High-Resolution Sound Headphones

Hear the Unheard

Suppressing Unnecessary Resonance and Vibration

Anti-Vibration Driver Unit Frame

An improved frame configuration with the ribs and calculated intervals suppress unnecessary resonance and vibration. HD10 features a newly developed material PN041 (PLA*) used in the frame enhances the effect.

*PLA-Poly Lactic Acid

HD10 | HD6M

Comfortable Fit

Ergonomic Design

HD10/HD6M provide a Horizontal Slide (HS) adjustment that lets you shift the positions of the drivers horizontally to suit your individual ear position. The ergonomically designed ear pads of HD10, meanwhile, vary in thickness to ensure they fit your ears and head perfectly.

Fine Detailed Sound

MLF (Multi Layer Film) Diaphragm

The MLF Diaphragm reproduces sounds faithful to the original, ranging from delicate high-res nuances to highly dynamic sounds.

HDE10 HDE5M

Direct Powerful Sound

Axial Design

By placing the components in a coaxial configuration, powerful sounds would be delivered to your ear directly. Also, Aluminum Unit Cap and Housing* suppress unwanted vibrations, and performance of the 11mm HD Axial Driver is maximized. This results in clear, distortion-free sound from bass to treble.

*Only for RP-HDE10/ RP-HDE5M.

Unleash Your Sound, Free Up Your Style

Crisp and Strong Bass with Clear Vocals

30mm Driver Unit and Neodymium Magnet

Get ready for powerful sound from on-ear housings with 30mm driver unit and neodymium magnet. The new Acoustic Bass Control filter optimizes the airflow before and after the driver, to reproduce sharp, dynamic bass.

20 hrs Wireless Playback

High Capacity Rechargeable Battery

The HF400B headphones offer Bluetooth wireless connectivity. Free from the hassle of cables, listening is much more comfortable. And the rechargeable battery provides approximately 150 minutes of music playback on a 15-minute Quick Charge, and about 20 hours of continuous playback on a full charge.

Comfortable Fit

130g Lightweight Design

The HF400B headphones are a lightweight 130 g. The side pressure when worn is optimally designed for a comfortable fit even during extended audio listening.

RP-HF400B **NEW** Bluetooth

Crisp and Strong Bass with Clear Vocals

Wireless In-Ear Headphones

Experience Clear Sound with Wireless Comfort

Clear Sound, Robust Bass

9 mm Driver Unit

In spite of its compact body, the 9mm Driver Unit delivers crisp, clear sound and robust bass. The high sound insulation of this canal-type model lets you immerse yourself in the music.

Comfortable Fit

Ergonomic Design

The ergonomic design makes these headphones easy to wear, fitting firmly into the ears to resist falling out. Even with their wireless design, the lightweight, compact body provides a comfortable fit.

Easy Use for Commuters

4 hrs 20 min of Wireless Playback

The NJ300B feature a compact size and Unicolor Design that match beautifully even with a business suit. And they provide up to 4 hrs 20 min of Bluetooth® wireless playback on a full charge. A quick, 20-minute charge allows one hour of playback.

Bring Stylish Enjoyment to Your Music

Powerful Rich Sound

40mm/ 30mm Driver Unit

Get ready for powerful sound from on-ear housings with 40mm (HF500) or 30mm (HF300/HF100) driver units. The stylish HF Series headphones deliver crisp, clear sounds at home or on the go.

HF500 | HF300 | HF100

3 Way Style for Easy Portability

Smart Flat and Inside Folding Design

The headphones can be folded in two patterns to fit the size and shape of your bag. This means that even relatively bulky on-ear headphones can be compactly folded for easy carrying when you're out and about.

HF500 | HF300 | HF100

Comfortable Fit

Comfortable Design

Both ends of the head band are cut at an angle in an ergonomic design that snugly fits the ears and head. Soft ear pads and head pad (HF500) also gently surround the ears and head for comfortable listening.

Sport Wireless Earphones

BLUE EDGE LED

Aim Higher Take Flight with Wings

Never Fall Off

3D Flex Sport Clips, Quick-Fit Adjuster and Canal Design

The BTS50/BTS30 headphones have a perfect ear-fitting structure, so you can enjoy sports with your favorite music no matter how intensely you move.

BTS50 | BTS30

Convenient Design

Sweat and Water Resistant

The BTS50/BTS30 headphones feature IPX5 (BTS50) water proofing, IPX4 (BTS30) splash proofing that protects them from sweat and water. Any soiling can also be washed off with water*, for quick and easy maintenance.

BTS50 | BTS30 * Only for RP-BTS50.

Sport Wireless Earphones

A Quick and Stable Fit

Quick-fit Adjuster, Adjustable Hanger Clips with Soft Elastomer

The Quick-fit Adjuster and Adjustable Hanger Clips ensure fast wearing and a secure hold even during strong exercising. The Hanger Clip uses a soft yet tough elastomer to add durability to the excellent fit. As a result, stress is minimized when wearing.

Ultra-light Design

Lightweight Ear Clips

The BTS10 ear clips weight a total of only 10g for both ears. They're so light and you may forget you're wearing them. Great for athletes who use music to concentrate more.

Crisp, Strong Bass

Powerful 14.3mm Neodymium Drivers, Bass Boost Design

The robust bass that emanates from the 14.3mm Neodymium Driver Unit is guided directly to the ear by the Unit Cap of the Bass Boost Design. Traditional Style Earphones let ambient sounds in for safety when exercising such as jogging, but still deliver crisp, strong bass.

RP-BTS10 **NEW** Bluetooth

Comfortable Sports Use

Quick-fit Adjuster, Adjustable Hanger Clips with Soft Elastomer, IPX2 Equivalent

Ultra-light Design

Lightweight Ear Clips

High-quality Sound

Powerful 14.3mm Neodymium Drivers, Bass Boost Design

Great for outdoor running

* Water resistance specifications are equivalent to IPX4 of IEC 60529.

What's Bone Conduction?

The WFG20 and the HGS10 headphones use bone conduction technology to transmit sound vibrations directly to the cochlea through the cheek bones. They are worn next to your ears, not placed over them. This unique, outside-the-ear design lets you enjoy music safely while working, relaxing at home (WFG20) or jogging, exercising (HGS10).
