**Whirlpool**  
SENSING WHAT MATTERS

# Whirlpool, sensing your needs - allowing you to **focus on what matters**

Whirlpool has devoted over a century of research and expertise to give its consumers more free time, allowing them to make the most of it, choosing to do what really matters to them.

We achieved this by developing the most intuitive and advanced tools which understand and adapt to our consumers' needs, providing a seamless user experience. We simplified tasks and took the guesswork out to make sure our consumers always have the best.

Our state-of-the-art technology offers advanced performances and maximum results with minimum effort; our cutting edge design perfectly fits and enhances the style of any home.

## **Intuition & Simplicity of use**

We at Whirlpool understand the needs of our customers and know their time is precious so we have devoted over a century of research to let them focus on the things that really matter. Our 6<sup>TH</sup> SENSE Technology is a powerful promise of a superior user experience for those who want to achieve perfection, intuitively.

## **Advanced Performances**

Whirlpool has devoted over 100 years of experience to offer the most advanced technology without compromising on the end results. This is why our 6<sup>TH</sup> SENSE intuitively detects, senses, adapts and controls technology intuitively to always give perfect and effortless results, creating a unique experience and give them time to freely live their lives.

## **Mindful design**

Delivering a unique consumer experience, through pure craftsmanship. Offering a product design conceived in a holistic way to enable wellbeing at home. Seamless integration in modern domestic environments with a human and relatable touch.

# W9, the perfect balance of **performance** **and design**

**W9** is the epitome of elegance and reinforces our leadership in the premium market. This suite of perfectly matching kitchen appliances is inspired to deliver what our consumers want in assisted cooking, premium performance & healthy living. Featuring an elegant black glass design, intuitive **6<sup>TH</sup> SENSE technology** and an intelligent Touch Smart Display connected to our **6<sup>TH</sup> SENSE Live App**.

Our fundamental focus is to bring innovative advances across multiple categories, that offer the best performance while adding value to the user through a wide range of cooking options and features on its state of the art touch screen illustrative display. This **W9** range of built-in appliances is beautifully created to make cooking and baking as easy as possible and offers you a wide range of flexible installation options.

We work with partners that share our passion for quality design and product innovation, delivering best-in-class appliances for today's lifestyle. Sensing your needs, allowing you to focus on what really matters.

## 6<sup>TH</sup> SENSE LIVE

Be smart.  
Stay connected.  
Feel free.

Connect to a new dimension in cooking with **6<sup>TH</sup> SENSE Live Technology**.

For those who live an active life and are constantly looking for new solutions that simplify everyday life. Whirlpool's 6<sup>TH</sup> SENSE Live App enables you to intuitively and easily control your appliances - anywhere and anytime.

Just pick your recipes, and make them great every time! For an innovative and simplified cooking experience. Just choose a dish and the innovative **6<sup>TH</sup> SENSE Live Technology** does the rest, automatically adjusting time, temperature, and humidity settings to ensure perfect results time after time. You can now schedule meals for later and with an exciting choice of exclusive options, consumers can whip up the perfect meal while enjoying an unparalleled intuitive experience.

## **W7**, discover timeless elegance

**W7** is a modern range of built-in appliances with pure, essential lines, polished steel, and glass designed to blend effortlessly with today's modern interiors. The appliances offer contemporary convenience, with clever use of technology to give you a modern home that is simple, sophisticated, and hassle-free.

Behind the coordinated contemporary look is a wealth of advanced technology, intuitive and unique functions, like Cook4, and intelligent solutions. . With **6<sup>TH</sup> SENSE** assisted display features easy-to-read symbols and text-assisted suggestions to give consumers clear, logical instructions. By selecting a food type or the desired cooking combination, the appliances set and adjust the correct cooking parameters to ensure perfectly cooked meals and dishes. The LCD text assisted display gives consumers intuitive access to every function to make cooking easy and effortless.

# 1.1

## Ovens

### The perfect balance of performance and design

The new Whirlpool range of built-in ovens fulfils and even exceeds expectations. With advanced controls and Touch Smart display, for an innovative and simplified cooking experience. Whirlpool's **6<sup>TH</sup> SENSE Live App** enables you to intuitively and easily control your appliances - anywhere and anytime. This **6<sup>TH</sup> SENSE Technology** automatically adapts the cooking time, temperature and humidity, assisting by sensing the food as it cooks and removing the guesswork to deliver the desired results time after time.

**Bake to perfection with *BakeSense* technology**

Humidity can significantly affect how food cooks. With Whirlpool’s **BakeSense** function the smart sensors monitor the level of humidity and adjust the settings preventing the water from evaporating and keeping the moisture locked inside. Avoid the need to continually open the door to baste roasts and save energy whilst ensuring baked goods are always crunchy on the outside and scrumptiously fluffy and moist on the inside **BakeSense** works with the assisted cooking functions to create beautifully baked bread, focaccia, pizza, muffins, cookies, and quiches.

***BakeSense***

**6<sup>TH</sup> SENSE Cooking Combinations**

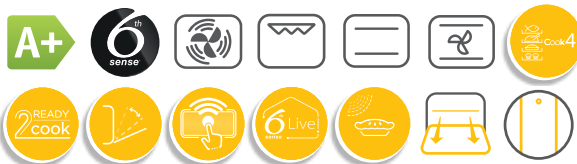

- |                  |                |             |
|------------------|----------------|-------------|
| Bread            | Cakes & Pastry | Salty Cakes |
| Pizza & Focaccia | Potatoes       |             |

**From starters to desserts, all at once**

The **Cook4** function provides a unique level of flexibility that enables consumers to cook up to four dishes at the same time without mixing any of the flavours or aromas. When activated, the newly designed oven back cavity and the enhanced motor speed (+50%) provides proper ventilation to cook evenly on four levels and constantly recirculates the air. The user interface suggests the most suitable shelf for each dish, and helps consumers achieve the best cooking results, saving time and energy as well.

# 1.2

## Gas & Electric Hobs

Power and performance with  
enduring shine

Whirlpool gas and electric hobs combine premium quality materials with cutting-edge technology for a high-powered cooking experience in a choice of simple yet striking designs. Innovative new burners offer instant and accurate temperature control, more versatile pan supports ensure greater flexibility, and intuitive controls provide maximum ease of use. With spotless stainless steel and smooth black glass completing the look, the gas and electric hobs beautifully match the other appliances in Whirlpool's collections.

# Effortless cooking precision performance

**Induction Technology** is based on the principal of heating the pan itself, instead of the hob. When a ferrous metallic pan is placed on the hob, an electromagnetic field passes through the ceramic glass top, heating the pan instantly and uniformly. Not only do induction hobs **save time and energy** but they are also **extremely safe** to use which is very important in a family environment. The surface is easy to clean thanks to the sheer, flat surface.

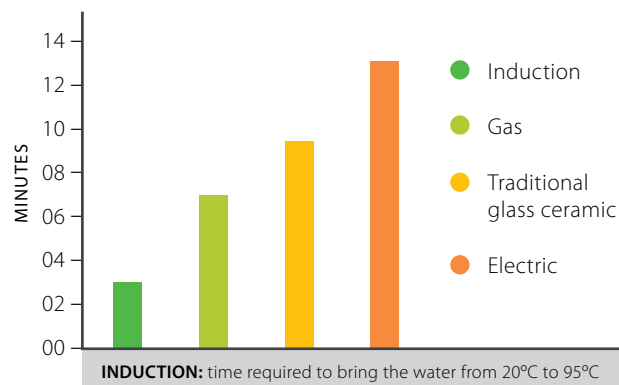

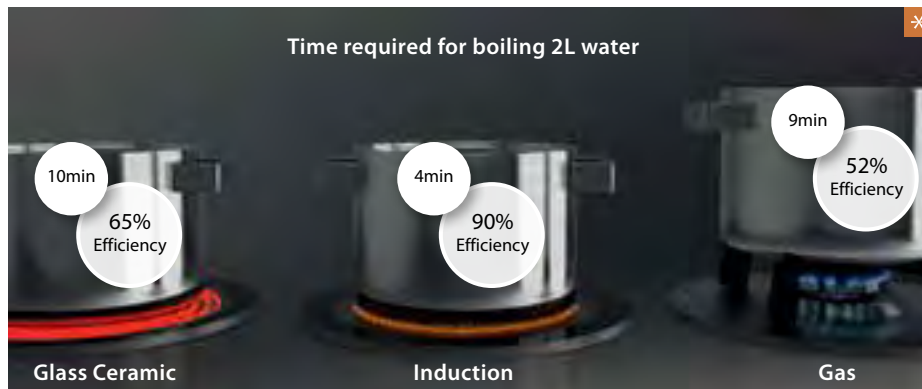

Induction hobs are the best alternative to traditional gas or vitroceramic hobs in terms of energy efficiency and cooking time. Induction technology loses less than 10% of the energy to the surrounding atmosphere and 90% of the energy is therefore used for the cooking process.

## 6<sup>TH</sup> SENSE Automatic Functions

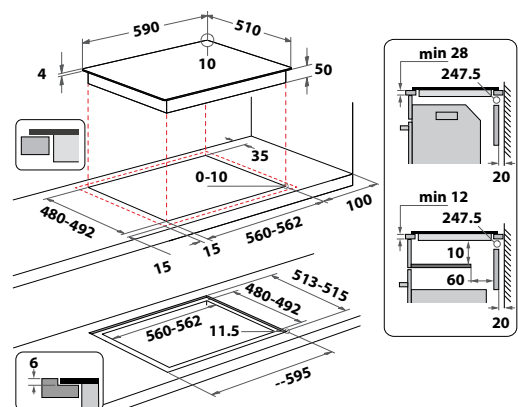

Setting the correct heat level is no longer an issue, thanks to 4 special pre-set functions - up to 4 for each cooking zone. Just select the program and the hob automatically sets the best heat level for the desired cooking method.

## 1.3 Hoods

### Pure clean air and crystal clear light

The Whirlpool range of intelligent cooker hoods efficiently keep kitchen air clean, quietly purifying the air with an optimum level of performance. Intelligent lighting creates the ideal ambience for any occasion, while connectivity enhances the intuitive cooking experience when cooking and beyond. Designed with premium materials and minimalist lines, the hoods are an exquisite finishing touch to the coordinated design of any kitchen.

# A stylish way to refresh kitchen air

## Design

Ensure your kitchen always has the perfect look. The black glass display panel perfectly matches with the other appliances in the W collection range. The touch user interface certainly emphasizes the hood's supreme design.

## LED Lighting

Increased energy and cost efficiency. The LED lighting system lasts 10 times longer than traditional bulbs and uses 90% less energy.

## High Efficiency Motor

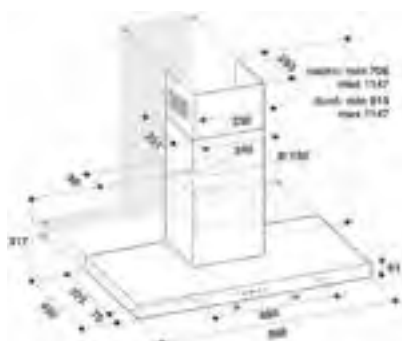

Efficiency first. The 260W motor in this Whirlpool hood is designed to provide ideal filtration, while ensuring high energy efficiency. 4 Speed versatile performance gives you complete control over the extraction rate.

## Microwave Ovens

### The intelligent way to healthy cooking

Modern microwave cooking not only saves time and energy, but inspires and achieves evenly cooked healthy dishes full of flavour. The new Whirlpool built-in microwave ovens with the **6<sup>TH</sup> SENSE Live App** together with innovative features like the Touch Smart Display provides the ultimate cooking experience, reducing preparation time for a vast variety of healthy, tasty meals.

# Half the time to **haute cuisine**

**W Collection Microwave Ovens** make it possible to achieve perfect results in half the time.<sup>1</sup>

Simply pick what to eat and let the **6<sup>TH</sup> SENSE** sensors automatically set the best out of 5 different cooking methods, **automatically adjusting** time, power and temperature for delicious results.

**40 cooking combinations** available for a complete assisted cooking experience: an amazing variety of dishes never thought possible in a microwave are guaranteed every time. Cooking combinations are intuitively organised into a maximum of 12 categories to suit dietary choices.

1. Cooking times compared to those of a Whirlpool traditional oven on some of the most common recipes (e.g. lasagna, roast chicken, salty cakes...)

# Cooking combinations technology in our Built in Microwaves

## **6<sup>TH</sup> SENSE Technology**

Confident cooking. With 6<sup>TH</sup> SENSE Technology, your microwave automatically sets the time, temperature and energy levels during the cooking process.

## **CrispFry**

Powered by an algorithm that combines crisping action with forced air convection, the **CrispFry** function cooks delicious dishes with a fried texture and taste, but with little or no oil so it is even healthier to use than a frying pan. The **CrispFry** functions, up to 18 Cooking Combinations, are perfect for both frozen and fresh food, such as seafood, meatballs and fresh vegetables.

## **Crisp Technology**

Enjoy very quick and extra-crunchy results with **Crisp** Technology. Food is gorgeously golden brown and unbeatably crisp from top to bottom with much less time and effort than a conventional oven.

**Crisp** Technology combines Whirlpool's 3D patented distribution system, crisp plate, grill element and rotating turntable for conventional oven results at microwave cooking speed.

## **ForcedAir**

A true cooking and baking experience. The fan forces the heat on the food's surface for oven-like results.

## **Dual Steam**

Steam two dishes at the same time with **DualSteam** function. The perfect tool to easily cook a full healthy meal in no time, without having to mix the flavours.

## **Dual Crisp**

Enjoy an unbeatable crispness outside and a delicious tenderness inside, with **DualCrisp**. An exclusive technology by Whirlpool. Two microwave emission points to completely enfold food and evenly cook it including the bottom.

A modern dining area featuring a dark, minimalist table with a unique X-shaped base. Two metal chairs with a simple rectangular frame are tucked under the table. Above the table, two grey dome-shaped pendant lights hang from thin white cords. On the table, there is a dark wooden bowl and a small copper-colored cup. The background is a plain grey wall, and a large window on the right side allows natural light to enter the space.

2

## Refrigerators & Freezers

### Freshness without compromises

Absolute freshness is more than a requirement, it's our mission. Excellent food preservation passes due to excellent performances and outstanding design. The new refrigerators and freezers use the best of Whirlpool's technology to store food in a smart and intuitive way and keep it like no others do. Every detail is crafted to offer consumers the best possible cooling experience from any point of view.

# Discover the **6<sup>TH</sup> SENSE intelligent** **food preservation**

**W Collection 4 Doors** is inspired to deliver what our consumers want for advanced refrigeration technology, enhanced space management and premium performance. This new range of large capacity refrigerators feature intelligent technology to optimize food preservation, keeping food fresh for longer in the most natural way.

**W Collection 4 Doors** is designed to be elegant and contemporary from every angle, without settling for anything but excellence. Leading-edge product design is combined with advanced performance, both in the way the product is crafted in the exterior and the interior. The range is uniquely designed with a slim fit in order to sensitively integrate in a modern kitchen in harmony with the surrounding furniture.

## **An experience worth the space in the kitchen**

The unique **6<sup>TH</sup> SENSE Technology** is at the heart of the new W Collection 4 Doors range: a set of smart sensors and intuitive functionalities that create the optimal environment for food preservation. **W Collection 4 Doors**, thanks to **6<sup>TH</sup> SENSE Technology** and its advanced preservation features, helps consumers to organise food according to personal needs, always guaranteeing the best conservative conditions.

### **FreshLock**

The intuitive 6<sup>TH</sup> SENSE **FreshLock** will automatically detect temperature variations in order to restore the optimal environment.

### **FreezeLock**

Within the freezer compartment, 6<sup>TH</sup> SENSE **FreezeLock** minimises temperature fluctuations in the freezer to prevent freezer burn.

### **Choose And Set The Desired Temperature**

#### **-7°C Soft Freeze**

Avoid defrosting of frozen food that will be eaten within a week (max 1 week)

#### **-12°C Mild Freeze**

Keep ice-cream and desserts ready to serve (1-2 months)

#### **-18°C Deep Freeze**

Preserve nutritional value of food for longer (max 12 months)

### **\* Two Pull-Out Freezer Trays**

Thanks to the two pull-out freezer trays, it's easier and safer to access all the smaller and more delicate items: smart storing to eat fresher and nutritious food. The two pull-out trays are located at the top of the freezer. They are very easy to access to freeze or store leftovers and smaller items.

# Grand side-by-side more space for food preservation

## **FreshControl**

has innovative sensors which guarantee a constant temperature and optimal humidity regulation inside the fridge. Food stays fresh for longer and preserves its taste and colour.

## **FreezeControl**

reduces temperature fluctuations in the freezer to the minimum, thanks to a special algorithm of the compressor. Freezer burns are reduced by up to 50%<sup>1</sup> and food preserves more of its original quality and colour

## **Wheels**

The practical wheels allow the consumer to easily set up and move the appliance without the risk of scratching the floor.

## **Easy Hinges Adjustment**

The renewed adjustable hinges allow the door to adhere perfectly to the refrigerator, to open and close smoothly and to match perfectly with the rest of the appliance.

## **Outstanding Alignment**

The new Grand Side by Side can be easily placed side-to-wall thanks to the 0cm gap between the new doors, only 45 mm thick, and the wall. Also, the flaps and drawers can be all easily removed so it is easy to place and remove food from the fridge.

## **Seamless Aesthetics**

The 0cm gap between the product and the furniture inside the kitchen makes an outstanding alignment. Moreover, the new Grand Side by Side is designed to have 0cm gap between the fridge and freezer compartments.

<sup>1</sup> Compared to Whirlpool Supreme NoFrost refrigerator. Freshness has been calculated as an average taking into account variation of food colour, pH and weight loss measured over a period of time. Time guidelines may vary depending on original food quality Always respect expiry dates where stated.

## Dishwashers

### A cleaner idea of dish washing

Whirlpool's dishwasher range comes with a variety of innovative features like **PowerClean** and **NaturalDry**. Providing consumers with smart, resource-efficient products with a sleek and ergonomic design, ensuring outstanding performances wash after wash. Thanks to **6<sup>TH</sup> SENSE** Technology wasting of water and energy are drastically reduced while dishes are always perfectly clean.

# Perfectly clean dishes every time – Thanks to **6<sup>TH</sup> SENSE** **technology**

Dishwasher **6<sup>TH</sup> SENSE** Technology detects and monitors the level of soil thanks to the smart sensors and adapts the cycle parameters and programme settings accordingly. Consumers will always get perfectly clean dishes with no effort and with up to 50% savings on water and time.

No pre-wash required. This elegant technology provides perfect washing results with no pre-washing, soaking or scrubbing by hand, while effectively reducing water consumption and costs.

### A Precise Idea Of Cleaning

The **PowerCleanPro** technology ensures perfectly clean dishes without pre-washing, even with burned-on food. Furthermore the new side supports that define the **PowerClean** zone offer 30% extra space for improved space management.

### Up To 14 Place Settings For Extra Space

The new Whirlpool dishwasher can accommodate up to 14 place settings thanks to the modular third rack that ensures great flexibility with every loading combination.

Pot holders on the lower rack help stabilise pans during the **PowerClean** operation.<sup>1</sup>

The **Single Rack Washing** option ensures our dishwashers achieve outstanding water efficiency. This feature allows you to wash a small number of dishes without having to wait to fill your Dishwasher. Enjoy perfect results and low water consumption.<sup>1</sup>

Perfect cleaning with **just 9.5 litres of water**. The new Whirlpool dishwashers use just 9.5 litres of water per cycle, delivering always impeccable cleaning results.<sup>1</sup>

### Natural Dry

**Natural Dry** is a smart feature that refers to automatic door-opening at the end of the program ensures better and more natural drying. This system guarantees higher energy efficiency and better drying results.

### Start Delay

The **Start Delay** option allows you to set the Dishwasher to begin its cycle whenever most convenient for you, saving you both time and energy. Tailored for you.

<sup>1</sup> On selected models.

### Water Stop

In the event of sudden changes of water pressure or a feed pipe breakage, the **Water Stop system** immediately cuts off the input of water by closing the tap so that the machine switches off.

### Safety Sensor

Whirlpool dishwashers feature technologically advanced systems: the new **Safety Sensor** intervenes in case of foaming or a blocked filter. It modulates the motor's speed and the water supply to solve the issue without interrupting the wash cycle.

### Telescopic Guides

The telescopic guides offer easy extraction of the upper rack and allow easy loading and unloading of dishes with total stability.

### Lift-Up System

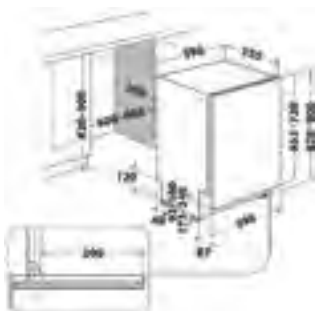

The lift-up system, available for all products in the range, means the upper rack can be lifted or lowered by 3.5. In this way, the internal space of the dishwasher can be easily adjusted to make room for larger items in the bottom basket.

### Lower Basket With Foldable Tines

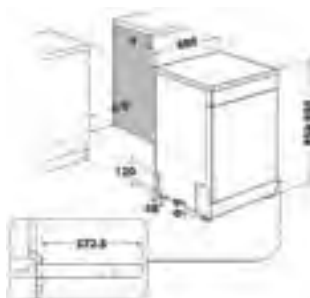

To suit all demands, the lower basket features foldable tines to accommodate small and medium sized dishes, and other kitchen items. It can perfectly accommodate pots and plates.

## Laundry

### Total garment care

Whirlpool's laundry range has revolutionary features to simplify and perfect your washing experience. With features like **Freshcare +**, Steam Refresh and **Steam Hygiene**, preserving your garments in the most innovative ways.

Our constant commitment not only helps our consumers to protect what they care for the most, but also gives them the freedom and the relief of a new experience of doing laundry. Our range ensures the best performance, with no noise, waste or stress. Doing laundry has never been so smart.

### Colours 150 and Wave Motion Technology.

Always bright colours and maximum respect for fibres with excellent washing results even in cold water. The combination of the special **Colours 15°** option with the revolutionary **6<sup>TH</sup> SENSE** Colours technology and Wave Motion maximises the effectiveness of the detergent also at very low temperatures. The Wave Motion technology, thanks to the asymmetric movements of the drum, keeps the fibres more relaxed and ensures an homogeneous distribution of the garments inside the drum, allowing a complete absorption of the detergent. This allows to reduce the temperature of the wash to 15° while ensuring the same performance of a 40° C wash: an innovative system that is highly reliable and guarantees the best way to take care of colours and fabrics. Furthermore, this exclusive and synergic action guarantees up to 60% energy saving compared to a washing cycle at 40°.

### FreshCare+

**FreshCare+** treatment leaves truly fresher clothes and peace of mind - even hours after the end of the cycle. **FreshCare+** treatment inhibits the proliferation of the main bad odor sources (inside the washing machine) up to 6 hours after the washing ends. Not compatible with programmes designed for delicate garments and duvets.

### Steam Refresh

**Forget odours and creases in just 20 minutes**

Thanks to **SteamRefresh**

#### BENEFIT

Sometimes clothes are not dirty, yet they are not perfect. Steam Refresh regenerates the freshness of your garments avoiding unnecessary washing. Clothes are ready to wear again in just 20 minutes.

#### HOW IT WORKS

In this special refreshing cycle, the washer generates a flow of steam that penetrates into the fibres, removing ,unpleasant smells, relaxing fibres and smoothing creases. Steam Refresh uses less than two glasses of water, and lasts just 20 minutes.

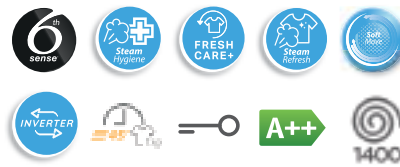

### Steam Hygiene

Laundry is sanitized, in the most natural and delicate way at the end of the washing cycle - even when washing at low temperatures - without chemical additives. Ideal for those with sensitive skin, and good for the environment as well, this treatment removes up to 99.9% of the most common bacteria.

# 6<sup>TH</sup> SENSE Technology

## Benefit

Thanks to the **6<sup>TH</sup> SENSE Technology**, the washer automatically detects the amount of laundry and, according to the fabric type, chooses the best cycle guaranteeing optimal performance and a **time, energy** and **water** optimization.

## How It Works

Thanks to advanced **Sensors** which measure and monitor water level and motor torque, **several Algorithms (\*)** detect and define for each washing phase, from first wetting until final rinsing, the best cycle settings according to the load type and size.

## WARRANTY

### DURATION & COVERAGE

Whirlpool products carry a full warranty service from the date of original retail purchase, supported by a qualified and committed network of service partners nationwide. Any functional part which fails in normal home use will be repaired or replaced, after a full assessment has been carried out by an Authorised Service Partner, free-of-charge including the part itself and labour costs. Evidence of the purchase (receipt), Model Number and Serial Number are required to obtain a free warranty service.

### WARRANTY PERIOD

South Africa	2 years	Lesotho	2 years
Botswana	2 years	Zambia	1 year
Namibia	2 years	Mozambique	1 year
Swaziland	2 years		

### WARRANTY EXCEPTIONS

#### Conditions and damages resulting from any of the following cases:

- Improper installation, delivery or maintenance (i.e., pump filter cleaning);
- Any repair, modification, alteration, or adjustment not authorised by the Manufacturer;
- Misuse, abuse, accidents or unreasonable use;
- Incorrect electric current, voltage or supply;
- Damages due to voltage peaks or lightening;
- Improper settings of any control;
- Product previously repaired by non-authorised Service Partner.

**Damage on aesthetic components due to transport and movement (i.e., dents, scratches) are not covered by warranty.**

**Aesthetic components (i.e., handles, lamps, glass, plastics).**

**Light bulbs, water filter, air filter, carbon filter, rubber hoses.**

**Accessories and glass made optional (i.e., shelves, plates).**

**Products used for non-domestic purpose or located in commercial environment (i.e., restaurants, hotels, hairdressers, laundry shops, butcher shops and garage).**

**Installation cost (i.e., water, power and gas connection).**

**Where a product has been returned due to incorrect information furnished by the dealer regarding the features and use of the product.**

#### Assistance or service call to:

- Correct any improper installation;
- Instruct the consumer on proper product usage;
- Transport appliance to the service workshop;
- "Door reversibility";
- No failure found (in case of functional failures claimed by the consumer and not found during technician check, the repair will be charged to the consumer);
- Periodic maintenance or the cleaning of water filter, pump filter and air duct filter;
- Removal of transport support or fixation screws;
- Settle of feet and setting of gas nozzles.

Cost of the above-mentioned service call has to be charged to the consumer.

In no event shall Whirlpool be liable for any consequential, either direct or indirect, damages whether foreseeable or unforeseeable, resulting from improper usage or maintenance of the appliance as well as for any damages consequently to the non-observance of the appliance's instruction for use.

After the warranty period, all repairs will be completely charged to the consumer.
