*Note:	<u> </u>	
developing this product. Not product. Not product. Not product. Permanent Confidentiality: The applicant requests the extra confidentiality.	protecting the details of t	mpetition" would negate the advantage they have achieved by he design will result in financial hardship.  manently confidential be permanently withheld from public proprietary information not customarily released to the public.
<b>Short-Term Confidentiality</b>	•	
The applicant requests the exh period of <u>NA</u> days from the d premature release of sensitive aware that they are responsible	nibits selected above as s ate of the Grant of Equip information prior to man e to notify FCC in the ev	hort term confidential be withheld from public view for a bright and prior to marketing. This is to avoid rketing or release of the product to the public. Applicant is also went information regarding the product or the product is made aments listed above for public disclosure pursuant to FCC
		dustry Canada distinguishes between Short Term and Permanent rill simply be marked Confidential when submitted to IC.
Sincerely,		

<sup>&</sup>lt;sup>1</sup> - The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
