*This symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead, it is your responsibility to dispose of your waste equipment by arranging to return it to a designated collection point for the recycling of waste electrical and electronic equipment. By separating and recycling your waste equipment at the time of disposal you will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment. For more information about how to recycle your DH Lifelabs supplied products for recycling, please contact our Customer Services Department on 0300 373 0739 or visit <https://dhlifelabs.co.uk>.

**The Aira + HEPA uses HOCI Technology that takes ingredients found in nature (water and non-iodized salt) and uses science (electrolysis) to create a powerful disinfectant.

YOUR DEVICE WITH
DH LIFELABS APP

Your safety is important to us.

Please read the full instruction manual online and all safety instructions before you use the device.

WARNING! TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY PLEASE ADHERE TO THE FOLLOWING:

- ! Use only as described in the instruction manual. Do not carry out any maintenance other than that shown in this guide or as advised by customer support. Any other use not recommended by the manufacturer may cause fire, electric shock or injury.
- ! Ensure the device is fully assembled in accordance with the instructions before use.
- ! Do not move the device while it is plugged in or powered on. Make sure the device is powered off and unplugged before moving.
- ! Remove the HOCl Generator before moving the device to avoid spilling water inside the device. If water is spilled while moving, wipe the device dry with a clean cloth and allow it to dry before use.
- ! DO NOT LOCATE DIRECTLY BELOW A MAIN ELECTRICITY SUPPLY SOCKET.
- ! This device is not recommended for use by children under the age of 8, and children and vulnerable consumers should have adequate supervision or instruction when interacting with the device.
- ! Do not use the device on wet surfaces or outdoors. Do not use in bathrooms. Never operate the device where it may fall in the bath or other water container. Do not use or store it where it may get wet or in the immediate surroundings of a bath, shower or swimming pool.
- ! Do not pour water into any openings except for the water tank. When refilling, only do so as described in this guide. DO NOT USE HOT WATER.
- ! This device may have hot parts inside. Do not use in areas where fuel, paint or flammable liquids are present. Keep combustible materials away from the device. DO NOT USE NEAR FURNACES, FIREPLACES, STOVES OR OTHER HIGH-TEMPERATURE HEAT SURFACES.
- ! Always plug directly into a wall socket. Never use the device with an extension cord as overloading may result in the cord overheating or catching fire.
- ! Do not unplug by pulling the cord from the socket. To unplug, grasp the plug, not the cord.
- ! Do not handle any part of the plug with wet hands.
- ! Do not use the device with a damaged cord or plug. If the cord is damaged it must be replaced.
- ! Do not allow the area around the device to become damp or wet. Do not allow absorbent materials, such as carpeting, curtains, drapes, or tablecloths, to become damp.
- ! If the device is not working properly, has received a sharp blow, has been dropped or damaged, do not use the device.
- ! Do not use the device on a soft or unstable surface. ALWAYS PLACE THE DEVICE ON A FIRM, FLAT, LEVEL SURFACE.
- ! DO NOT COVER THE DEVICE WHILE IN USE.
- ! Never leave water in the reservoir when not in use. Empty and clean before storage. Clean before next use.
- ! Turn off all controls before unplugging. Always unplug the device if not in use and while filling or cleaning.
- ! For best performance, place the device on the floor at least 3 feet from any wall or device.
- ! READ AND SAVE THESE INSTRUCTIONS.
- ! THIS DEVICE IS INTENDED FOR HOUSEHOLD AND INDOOR USE ONLY.
- ! Warning: Micro-organisms that may be present in the water or in the environment where the device is used or stored, can grow in the water reservoir and be blown into the air causing very serious health risks when the water is not renewed and the tank is not cleaned properly every 3 days.
- ! If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- ! The input voltage is 220-240V, 50-60Hz
- ! Be aware that high humidity levels may encourage the growth of biological organisms in the environment.

Read all safety instructions in this quick start guide, the online instruction manual, and on device.

Product Overview

1. Main Body
2. 3-Stage H13 HEPA Filter
3. HOCl Generator
4. Cold Evaporation Filter (CEF)
5. Remote Control
6. Salt Bottle with 1 Gram Scoop

Quick Start

1

Take off bottom cover, remove H13 true HEPA filter from plastic bag, and install in device. Replace the bottom cover.

2

Remove top cover to access the HOCl Generator.

3

Grasp the handle and turn the HOCl Generator to unlock it and remove it from the device.

4

Remove the CEF by unlocking it from the generator.

5

Fill the generator with water to the MAX. water level (800ml/27.05oz.).

6

Add 1 scoop (1 gram) of non-iodized salt to the water.

7

Replace the CEF and lock it into the bottom of the HOCl Generator.

8

Wipe the exterior dry and place it back in the base. Using the handle, turn the HOCl generator and lock it in place. Replace top cover.

9

Connect the AC adapter to the device, plug into an outlet, and press the power button to turn on.
