proof. Fits all Series 8 60cm built-in ovens - excluding HNG6764S1A	HEZ638270
	3 level telescopic rail, full extendable - Pyro proof. Fits all Series 8 60cm built-in ovens - excluding HNG6764S1A	HEZ638370
	1 level telescopic rail, full extendable. Fits CSG656BS1A	HEZ638D18
	Porcelain container - Steam - small. Fits CSG656BS1A & CSG656RS1A	HEZ36D153P
	Porcelain container - Steam - large. Fits CSG656BS1A & CSG656RS1A	HEZ36D353P

Accessories.

Cooktop Accessories

	WMF Stainless Steel Roaster with Glass Lid. Suitable for FlexInduction cooktops & 60cm built-in ovens	HEZ390011
	Steam insert for HEZ390011 roaster	HEZ390012
	Cookware set. Suitable for Induction & Ceramic cooktops. Consists of 1 frying pan, 3 saucepans & 2 glass lids	HEZ390042
	WMF Stainless Steel Wok. Suitable for Induction & Ceramic cooktops	HEZ390090
	Griddle Plate Cast Aluminium. Suitable for FlexInduction cooktops	HEZ390522
	Teppanyaki - small. Suitable for FlexInduction cooktops	HEZ390511
	Teppanyaki - large. Suitable for FlexInduction cooktops	HEZ390512

	Active Carbon Filter. Suitable for DHL895CAU & DHL785BAU	DHZ5316
	Charcoal Filter. Suitable for DHL755BAU & DHL555BAU	DHZ7305

Quality Service.

The customer service of Bosch, before and after purchase.

Important notes

Model numbers and specifications are for reference only and subject to change without prior notice.

For additional information on products, please refer to your local Bosch retailer. Bosch is continuously seeking to improve specification, design and production of its appliances and alterations may take place regularly.

All descriptions and technical diagrams are intended as a guide only. For additional technical information, full dimensional and installation details, please refer to the instruction and installation manuals supplied with the appliance.

The electrical and water connection should only be made in accordance with the regulations of the national authorities.

For model and accessory availability, please contact BSH Home Appliances Limited.

(See back cover for details)

Quality service for quality appliances

Quality of our after-sales service is just as important as the quality of our products. In the unlikely event that service is required on your appliance, our extensive network of authorised service agents throughout New Zealand will ensure you are provided with the full support to ensure your appliance is operating at optimal condition.

Warranty

All Bosch products are covered under a 2-year comprehensive parts and labour warranty.
