- Get an extra 30 hours of talk time on an iPhone X or 25 hours on a Samsung Galaxy S9
- 2.1A high output for fast charging of iPad or tablet
- Rechargeable more than 500 times
- Includes micro USB cable for charging and re-charging
- Built-in over charging and short circuit protection
- Watt Hour Rating: 22.2Wh
- Input: DC5V 1.5A
- Output 1: DC5V 1A
- Output 2: DC5V 2.1A
- Charging Time: 4 to 5 hours
- Size: 128mm (L) x 60mm (W) x 12mm (H)
- Weight: 120g
- Certifications: RCM, RoHS, UN38.3

### To Charge Power Bank

- Using the included micro USB cable, connect the larger USB-A connector to a USB wall charger or USB port on a computer
- Connect the smaller micro USB connector to the input port on the power bank
- During charging the LED indicators will flash to show charging status
- When charging is complete the LED indicators will remain on

### To Charge Phone or USB Device

To Charge a Mobile Phone or other USB Device

- Output 1 is for charging a phone or other USB devices
- Output 2 is for fast charging an iPad or tablet
- Output 2 can also be used to charge a phone or other USB device
- Using your phone or other USB device's charging cable, connect the USB-A connector to the output connector on the power bank
- Connect the other end of the cable to your device
- Charging should commence automatically
- If your phone or device uses a standard micro USB Type B connector then you can also use the included cable to charge your device
- When your phone or device is fully charged, the power bank will automatically turn itself off

### To Check Remaining Capacity

- Press On/Off button and LEDs will light to show remaining capacity
- The LEDs will turn off automatically after about 5 seconds

LED ● On / ○ Off / ● Flashing	Remaining Capacity
● ○ ○ ○	Less than 5%
● ○ ○ ○	5% to 25%
● ● ○ ○	25% to 50%
● ● ● ○	50% to 75%
● ● ● ●	75% to 100

### Important Safety Instructions

- To maximize battery life span, fully charge power bank before first use for 7 to 8 hours
- Store power bank in a cool and dry place.
- Do not store power bank in hot or humid environment
- Operating temperature should be between -10c to 45c
- If power bank is not used for long periods of time, you should charge and discharge once every three months
- When charging a device, the power bank may feel warm, this is a normal operating condition and should not be cause for concern
- In normal conditions, the battery performance will decline over several years
- Do not dispose of power bank in heat or fire
- Do not clean power bank with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause product damage
