

# SCALANCE X

Industrial Ethernet rack switches for 19" control cabinets

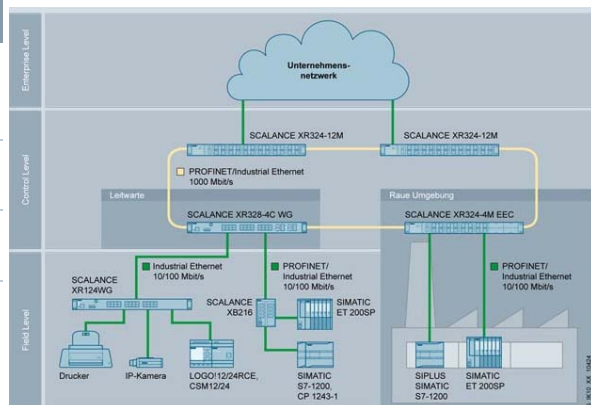

## Basic information

Siemens offers a complete range of Industrial Ethernet rack switches for 19" control cabinets: from the simple unmanaged SCALANCE XR-100WG rack switch, by way of cost-optimized SCALANCE XR-300WG managed rack switches or SCALANCE XR-300 modular rack switches for more demanding environmental conditions, to the high-performance SCALANCE XR-500 devices for connection to the corporate IT system. The range includes a wide variety of devices which may have electrical or optical ports, DC or AC versions and different approvals, and may be managed or unmanaged with as many as 52 ports.

### Customer benefits/applications

- Global use in 19" control cabinets in the industrial environment, regardless of which Ethernet-based network is used
- Reliable operation of the network thanks to redundant 24 V DC power supply
- Can also be used in Zone 2 hazardous areas
- Different rack switches to suit individual requirements when constructing a network: electrical or optical, fixed and modular ports, SFPs in Combo-Port design
- Different installation depths and height units
- Powerful configuration options, thanks to a comprehensive set of features for managed switches

### Product information

- Up to 52x ports with 10/100/1000 Mbps, of which four can be up to 10 Gbps
- Robust housing with or without securing collar
- Can be used in all Ethernet-based networks (e.g. Industrial Ethernet, PROFINET, EtherNet/IP)
- ATEX Zone 2 / IECEx, cULus HazLoc, FM

## Product overview

## Overview of rack switches

Portfolio	Product	Typical properties
<b>Unmanaged rack switches</b>		
SCALANCE XR-100	SCALANCE XR124WG	cost-optimized, 10/100 Mbps, 24x ports
<b>Managed rack switches</b>		
SCALANCE XR-300	SCALANCE XR324WG	cost-optimized, 10/100 Mbps, 24x ports
	SCALANCE XR328-4C	modular due to Combo-Ports, variants with 10/100 Mbps or Gigabit-capability, 28x ports
	SCALANCE XR324-12M	fully modular, Gigabit-capability, 24x ports
	SCALANCE XR324-12M TS	fully modular, Gigabit-capability, 24x ports, rail approval
	SCALANCE XR324-4M PoE	partly modular, Gigabit-capability, 24x ports Power-over-Ethernet
SCALANCE XR324-4M PoE TS	partly modular, Gigabit-capability, 24x ports Power-over-Ethernet, rail approval	
<b>Managed rack switches</b>		
SCALANCE XR-300EEC	SCALANCE XR324-4M EEC	partly modular, Gigabit-capability, 24x ports, for extreme environmental conditions
<b>Managed rack switches</b>		
SCALANCE XR-500	SCALANCE XR524-8C	<b>Layer 3 functions (routing) possible</b> modular due to Combo-Ports, Gigabit-capability, 24x ports
	SCALANCE XR526-8C	modular due to Combo-Ports, Gigabit-capability, 2x 10 Gbps, 26x ports
	SCALANCE XR528-6M	fully modular, 4x 10 Gbps, 28x ports
	SCALANCE XR552-12M	fully modular, 4x 10 Gbps, 52x ports

Precise information on the individual device versions and accessories, such as C-PLUG/KEY-PLUG, can be found in the ordering overview "[SCALANCE X – Industrial Ethernet Switches](#)"
