PURVEYORS OF FINE MACHINERY,® SINCE 1983

*Christmas 2016*

Dear Valued Customers,

There's a lot to get excited about this time of year; sometimes it's getting those lights up on the house, or unpacking your favorite ornaments – sometimes it's knowing you've made just the thing to bring the brightest smile to a loved one's face. Traditions are a foundation of this season, and Grizzly wants to help be a part of your workshop foundation, from the big machines to the smallest hand tools.

This brings us to one of our other favorite traditions, which is providing you with this Christmas catalog filled with our best prices of the season. Even if it's not in here, there are always great deals and an amazing selection on our website at [www.grizzly.com](http://www.grizzly.com). Make sure to check back for our clearance and new products – we have an exciting year coming and we hope you'll join us for it!

It is our customers who truly make this company great. From all of us to all of you, we wish you a warm and wonderful holiday season, and a happy and fulfilling New Year!

*Balolia*

## President's Incredible Christmas Specials

### MINI-LIGNO "MD" MOISTURE METER

Mini-Ligno moisture meters are made easy to use and sturdy, and because it's Lingomat, you can rely on accurate and reliable measurements due to their advanced measuring technology. The unique LED display is virtually unbreakable and bright enough to read even in poorly lit areas. Though the meter is compact, the measuring range of 6-25% is still wide enough to cover all applications from woodworking to home construction, water damage repair, lumber drying, and even measuring firewood. Integral pins can measure up to  $\frac{3}{16}$ " deep. The meter is built to the same high quality standard as all other mini-Lignos and comes with the same 2 year warranty from Lingomat. Unit measures  $2\frac{3}{4}$ " x 5" x 1" and weighs just 8 oz.

# PLANERS

## 12½" LEAN & MEAN PLANER

- Motor: 2 HP, 110V, single-phase, 15A
- Maximum cutting width: 12½"
- Maximum cutting height: 6"
- Maximum cutting depth: ¾"
- Minimum board thickness: ¼"
- Feed rate: 32 FPM
- Number of knives: 2, double-edged HSS
- Knife size: 12½" x 7/8" x 1/8"
- Cutterhead speed: 10,000 RPM
- Number of cuts per inch: 52
- Thermal overload protection
- Top-mounted return rollers
- Includes knife setting jig and wrench
- Approximate shipping weight: 78 lbs.

# SPIRAL CUTTERHEADS

## BYRD® SHELIX CUTTERHEADS

Made in the USA by Byrd®, these indexable carbide insert cutterheads are very well made and leave a great finish. The inserts are not only placed along a spiral pattern, they are also at an angle so that the shearing action leaves a glassy smooth cut on the toughest of woods. Each cutterhead comes with 5 extra replacement inserts.

# DRILL PRESSES

## 5-SPEED 8" BABY DRILL PRESS

Perfect for the small shop, this tough little guy won't get in your way when things get cramped. Put it away on the shelf when finished. Fantastic compact solution and great for miniature work!

- Motor: 1/2 HP, 110V, single-phase, ODP, 2A
- Swing: 8"
- Drill chuck: 1/4"-5/8"
- Drilling capacity: 1/2" steel
- Spindle travel: 2"
- Speeds: 620, 1100, 1720, 2340, 3100 RPM
- Collar size: 1.570"
- Precision-ground cast iron table
- Table size: 6 1/2" square
- Table swing: 360°
- Table tilts: 90° left & right
- Overall height: 23"
- Footprint: 12 1/2" L x 8" W
- Approximate shipping weight: 43 lbs.

**G7942** ~~\$117.95~~ **SALE \$109.95**

## 12-SPEED HEAVY-DUTY BENCHTOP DRILL PRESS

All the features and dependability of an expensive industrial grade drill press—with a price tag that's astoundingly low.

- Motor: 3/4 HP, 110V, single-phase, 9A
- Swing: 14"
- Drill chuck: 1/4"-5/8"
- Drilling capacity: 3/4" steel
- Spindle taper: MT#2
- Spindle travel: 3 1/4"
- Speeds: 140, 260, 320, 380, 480, 540, 980, 1160, 1510, 1650, 2180, 3050 RPM
- Quill flange/collar dia: 2.595"
- Precision-ground cast iron table
- Table swing: 360°
- Table tilts: 90° left & right
- Overall height: 38"
- Footprint: 18" L x 11" W
- Approximate shipping weight: 154 lbs.

## 12-SPEED 17" FLOOR DRILL PRESS

If you use your drill press commercially and need power and capacity, this is one drill press you should look at seriously. Note the 4 1/4" spindle travel!

- Motor: 1 HP, 110V/220V, single-phase, prewired 110V, 10A/5A
- Swing: 17"
- Drill chuck: 1/4"-5/8"
- Drilling capacity: 1" steel
- Spindle taper: MT#3
- Spindle travel: 4 1/4"
- Speeds: 210, 310, 400, 440, 630, 670, 1260, 1430, 1650, 2050, 2350, 3300 RPM
- Collar size: 3.623"
- Precision-ground cast iron table
- Table size: 13 3/4" square
- Table swing: 360°
- Table tilts: 90° left & right
- Overall height: 70"
- Footprint: 22 1/2" L x 14 1/2" W
- Approximate shipping weight: 283 lbs.

**INCLUDES BUILT-IN LIGHT (BULB NOT INCLUDED)**

**G7947** ~~\$595.00~~ **SALE \$575.00**

## 12-SPEED 20" FLOOR DRILL PRESS

The MT#4 spindle taper, 1 1/2 HP motor and precision-ground T-slotted table will handle just about any drilling job.

- Motor: 1 1/2 HP, 110V/220V, single-phase, prewired 110V, 15/7.5A
- Swing: 20"
- Drill chuck: 1/4"-5/8"
- Drilling capacity: 1 1/4" steel
- Spindle taper: MT#4
- Spindle travel: 4 3/4"
- 12 Speeds: 210, 310, 400, 440, 630, 670, 1260, 1430, 1650, 2050, 2350, 3300 RPM
- Collar size: 3.623"
- Precision-ground cast iron table
- Table size: 18 3/4" x 16 3/4"
- Switch & wiring: 110V only
- Overall height: 70 1/4"
- Footprint: 23" L x 18" W
- Approximate shipping weight: 331 lbs.

**INCLUDES BUILT-IN LIGHT (BULB NOT INCLUDED)**

## VARIABLE-SPEED GEARHEAD DRILL PRESS WITH CROSS-SLIDE TABLE

- Motor: 1.5 HP, 220V, 3-phase, 1720 RPM, 5.5A with variable frequency drive for single-phase power
- Swing: 20 1/4"
- Max. distance spindle-to-table: 17 1/2"
- Max. distance spindle-to-base: 42"
- Table size: 23" L x 7 1/2" W x 1 3/4" H
- Vertical table travel: 17 1/4" • Table swivel: 360°
- Max. head tilt (left/right): 30°/90°
- Spindle travel: 4 3/4" • Spindle taper: R-8
- Spindle speeds: Variable, 0-2500 RPM
- Quill flange/collar dia: 2 1/2 1/8"
- Drilling capacity for mild steel: 1 1/8"
- T-slot width: 1/2" (4 on table, 2 on base)
- Overall size: 42" W x 77 1/2" H x 46 1/2" D
- Footprint: 26" L x 18 1/2" W
- Approximate shipping weight: 739 lb.

## 16" SCROLL SAW WITH FLEXIBLE SHAFT GRINDER

- Motor: 1/8 HP, 120V, DC, variable speed: 550 to 1600 SPM (saw); 1650 to 4800 RPM (flex shaft), 1.2A
- Throat size: 16"
- Tool-less blade changes
- Uses 5" long pin or pin-less blades
- Blade can be turned 90°
- 42" flex shaft with 1/8" collet chuck
- Adjustable lamp
- 16 1/4" long x 10" wide cast aluminum table
- Table tilt: 45°
- Dust blower
- Dust port
- Includes set of blades, blade guard, blade adapters, drill bit, flex-shaft rotary tool, and wrenches
- Blade stroke: 3/4"
- Cutting capacity: 2" at 0°; 2 5/8" at 45°
- Approximate shipping weight: 31 lbs.

## 18" X 47" WOOD LATHE

Need a solid cast iron lathe with big capacity? Well, look no further because this 18" x 47" Wood Lathe has it all! You'll appreciate the built-in shelf brackets, variable-speed spindle control, digital speed indicator, forward/reverse switch, and convenient utility basket. Single-phase variable-frequency-drive (VFD) technology provides electronic variable-speed control without 3-phase power. All you need is standard 220 volt, single-phase power to be up and running in no time. You'll be amazed by all the quality and innovative features this lathe has to offer!

### SPECIFICATIONS:

- Motor: 2 HP, 220V, 5.3A, single-phase VFD
- Power requirement: 220V, single-phase, 15A
- Swing over bed: 18"
- Swing over tool rest base: 14"
- Swing over tool rest: 13 3/4"
- Distance between centers: 47"
- Heavy-duty cast iron bed and legs ensure stability and minimal vibration
- 1 1/4" x 8 TPI RH headstock spindle
- Variable-speed spindle control with digital readout
- Speed range: high: 330–3200 RPM, low: 100–1200 RPM
- MT#2 spindle & tailstock tapers
- Spindle bore: 0.393"
- Tool rest post diameter: 25mm
- Overall dimensions: 80 3/4" W x 19 1/8" D x 48 1/8" H
- Footprint: 65 1/2" L x 20" W

## OSCILLATING EDGE BELT AND SPINDLE SANDER

This benchtop Oscillating Edge Belt and Spindle Sander easily converts from a spindle drum sander to a 4" x 24" edge belt sander for a variety of sanding applications. Features include a tilting table and on-board storage for drums, table inserts, and edge sander.

- Motor: 1/2 HP, 120V, 3.5A • Table tilt: 0-45°
- 5 sanding drums: 1/2", 3/4", 1", 1 1/2", 2"
- Sanding belt speed: 1575 FPM
- Spindle speed: 2000 RPM
- Spindle oscillation: 5/8", 58 oscillations per minute
- Sanding belt size: 4" x 24"
- Includes 80-grit hard sleeves and sanding belt
- Approximate shipping weight: 32 lbs.

## 1" X 30" BELT/5" DISC SANDER

This combination benchtop sander is ideal for sanding intricate parts, contour sanding and dry sharpening. Both the belt and disc sanding tables tilt 45° for added versatility and the removable belt platen and idler roller guard make contour sanding a breeze.

- Motor: 1/2 HP, 110V, single-phase, 3450 RPM, 2.5A
- Tables tilt: 45°
- Belt sander table size: 5 1/8" x 5 1/8"
- Disc sander table size: 4" x 7 1/16"
- Platen size: 1" x 3"
- Tracking adjustment
- Direct drive
- Two dust ports: 1 3/4", 1 13/16"
- Takes standard 1" x 30" belts & 5" PSA discs
- Approximate shipping weight: 21 lbs.

# DUST COLLECTORS

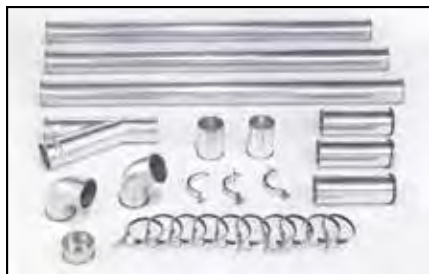

## INDUSTRIAL DUST COLLECTION FITTINGS

Our starter kits include everything you will need for a simple, single machine set up at one low price. The branch and end cap make your dust collection system expansion ready for future growth. The machine addition kit will allow you to expand as your shop gets bigger. Choose from 4, 5, or 6 inch diameters for either kit. The big advantage of these metal fittings lies in their design flexibility—they can be unclamped and reconfigured in a new shop layout. That means these can last a lifetime!

### STARTER KITS

#### INCLUDES:

- Two machine adapters
- Ten pipe clamps
- Three 5' pipes
- One "Y" branch
- Three pipe hangers
- One end cap
- Three adjustable nipples
- One 90° elbow
- One 60° elbow

- Motor: 1/2 HP, 120V, single-phase, 60Hz, 1A
- Airflow: 260, 362, and 409 CFM
- Timer settings: 1, 2, and 4 hours
- Outer filter: 5 micron
- Inner filter: 1 micron
- ETL listed
- Weighs 31 lbs.

### FEATURES:

- Infrared remote control system adjusts speeds, timer, and ON/OFF controls
- Easy-to-replace filters, no tools required
- Inner filter can be washed or blown out with compressed air
- Includes: eye bolts and chains for hanging from the ceiling, or can be used on a workbench

# GRINDING & POLISHING

*IDEAL FOR WOOD TURNERS, WOODWORKERS, & KNIFE MAKERS!*

## 30<sup>th</sup> ANNIVERSARY 10" WET SHARPENING SYSTEM — 110 RPM

Sharpen just about any cutting tool to a razor-sharp edge in no time at all. Designed in Germany, this 110 RPM Wet Sharpening System with leather stropping wheel is so versatile and simple to use, you'll wonder why you ever put up with dull edges before.

### SPECIFICATIONS:

- Motor: ¼ HP, 120V, 3A
- 110 RPM wheel speed
- 220-Grit grinding wheel is specially made for wet grinding
- Grinding wheel measures 250 x 50mm with 12mm bore
- Water bath keeps tools cool while sharpening
- Leather stropping wheel size: 200 x 30mm
- Includes a sharpening jig, angle guide, and polishing/honing paste
- Approximate shipping weight: 42 lbs.

## 8" GRINDER/SHARPENER

Experience the pleasure of using sharp cutting tools like never before with this 8" Grinder/Sharpener. Sharpen like a pro in no time for the best cutting edges imaginable! Don't worry about burning your fine cutting edges, the T10097 draws a fine sheet of water up from the water tray to dissipate heat and keep the grinding wheel clean and efficient.

A multi-positional tool rest and universal holder accept a variety of cutting tools for ultra-precise grinding, and the leather stropping wheel removes fine burrs and polishes the cutting edge to an unbelievable sharpness. Ideal for wood chisels, carving chisels, lathe tools, plane irons, scissors, knives, axes and more!

- Motor: ¼ HP, 110V, 1.2A
- Tool rest diameter: 12mm
- Grinding wheel dimensions: 200 x 40mm with 12mm bore
- Grinding wheel grit: 220
- No load wheel speed: 120 RPM
- Overall dimensions: 18" L x 11" W x 12" H
- Includes 200mm grinding wheel, universal holder, abrasive paste, angle gauge, leather honing wheel and instructions
- Approximate shipping weight: 23 lbs.

# WELDING

## OXY-ACETYLENE SET WT5000

Our most portable self-contained welding and cutting set. Oxygen and acetylene gases provide the power to weld, braze, or cut a variety of metals with no electricity required. Welds to 3/8" and cuts up to 1/2". Larger tips will increase welding and cutting sizes. Made with heavy-duty brass and steel construction. Kit includes oxygen and acetylene bottles and regulators, torch handle with check valves, cutting attachment, one welding tip, acetylene tank valve key, double line DAYCO™ hose, portable tote, flint striker, and goggles.

# MILLING MACHINES

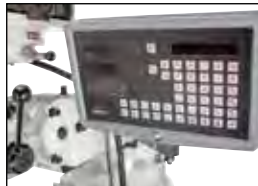

## 9" x 49" MILL WITH DRO & POWER FEED

### SPECIFICATIONS:

- Motor: 3 HP, 220V, 19A, single-phase
- Spindle taper: R-8
- Spindle travel: 5"
- T-slots: 3 @ 2½" centers, ⅝" wide
- Head ram travel: 12" (front to back)
- Head tilt: 45° left & right, 90° front & back
- Turret/column swivel: 360° left/right
- Max. distance spindle-to-table: 15⅝"
- Table travel (longitudinal): 29"
- Table travel (cross): 12"
- Table travel (vertical): 16"
- Table size: 9" x 49" x 3¼"
- Spindle speed: 8, 80–2720 RPM
- Overall size: 83" W x 62" D x 84" H
- Footprint: 41" L x 27" W
- Approximate shipping weight: 2580 lbs.

### FEATURES:

- 2-Axis DRO
- One-shot pump lubrication
- Auto stop with micro-adjustable stop
- Auto downfeed
- Longitudinal power feed
- Hardened and ground table surface
- Chrome-plated, precision-ground quill
- R-8 Spindle
- X- and Y-axis covers
- Forward and reverse spindle switch
- Halogen worklight
- Included service tools and toolbox

# GUNSMITHING LATHES

## 12" X 36" GUNSMITH'S LATHE WITH STAND

When we set out to design a professional gunsmith's lathe, we felt that we should also make a smaller starter lathe for aspiring hobby gunsmiths. Don't let the "smaller" size fool you—this is a serious metal lathe with many features that will allow you to turn and chamber barrels just like the bigger one. Plus, it's one heck of a metal-cutting lathe. Check out all the interesting features below!

### SPECIFICATIONS:

- Swing over bed: 12"
- Swing over gap: 17"
- Swing over cross slide: 7"
- Distance between centers: 36"
- Bed width: 7 1/4"
- Spindle bore: 1.57"
- Spindle nose taper: MT#5
- Spindle nose: D1-5 Camlock
- Cross slide travel: 6 1/4"
- Compound travel: 3 1/4"
- Tailstock barrel taper: MT#3
- Tailstock barrel travel: 4"
- Motor: 2 HP, 220V, single-phase, 8.5A, 60 Hz, 1725 RPM
- Number of speeds: 9
- Range of speeds: 70, 200, 220, 270, 360, 600, 800, 1000, and 1400 RPM
- Overall dimensions: 61" W x 26" D x 54 1/2" H
- Footprint: 57 1/2" L x 14 1/2" W
- Approximate shipping weight: 1330 lbs.

### FEATURES:

- Removable gap bed allows turnings up to 17" in diameter
- Easy-to-use lever controls
- Hardened and ground cast iron bed
- Cuts 4–112 standard TPI and 0.2–4.5 metric
- ON/OFF reverse switch on carriage
- LED worklight
- Ball bearing steady/follow rests
- Outboard spindle has 4 brass-tipped screws for supporting barrels
- Socket for tailstock lock
- Cast-aluminum gear cover
- D1-5 spindle nose (6 pin) • 1.57" spindle bore

### STANDARD EQUIPMENT:

- 6" 3-Jaw chuck with 2-pc. reversible jaws
- 8" 4-Jaw chuck with reversible jaws
- 10" Faceplate
- Steady rest/follow rest with roller tips
- Full-length splash guard
- Heavy-duty steel stand
- 200-Series quick-change tool post w/included holder
- Two MT#3 dead centers (1 carbide-tipped)
- One MT#3 live center
- Set of seven change gears
- 1/2" Chuck with MT#3 arbor
- Toolbox

## 13" X 40" GUNSMITH LATHE WITH DRO

This 13" x 40" workhorse is a great addition to our line of spectacular Grizzly Gunsmith Lathes. Supplied with an 8-speed gearhead, 2 HP motor, D1-4 spindle (with a generous 1.57" bore), flood coolant system, halogen worklight, pull-out chip tray, and foot brake—great for safety! The outboard end of the spindle has a "spider" mounting system—ideal for gunsmithing. This is one well-stocked machine! Check out the list of standard equipment below.

### SPECIFICATIONS:

- Swing over bed: 13.70"
- Swing over gap: 18.50"
- Swing over cross slide: 7.71"
- Distance between centers: 40"
- Bed width: 7 1/8"
- Spindle bore: 1.57"
- Spindle taper: MT#5
- Spindle nose: D1-4
- Spindle length: 16 3/8"
- Spindle length with 4-jaw chuck: 20 1/2"
- Cross slide travel: 5 1/8"
- Compound travel: 3 1/4"
- Tailstock taper: MT#3
- Motor: 2 HP, 220V, single-phase, 8.5A, 60 Hz, 1720 RPM
- Number of spindle speeds: 8
- Spindle speed range: 70–2000 RPM
- Overall dimensions: 74 1/2" W x 31" D x 58" H
- Footprint: 70 1/2" L x 19 1/4" W
- Approximate shipping weight: 1370 lbs.

### FEATURES:

- 2-Axis digital readout
- Quick-change gearbox
- Convenient pull-out chip tray
- Outboard spindle spider for gunsmithing
- Quick-change tool post
- Halogen worklight
- Foot brake with motor shut-off switch
- Flame-hardened headstock gears
- Built-in coolant system
- Full-length splash guard
- D1-4 camlock spindle
- Hardened cast iron bed

### STANDARD EQUIPMENT:

- 6" 3-jaw universal chuck
- 8" 4-jaw chuck with independent jaws
- 10" Faceplate
- Steady rest
- Follow rest
- Quick-change tool post
- Toolbox with service tools
- Change gears
- MT#3 HSS dead center
- MT#3 carbide-tipped dead center

## DADO BLADES

**FORREST**

Hailed as the Cadillac of all blades, Forrest saw blades have become legendary for their ability to leave highly polished, finish-ready surfaces on nearly everything they cut. Choose the style best suited for your cutting needs and see why Forrest has earned the reputation for being the saw blade by which all others are judged. Made in USA.

The world's finest dado head clean-cuts all your grooves! No splintering when cross-cutting oak, ply veneers, and melamine. No staggered steps or round bottoms! Cuts in rip, cross-cut, and miter at any depth. Cuts all sized grooves 1/4"-29/32" increments. Super hard carbide gives up to 300% longer life, especially good on plywoods and abrasive particle boards.

- Stack dado set features micro-grain carbide teeth
- Cuts square sides and flat bottom dados from 1/2" - 29/32" wide
- 8" Diameter x 5/8" arbor fits most 10" table saws

- Includes:
  - Two 8" x 24 tooth x .106" kerf carbide-tipped blades
  - One 8" x 4 tooth x .059" kerf carbide-tipped chipper
  - Five 8" x 4 tooth x .118" kerf carbide-tipped chippers
  - Four Magnetic adjustment shims: two 0.012" and two 0.015"

# DRILL BIT SHARPENING

## PROFESSIONAL DRILL BIT SHARPENING MACHINE

This precision-made Drill Bit Sharpening Machine is so simple to use, anyone can sharpen dull bits in three easy steps. Just set the drill bit in the collet, grind the taper relief angle, and grind the web thinning angle to reduce the center-point width. It features a depth adjustment gauge, tapered diamond wheel, 90°–140° angle setting adjustment, and built-in collet tray. Collet sizes include: 1/8", 5/32", 3/16", 1/4", 5/16", 3/8", 7/16", 15/32", and 1/2". Patented in the US!

**BACK RELIEF GRIND!**

**SMOOTH, LOW-VIBRATION GRINDING!**

### FEATURES:

- 170 Grit, 65° tapered diamond grinding wheel
- Sharpens 1/8"–1/2" (3–13mm) twist drill bits
- Sharpens HSS, TiN-coated, cobalt, and carbide bits (optional T20239 wheel needed in order to grind carbide—see below)
- Includes cleaning knob brush and 11 collets
- Easy three-step sharpening process
- 6000 RPM
- Machine weight: 18 lbs.

## DRILL DOCTOR® DRILL BIT SHARPENER

Do you throw away dull drill bits? Or toss them in a shop drawer, never to be used again? The Drill Doctor® puts the diamond grinding power of a professional sharpening system into your shop so you can bring those high speed carbide and expensive cobalt drill bits right back to life. Available in two sizes to handle 3/32" to 3/4" bits, Drill Doctor® Sharpeners adjust to accurately renew conventional, split-point, and masonry bits.

**INCLUDES CARRYING CASE AND INSTRUCTIONAL DVD**

## DRILL DOCTOR® HANDYMAN

On-Chuck-Alignment simplifies the sharpening process. V-Block jaws eliminate jaw twisting on small bits. New ergonomic low profile design for increased stability and less tool walking. New permanent magnet motor produces consistent power, regardless of speed or load. Sharpens 3/32" to 1/2" drill bits. Sharpens high speed steel, carbide, TiN-coated, and masonry bits.

User replaceable diamond sharpening wheel accessory available.

# AIR COMPRESSORS

## MINI AIR COMPRESSOR

- Oil-free, piston-type compressor
- Instant pressure at start-up • Pressure adjustable
- Pressure gauge shows working pressure
- Low noise, 50db • Power: 1/8 HP • Speed: 3400 RPM
- Voltage: 110V, 60 Hz • Max. pressure: 43.5 PSI
- Air output: 0.45–0.53 CFM • Net weight: 5 lbs.
- Overall dimensions: 6.3" x 3.1" x 6.2"
- Suitable for airbrushes with 0.2mm to 0.5mm nozzles

T25929 ~~\$52.50~~ SALE **\$39<sup>95</sup>**

## 1.2-GAL. HIGH OUTPUT TRIM COMPRESSOR

**BOSTITCH**

- High output oil-free pump delivers 2.8 CFM @ 90 PSI and 150 PSI max. operating pressure
- 2 HP (Peak), 1.5 HP (Running) motor draws 12 Amps for easy start up without tripping circuit breakers
- Integrated control panel with roll cage protects gauges from jobsite damage
- LED ON/OFF switch
- Convenient storage pocket
- Integrated cord wrap for improved portability
- Non-marring rubber feet
- Approximate shipping weight: 28 lbs.

T22331 ~~\$139.95~~ SALE **\$129<sup>95</sup>**

## 1-GAL. HAND-CARRY AIR COMPRESSOR CT100100AV

**CAMPBELL HAUSFELD**

- 125 Max PSI • 0.7 SCFM @ 90 PSI
- Quiet Operation; ideal for trim and finish applications
- Recommended for Pin Nailers, Brad Nailers, Staplers, Flooring Nailers, Finish Nailers
- Oil-free pump requires no maintenance
- Lightweight and easy to carry, 21 lbs.
- 3-Year limited warranty

T24726 ~~\$149.95~~ SALE **\$89<sup>95</sup>**

## 4-GAL. OIL-LUBRICATED STACK TANK COMPRESSOR

**BOSTITCH**

- Oil-lubricated pump delivers 4 CFM @ 90 PSI and 135 PSI max operating pressure
- 1.5 HP running motor draws only 14 amps for easy start up without tripping circuit breakers
- 4-Gallon reserve tank for multi-tool use
- Roll cage style handle protects components from jobsite damage
- Cold start valve for easy start up in cold weather climates
- Oil level site glass with cast in-fill and drain funnels for added convenience
- Weighs 58 lbs.

T22718 ~~\$259.95~~ SALE **\$222<sup>95</sup>**

## 4.5-GAL. COMPRESSOR CT436100AV

**CAMPBELL HAUSFELD**

- 4.5-Gallon ASME air tank
- Easy portability, contractor-grade, delivers 3.7 CFM @ 90 PSI
- 175 PSI max
- Maintenance-free air compressor pump
- Ideal for use with all nailers and staplers
- 3-Year limited warranty through the manufacturer
- Weighs 75 lbs.

# AIR TOOLS

## 7" ANGLE SANDER

- Ideal for removing rust, sanding metal, and rough body filler
- Planetary gearing for greater power
- Auxiliary handle mounts left or right
- Free speed: 4500 RPM
- Air inlet: 1/4" NPT
- Average air consumption: 12 CFM
- Operating air pressure: 90 PSI
- Backing pad: 7" diameter

**T23086** ~~\$74.95~~ **SALE \$64.95**

## PNEUMATIC NIBBLER

- Lightweight aluminum housing
- Cuts up to 16 gauge steel without leaving burrs or deformed edges
- Adjustable die can be turned to suit various cutting positions
- Strokes per minute: 3800
- Air inlet: 1/4" NPT
- Average air consumption: 9.8 CFM
- Operating air pressure: 90 PSI

**T23085** ~~\$32.95~~ **SALE \$31.50**

## 1/2" REVERSIBLE AIR DRILL

Features include a pistol grip with trigger switch, forward and reverse switch, and 1/4" NPT female air inlet. The 1/2" chuck accepts drill bits down to 1/8", and includes a chuck key. The auxiliary handle can be positioned anywhere around the drill body. Weighs 4 lbs.

**H6139** ~~\$27.25~~ **SALE \$23.95**

## 50-PC. AIR TOOL KIT

Pick up three handy air tools, plus many important accessories, in one compact kit. Tools includes a 1/2" Air Impact Wrench, 3/8" Air Ratchet Wrench, and 150mm Air Hammer. Accessories include a 10-piece chrome vanadium socket set with extension and adapters, screwdriver bits, blow gun with multiple tips, tire chucks, three hammer chisels, swivel connection, oiler, and quick-connect fittings. All items are packaged in a molded case.

**H8208** ~~\$99.95~~ **SALE \$73.95**

## 1/4" ANGLE DIE GRINDER

- 1/4" Collet capacity
- Angled head allows easy access into tight spots
- Rear exhaust • Safety-lock paddle switch
- 20,000 RPM free speed • 1/4" NPT inlet
- 3 CFM average air consumption
- 90 PSI recommended air pressure
- Includes: collet wrenches, male quick-connect coupling, and lubricating oil

**H8216** ~~\$29.50~~ **SALE \$25.95**

## 1/2" IMPACT WRENCH

1/2" Drive accepts all 1/2" standard and metric sockets. Features pistol grip with trigger switch, forward and reverse switch, 4 clutch settings, rubber bumpers for protection against normal garage use, and a 1/4" NPT male quick-connect fitting. Sockets not included. 7000 RPM (no load), 230 ft/lbs. torque rating. Weighs 5 lbs.

**H6138** ~~\$22.95~~ **SALE \$14.75**

## 6" DUAL-ACTION SANDER

- Compact and lightweight
- Accepts 6" PSA sanding discs
- Large paddle switch
- 10,000 RPM free speed
- 4 CFM average air consumption
- 90 PSI recommended air pressure
- 1/4" NPT inlet
- Includes: male quick-connect coupling and lubricating oil

**H8215** ~~\$43.95~~ **SALE \$41.95**

## TIRE INFLATOR/DEFLATOR

Press the quick-locking hose onto the tire valve and read the pressure directly on the shock-protected pressure gauge. Pull the trigger to add air and press the thumb valve to release air. A flexible 14" long hose reaches those inside duals. 1/4" NPT.

**T23095** ~~\$20.50~~ **SALE \$17.95**

## PNEUMATIC METAL SHEAR

- Heavy-duty shear head provides long life and reliable cutting
- Ergonomic grip for comfort and stability
- Shears most types of plastics and all types of aluminum, tin, and steel
- Max. material thickness: 20 gauge
- Strokes per minute: 5500
- Air inlet: 1/4" NPT
- Operating air pressure: 90 PSI

**T23094** ~~\$41.95~~ **SALE \$35.95**

## RAPIDAIR MAXLINE 3/4" SYSTEM MASTER KIT

**MaxLINE**

Maxline is an industrial compressed air piping system that is fast and easy to install, cost effective, leakproof, and corrosion resistant. Maxline's multi-layer construction can be easily bent by hand and maintain its desired shape, giving a professional appearance with no tubing sag. 100 ft. rolls allow for faster installation times, with fewer joints. Its smooth interior walls will never build up scale or rust, making an efficient air system. Recommended for larger buildings and tubing lengths up to 150' from the air compressor.

Maxline piping can be mounted on wall surfaces, in walls for new construction, and be directly buried under ground or concrete. This system is easily configured and can be remodified.

Maxline fittings are nickel-plated brass designed for years of long-term performance. Its double O-ring compression design is engineered to be a leakproof system, that can be easily disassembled and reused.

- Operating pressure: 175 PSI at 70°, 140 PSI at 140°
- Meets OSHA guidelines
- Temperature range: -40°F to 140°F
- Compatible with common compressor oils

- Maxline Master Kit Contains:
- 3/4" Tubing 100 ft • 3 Outlets • 2 Tees
- 3/4" Male NPT Straight
- 20 Mount Clips • Tools

**T24126** ~~\$209.95~~ **SALE \$189.95**

*Couplers sold separately.*

## FLOCKING APPLICATORS

The Air-Assisted Spray Gun is designed to be used with an air compressor at 10 to 15 lbs. of air pressure. Used to apply Suede-Tex Spray-On Suede Flocking Fibers. The Mini Flocker cardboard tube flock applicator is completely manual. Used to apply Suede-Tex Spray-On Suede Flocking Fibers.

## SALAD BOWL FINISH—CLEAR

Behlen Salad Bowl Finish has been specially formulated to allow for the following statement. This product contains FDA regulated ingredients complying with 21 CFR 175.300, and therefore achieves a non-toxic, safe-for-food contact (in its cured state) finish. Behlen Salad Bowl Finish has the application ease of an oil finish (just use a clean white cloth) and the film building and sheen producing (up to a satin) qualities of a varnish. Wooden bowls, wooden utensils, butcher blocks, and related objects like games, puzzles, and pull toys, are safe to come in contact with food after applying Salad Bowl Finish. *Cannot ship via air.*

# TRACK SAW

## 6 1/4" TRACK SAW

This Track Saw redefines the circular saw, making traditional circular saws obsolete! Its plunge-cutting action eliminates flip-up blade guards and its riving knife reduces the risk of pinching and kickback for a new revolution in safety. And, although this saw cuts like any other circular saw, the optional Guide Rail is indispensable for making straight cuts when cutting wide panels. No more unsafe, over-extended reaching and poor balance while cutting wide panels on a table saw! The Guide Rail features a non-slip base and low-friction glide strips for a secure, nearly effortless cutting experience. The optional Accessories Pack includes two rail clamps that firmly secure the guide rail without hindering saw travel and a rail connector for joining two guide rails when ripping full length plywood. Once you use this Track Saw, you'll never go back to your old circular saw!

**DESIGNED IN  
GERMANY!**

- Suitable for a variety of materials like solid wood worktops, double-coated MDF boards, etc.
- Infinitely variable cutting depth up to 2 5/32"
- Rail system for accurate, inclusive, and splinter-free cuts
- Non-slip backing on the underside of the rail for secure grip on the workpiece
- Sliding surfaces on the guide rail ensures smooth machine operation
- Built-in riving knife for anti-kickback protection
- Anti-tilt bar provides a secure grip on the guide rail for miter cutting

### SPECIFICATIONS:

- Motor: 120V, 9A, 1.1 kW
- Motor speed: 5500 RPM
- Blade rim speed: 9070 ft per second
- Max cutting depth at 90D: without rail 2 5/32", with rail 1 31/32"
- Max cutting depth at 45D: without rail 1 5/8", with rail 1 1/16"
- Saw blade: 160mm x 20mm x 48 tooth
- Distance between saw blade and wall: 5/8"
- Dust port diameter: 1 1/2"
- Weight: 11 lbs.

### FEATURES:

- Includes saw blade
- Continuous cutting depth limiter
- Anti-kickback protection
- Dust port for shop vacuum

## 20V MAX LI-ION MITER SAW WITH BATTERY AND CHARGER

This DCS361M1 Miter Saw features an integrated XPS cross cut positioning system that provides adjustment free cut line indication for better accuracy and visibility. Capacity allows cuts up to 3 3/8" for nested crown and 3 1/2" base vertically but will also cut 2" x 8" laying flat. Adjustable stainless steel miter detent plate with 11 positive stops improves productivity and ensures cutting accuracy and oversized bevel scale makes bevel angle adjustments accurate and easy. Cam lock miter handle delivers quick and accurate miter angles while the precise miter system and machined base fence support optimize durability and cutting accuracy. The compact, lightweight 31.6 lb. design also allows for easy transport or storage. Utilizes a 20V MAX Battery Pack which provides on average 183 cuts of 2" x 4" pine or 275 cuts of 3/4" pine baseboard per charge. Includes 20V MAX battery, charger, carbide blade, blade wrench, and material clamp.

# WORKBENCHES & TOPS

## SOLID MAPLE WORKBENCH & CABINET TOPS

Since the first day Grizzly® started, we have been using these Maple Workbench Tops in our shipping and service departments. We estimate that we have over 200 tops in use and expect them to be in service for the next 50 years! Our workbench tops are made of solid 1 3/4" USA grown hard rock (sugar) maple strips that are laminated to each other and then coated with food-safe Durakryl finish. The tops, bottoms, and all edges are sealed and the appearance is clear, satin smooth, low sheen, and natural in color. There is no odor to the finish and they can be cleaned like any other counter surface using soap and water, bleach or nail polish remover.

Build your own workbench using our excellent selection of tops. Our optional adjustable SHOP FOX® legs are extremely heavy-duty, allowing you to customize your workbench size according to your needs.

The Solid Maple Cabinet Tops are as beautiful as they are functional. While you enjoy the soft grain and subtle color variations of your top, you also can use it as a true cutting surface. Coated with the same food-safe Durakryl finish as the workbench tops, these cabinet tops require little or no maintenance, while bringing together the warm texture & feel of solid wood & the durability & longevity of a solid surface.

# PEN-MAKING ITEMS

## HOLD FAST™ WOOD STABILIZATION SYSTEM

Create your own unique "easy-to-turn" wood with this user-friendly system that utilizes a Vacuum Stabilization Process and Stabilizing Resin. Woods that tend to crack and check, such as spalted woods, can now become solid, easily turned pieces with the application of heat cured resin that penetrates deeply into the wood. Great for stabilizing pen blanks!

Resin Stabilized wood gives new life to woods that would normally not be usable for turning. Wood Stabilizing Resin is low viscosity, low odor, and heat cured. Low temperature heat cure (190°-200°F) allows cure in a small toaster type oven... out of the kitchen! Dyes added to the stabilizing resin can also create dramatic coloring effects. The Resin is a Methacrylate Ester base and can fill voids and penetrate thick wood if the wood is relatively soft and porous. No need to stabilize hard wood!

Note: Vacuum Stabilization requires a small air compressor (1.2 CFM @ 85 PSI) and toaster type oven. Both NOT included with Hold Fast Wood Stabilization products.

### VACUUM STABILIZING SYSTEMS

- Includes everything needed to start stabilizing wood
- Contains 3.5 quart OR 6 quart chamber
- Vacuum will draw 25" Hg depending on altitude and atmospheric pressure
- Maximum vacuum limit for the chamber and lid is 27" Hg
- Includes vacuum chamber, anti-float plate, clear cover, seal, and fittings.

MODEL	TYPE	REG.	SALE
T1170	3.5 Quart	<del>\$95.00</del>	<b>\$75.00</b>
T1171	6 Quart	<del>\$129.95</del>	<b>\$105.00</b>

### VACUUM STABILIZING KIT

The Vacuum Stabilization Kit provides the optimum in versatility and economy in wood stabilization. The vacuum pulls the stabilization resin into the wood to change woods into pieces that can be easily turned. Two tanks allow for large and small batches.

- Clear viewing cover with fittings
- Main vacuum chamber/large batch tank: 8.25 quart (50-70 pen blanks)
- Small batch 2 quart tank (up to 20 pen blanks): ideal for dye coloring batches that fits into 8.25 quart chamber. Clear cover for 2 quart not included with this kit.
- Unique Anti-Float Plates keep wood submerged; one for each container

T1169 ~~\$225.00~~ SALE **\$199.95**

### VACUUM GENERATOR PUMP

Venturi effect produces vacuum with your air compressor.

- Supply air at 90 PSI allows you to increase air pressure resulting in increased vacuum and vacuum volume by turning the regulator knob
- Typical vacuum at 70 PSI = 21" Hg
- Typical vacuum at 85 PSI = 25" Hg
- Compressed air consumption = 1.2 CFM @ 85 PSI
- Note: Air pressure over 85 PSI does not benefit the vacuum - just uses more compressed air

T1168 ~~\$135.00~~ SALE **\$109.95**

### VACUUM HOSE

This 3/8"ID x 3/8"OD x 4' hose is for use with the Hold Fast Wood Stabilization Systems. If you don't already have a hose you can use or need a replacement, this will do the trick!

T27442 ~~\$4.95~~ SALE **\$3.95**

### STABILIZING RESIN/CATALYST

- Economical
- Low viscosity - for better wood penetration
- Low odor
- Dye colors available for dramatic effects
- 3 year shelf life; 3+ month catalyzed shelf life
- Soap and water clean up

## PEN BARREL-FACING TOOLS

Before turning pen barrels, the end of the blanks must be cut square to the brass tube with a barrel-facing tool. This tool consists of two parts: a pilot to clean excess glue out of the brass tube and keep the barrel square, and a cutterhead to trim the ends of the blank. H6680 has everything you need for standard size pens: 3/8" cutterhead, 7mm pilot, and hex wrench. The optional 3/4" cutterhead (H6681) allows room for the mandrel bushing on the larger style pens to fit without further trimming. H6683 pilot (included in H6680) is for standard pens and pencils. H6684 trims the Ameroclassic Double Twists while H6685 is designed for the Ameroclassic Rollerball (standard & 10 mm) and fountain pens.

MODEL	TYPE	PRICE

## O'KEEFFE'S WORKING HEALTHY FEET—3.4 OZ. JAR

Relief for Feet that Crack & Split. Nothing works faster or more effectively than O'Keeffe's to protect and relieve cracked, split skin. The oil-free formulation pulls water in, so cracked feet get the moisture they need.

- O'Keeffe's products are:
- Absolutely odorless
  - Oil-free & hypoallergenic
  - Non-greasy
  - Guaranteed relief in days

**T23278** ~~\$7.75~~ **SALE** ~~\$6.95~~

## O'KEEFFE'S WORKING HANDS—3.4 OZ. JAR

Relief for Dry Hands. From ranchers to contractors, gardeners to nurses, many people suffer from the pain that dry skin can bring. Our promise is to make the best skin care products for workers who rely day-to-day on their hands.

O'Keeffe's products are:

- Absolutely odorless
- Oil-free & hypoallergenic
- Non-greasy
- Guaranteed relief in days

**T23276** ~~\$7.75~~ **SALE** ~~\$6.95~~

## 19-IN-1 RANGE TOOL

Designed by a shooter for shooters, this is a tool that belongs in every range bag, whether you are a rifle, handgun, or shotgun sportsman.

Excellent for tightening hex head action screws, scope screws—which generally require Torx® bits—handgun grips, and sights that require thin and flat bits, as well as the tiny Phillips® and flat bits for fixing and adjusting eyeglasses. All bits are made of hardened S-2 material. Comes in a handy storage tube.

- INCLUDES:**
- Flat: 1.5mm, 2.5mm, & 5mm
  - Hex: 1/16", 3/64", 1/32", 1/16", 3/32", 1/8", 5/32", 3/16", & 1/4"
  - Phillips®: 000, 0, & 1
  - Torx®: T9, T10, T15, & T20

*"I highly recommend this tool and personally use it regularly."*

S. Balolia, President

**BE1002** ~~\$15.00~~ **SALE** ~~\$7.95~~

## GORILLA GLUE® 4 OZ.

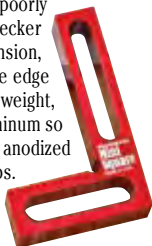

This polyurethane glue is the finest available for bonding wood, stone, metal, ceramics, plastics, and more. Gorilla Glue® is waterproof and features an open working time of 20 minutes or more, better coverage than other adhesives, a usable temperature range of 40°–130° and a 1–4 hour cure time. 4 oz.

**H7211** ~~\$10.00~~ **SALE** ~~\$8.95~~

## MINI SQUARE **Woodpeckers®**

You can use any square for checking a chisel, but they're usually too long to clear the handle, not wide enough to make it easy to align to the edge, and poorly designed for the job. The Woodpecker Mini Square, at 1 1/8" x 2" inside dimension, is absolutely perfect for checking the edge of your cutting tools for square. Light weight, easy to grip, and machined from aluminum so it can't chip your tools. The dark red anodized finish makes it easy to detect any gaps.

**T24639** ~~\$29.95~~ **SALE** ~~\$25.95~~

## TRIGRIP NON-SLIP WORK SUPPORT – SINGLE

These TPE non-slip friction pads hold any type of material in place, allowing users to route, sand, drill, carve, and paint without clamps and with assurance the workpiece will not move.

**T26907** ~~\$2.75~~ **SALE** ~~\$2.25~~

## POWERLOCK® 10' POCKET TAPE RULE

**STANLEY**

- 1/4" x 10' PowerLock® tape rule
- Slim case for pockets and purses
- Chrome-plated metal case
- Mylar polymer coated blade & heat-treated spring for long life

**T22306** ~~\$4.95~~ **SALE** ~~\$3.95~~

## SOLACE® KNIFE

**Jungle®**

The durable molded Kydex® sheath with boot/belt clip and paracord lanyard allows you to secure the knife around your neck or practically anywhere. The 3 1/2" blade is made from fine 440A stainless steel and the entire 8 1/4" piece weighs only 4 oz.

**T24150** ~~\$30.00~~ **SALE** ~~\$8.95~~

## 10-PC. 8" RECIPROCATING SAW BLADES DWA4188P-2

**DEWALT**

- Proprietary coating provides 2X™ longer life versus standard DeWalt blades and competitive metal cutting blades
- Variable pitch 14/18 TPI unique back angle geometry provides the most efficient cutting performance
- 1" Tall blade body and 0.042" blade thickness for added durability and prevents bending and breakage

**T22607** ~~\$39.95~~ **SALE** ~~\$11.95~~

## 4" BRASS CALIPER

## ULTIMATE STORAGE KIT

This rail system is quickly going to become your favorite shop or garage fixture! It's a great way to maximize storage, increase floor space, and keep your tools and equipment organized for easy access. Aluminum construction makes it lightweight and durable, so it's quick and easy to install on drywall, concrete, brick, and open studs. With the array of customizable hooks and baskets, these rails are only limited by your imagination! Maximum load is 300 lb. per rail. This 12-piece storage kit is a great way to get all the best options in one box. Includes the following:

- Three 32" rails
- Two large J hooks
- Four multi-purpose hooks
- One basket hook
- One loop hook
- One bike hook
- One hardware kit

# GREAT GIFT IDEAS

Junior kits are for the youngest children and work best with a high level of parental support. Level 1 kits are for beginners of all ages and require gluing, hammering, filing, fully guided bolting, assembly, and decorating. Level 2 kits are slightly more challenging and require gluing, hammering, filing, guided drilling, semi-guided bolting, limited-precision guided cutting, intermediate sawing, assembly, and decorating. Level 3 kits are the most challenging and require gluing, hammering, filing, drilling, bolting, full-precision guided cutting, advanced sawing, assembly, and decorating. Each kit includes all parts needed for completion. Recommended for ages 8 and up unless otherwise stated.

## ORDERING INFORMATION

- **PHONE – 1-800-523-4777:** You can order 24 hours a day. Call our toll-free number between 8:00 am – 8:00 pm, Mon – Fri or 8:30 am – 6:00 pm ET on Saturdays to speak with one of our friendly sales people or you can use our automated voice mail system after hours. Just follow the voice prompts to place your order.
- **INTERNET – [www.grizzly.com](http://www.grizzly.com)®:** You can shop electronically via our online store. It's fast, easy and secure. Visit often since we have many specials and discontinued items not offered in our catalog or retail stores. We will e-mail you confirmation of your order.
- **FAX – 1-800-438-5901:** You can use our handy order form and fax it directly to us. We will process your order through our nearest distribution center for fast delivery.
- **SPANISH – Hablamos Español – Llámenos al 1-800-523-4777, [ord@grizzly.com](mailto:ord@grizzly.com)**

- **MAIL – P.O. Box 1050, Springfield, MO 65801-1050:** Fill out the order form by following Step 1 through Step 5. We accept Visa, MasterCard, Discover, American Express, bank wire transfer and personal or business checks. Send full payment in U.S. funds. **Important:** We do not accept Cashier's checks or money orders. Personal checks not preprinted with the customer's name and check number will hold up the order for approximately 3 weeks. Please include your daytime telephone number in case there are questions regarding your order.
- **PARTS ORDERS –** Please call our toll-free line at **1-800-523-4777** for part orders. Parts are also available online at [grizzly.com](http://grizzly.com)®. All parts are shipped from our Springfield, MO location and non-warranted parts are subject to shipping and handling charges as listed. Please have your machine serial number available when calling for warranty parts.

## PRICING POLICY

Due to rapidly changing market conditions our **catalog prices may be increased at any time without prior notice.** Our website is updated with any changes as they occur.

## CUSTOMER SERVICE

**SHIPPING YOUR ORDER:** We make every effort to ship your order within 24 hours. In most cases it will go out the same day. Due to our centrally located warehouses, motor freight shipments usually arrive in 3–5 working days. Standard orders (non-freight items) will typically arrive in 2–3 working days. This information should be used as a general guide and is not guaranteed.

**NON-FREIGHT ITEMS:** \*Non-freight items are assessed a shipping and handling fee based on the total dollar amount of the items. Due to size and weight restrictions, some items require additional shipping and handling charges. These items are individually noted. Orders for non-freight items with a total weight of over 250 lbs. may be shipped via truck freight and will incur additional shipping charges. Orders that do not include freight items will be shipped by ground transportation unless otherwise specified. Shipments less than 1lb. may be shipped by USPS or UPS SurePost. Orders to Alaska, Hawaii, Guam, Puerto Rico, Virgin Islands, and U.S. Territories will be quoted at current rates. Canadian orders will be shipped by UPS only, and are subject to a minimum order size of \$50.00 (repair parts excluded). Brokerage, duty and taxes will apply. Special handling costs or shipping fees may be added to your order, and **all orders may be subject to a fuel surcharge.** Shipping charges for parts may vary from published charges.

### SHIPPING AND HANDLING CHARGES: (Non-Freight Items)

Item Total	Lower 48	Canada
Less than \$25	add \$7.99	N/A
\$25.00 to \$49.99	add \$9.99	N/A
\$50.00 to \$74.99	add \$11.99	add \$19.99
\$75.00 to \$99.99	add \$14.99	add \$19.99
\$100.00 to \$199.99	add \$18.99	add \$29.99
\$200.00 to \$299.99	add \$21.99	add \$39.99
\$300.00 or more	add \$23.99	add \$49.99

**TRUCK FREIGHT ORDERS:**\* We have a flat rate shipping program for certain items so you know exactly what your cost will be. Items under 150 lbs. may ship by small parcel carrier. This program applies only to the lower 48 states. We have listed the shipping charge for each machine next to the price (a fuel surcharge may be added). See inside order form for an example of how to apply this to your order. Shipping rates for truck freight orders to Canada will be quoted during the checkout process on [grizzly.com](http://grizzly.com)® and are also available via phone at **1-800-523-4777**.

\*Orders that contain freight as well as additional S/H charges due to oversize restrictions and non-freight items must include the flat rate shipping fee per item and the shipping and handling fee based on the total dollar amount of those non-freight items. **All orders may be subject to a fuel surcharge.**

Truck freight orders require a delivery appointment. We require a valid daytime phone number in order to complete delivery.

Truck drivers are subject to a number of regulations, one of which is that they are not required to give assistance unloading. Please be prepared for this "curbside" delivery, as you are responsible for unloading the item(s) and placing them in your shop. This normally takes a couple of "friends." Your location must be tractor-trailer accessible. Some carriers reserve the right to charge a limited access delivery fee, which will be added to your invoice if applicable. We recommend that you make arrangements with the trucking company to take delivery at the freight terminal if you can. They will load it onto your vehicle. Make sure your vehicle is capable of handling the weight. Also, bring plenty of tie downs to properly secure the load.

We can offer liftgate service for a discounted rate when ordered through Grizzly. Please ask for more details when placing your order.

**SHIPPING DAMAGE:** When you receive your shipment from the trucking company, it is extremely important to inspect and note any damage that might be suspect. Holes, dents, tears, etc. should be noted on the form the driver gives you to sign accepting delivery. These notations will allow us to make a claim for shipping damage on your behalf. Failure to do so makes it extremely difficult to make a claim. If there is shipping damage and you have noted it on the delivery form, you can e-mail us at [csr@grizzly.com](mailto:csr@grizzly.com), call our Customer Service Department at **1-800-523-4777** or fax us at **1-800-438-5901**. We will take care of all the necessary arrangements to have the problem resolved.

**SHIPMENTS OUTSIDE THE CONTINENTAL U.S. AND CANADA:** Orders will be quoted at current rates. Items will be shipped via UPS. Special handling costs, additional shipping fees and applicable brokerage fees may be added to your order.

**BACK ORDERS:** If not specified, out of stock items will automatically be placed on back order and shipped immediately when available. Credit cards will not be charged until item(s) are shipped.

**RETURNS:** Should you decide to return an item(s) for any reason, be it for refund, exchange, or warranty, please contact our Customer Service Department at [csr@grizzly.com](mailto:csr@grizzly.com), or **1-800-523-4777**. We will take you step by step through the return process. Returns for refund or exchange must be within 30 days of purchase. Original shipping and handling charges are not refundable. All returns must be in original packing, unused and in resalable condition and all non-defective returns are subject to a 10% restocking fee. All merchandise must be shipped to us using an authorized return label that we provide when setting up your return. We will not accept returns sent to us without prior authorization.

**TECHNICAL SERVICE:** Please contact our Technical Service Department at **1-570-546-9663** before sending or bringing any item back for service. For machinery, please have your serial number available. If it is determined that the best course of action is to send the item back to us for service, we will make every effort to repair and return it to you in a timely manner.

**DARN IT!** We make every effort to be exact with our photography, prices, specifications and copy. Sometimes errors do occur and we apologize for them. We reserve the right to make changes and correct errors at any time.

**PRIVACY POLICY:** We respect your right to privacy and do not disclose your personal data to other organizations.

**LEASING INFORMATION:** Machines identified by "Call for Leasing Information" may be leased with approved credit through various third-party leasing companies. Just check our website or give us a call at **1-800-523-4777** and we'll provide the details.

**CREDIT TERMS:** We offer credit terms to qualifying companies; apply for an account online at [grizzly.com](http://grizzly.com)®. Terms and Conditions contained in customer purchase orders, order forms, or otherwise are superseded in their entirety by our terms as stated on our website and herein unless expressly agreed to by us in writing.

**PLEASE NOTE:** Our terms, conditions, pricing and policies are subject to change without notice at any time, and are updated on [grizzly.com](http://grizzly.com)®.

## LIMITED WARRANTY

Grizzly warrants every product it sells for a period of **1 year** to the original purchaser from the date of purchase. This warranty does not apply to defects due directly or indirectly to misuse, abuse, negligence, accidents, repairs, improper wiring, alterations, lack of maintenance or consumable parts. This is Grizzly's sole written warranty and any and all warranties that may be implied by law, including any merchantability or fitness, for any particular purpose, are hereby limited to the duration of this written warranty. We do not warrant or represent that our merchandise complies with the provisions of any laws, acts or electrical codes. We do not reimburse for third party repairs, services, or any expenses related to moving machinery to and from carrier vehicles or residences. In no event shall Grizzly's liability under this warranty exceed the purchase price paid for the product and any legal actions brought against Grizzly shall be tried in the State of Washington, County of Whatcom.

We shall in no event be liable for death, injuries to persons or property or for incidental, contingent, special or consequential damages arising from the use of our products.

To take advantage of this warranty please call our Customer Service Department at **1-800-523-4777**. Proof of purchase must accompany the merchandise. Manufacturers reserve the right to change specifications at any time as they constantly strive to achieve better quality equipment.

*Please Note: Merchandise covered by a manufacturer's warranty must be sent directly to the manufacturer for repair or replacement.*

## PIPE CLAMPS

**BESSEY**

Commonly used in woodworking applications for edge gluing of multiple pieces, the versatility of the reach comes from the ability to use a variety of lengths of pipe to suit your needs. Features a foot assembly to help stabilize the clamp, extra high base for finger-saving clearance from the work surface, cast jaws for durability, and a smooth spindle with hex head for ease of use.
