Connect your smartphone

1. Download the Wear OS by Google app by scanning the Wear OS QR code or from the Google Play Store/Apple App Store. Follow the instructions on your smartphone and TicWatch to complete setup.
2. Download the Mobvoi app by scanning the Mobvoi QR code or from the Google Play Store/Apple App Store.

Wear OS app

Note: Please do not pair the watch using the default Bluetooth setting on your smartphone. Note: Pair with Mobvoi App to get more watch faces, manage health data, and more! Note: If you cannot pair TicWatch with your smartphone successfully, please reset your watch and delete the pairing record from your phone.

Mobvoi app

Note: Please do not pair the watch using the default Bluetooth setting on your smartphone. Note: Pair with Mobvoi App to get more watch faces, manage health data, and more!

Backlight color

Change the backlight color according to your preference with Tilt-to-wake disabled. To change color, go to Essential Mode > Settings > enable Tilt to light up backlight, and select the Backlight color you prefer.

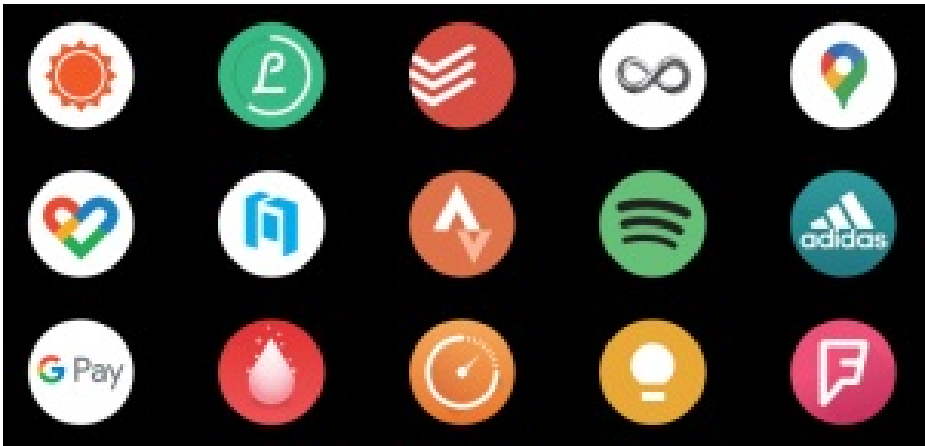

Heart health

Heart health monitoring is disabled by default. To enable it, go to TicPulse > Heart Health. To enable 24h monitoring, go to TicPulse > Settings > Labs > 24h heart health monitoring.
