1. Foreword

Please carefully read this User Manual, which will help you to use the this backup Adapter more easily. If any questions, please contact our customer support via Email: **csplzmpwlq@gmail.com**

1.1. Thanks for choosing this Auto Backup Adapter, you can Auto Back up

your photos, videos, etc. for iPhone/iPad or Android mobile phones while charging your mobile phone. It is the Easiest auto backup device without any extra operation.

1.2. The product includes the following accessories:

Backup Adapter *1,

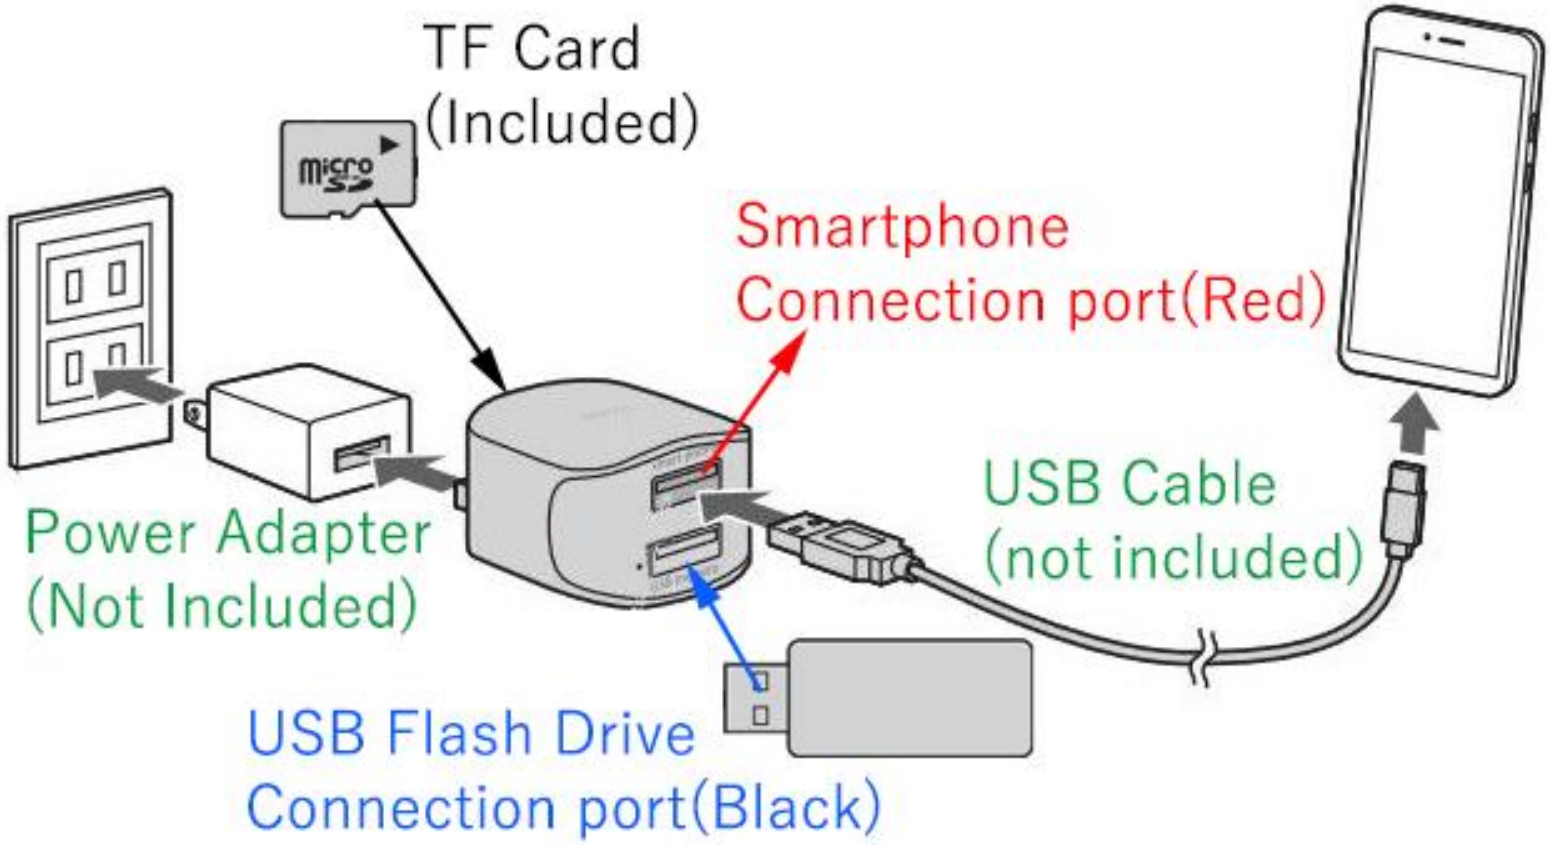
TF card *1 (the capacity follows the capacity you purchase)

User Manual *1

Warranty Card *1

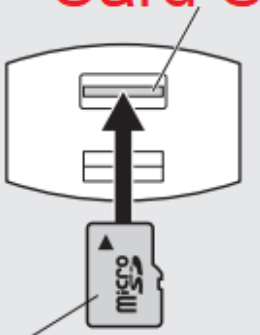
*** Power Adapter/USB Flash Drive/USB Cable mentioned in this User Manual is not included.*

The connection is as follows:



TF Card

TF Card Slot



※ A Sound of "Click" indicates that the TF card is well inserted.

USB Flash Drive

USB memory Slot

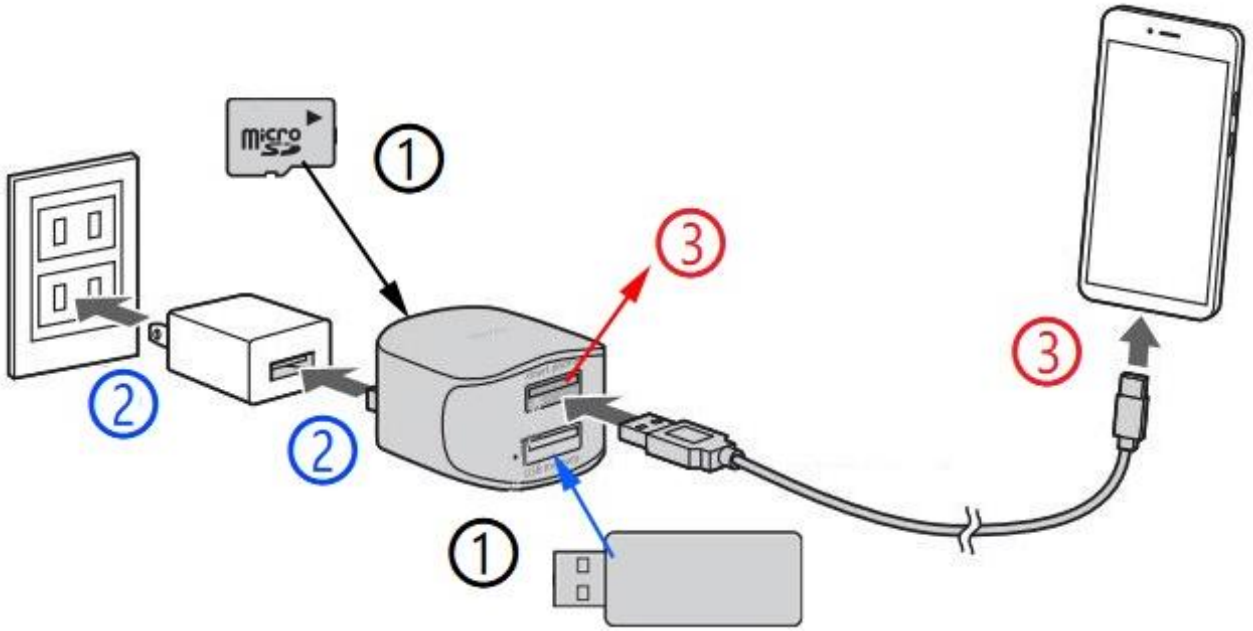
Insert in the direction of the connector.

Product Connection Sequence:

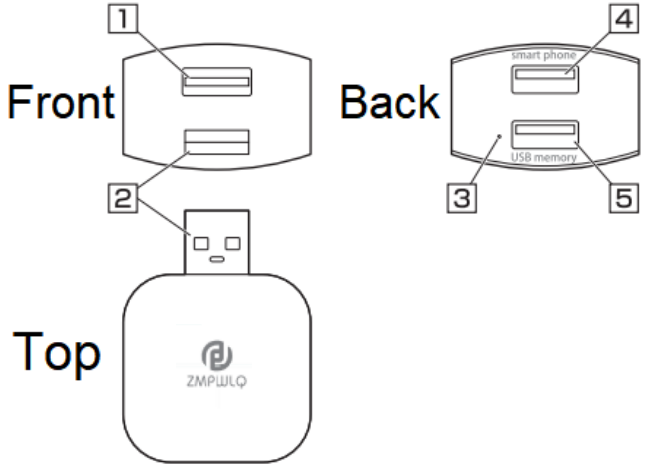
①, Insert TF card or USB flash drive

②, Connect with Power Supply.

③, Connect with mobile phone.



1.3. The name and function of each part:



(1) TF card slot: insert TF Card (contained).

(2) USB-A interface: connect to USB ports of computer or Power adapter.

(3) LED: LED light will light up when working.

(4) Port for smartphone connection (Red) -

Dedicated to connect with mobile phones.

(5) Port for USB memory (black) - **Dedicated** for USB flash drive.

1.4. This Backup Adapter needs to work with the dedicated APP. Just run the **iStore Pro** App at your mobile phones without Internet or WiFi. No need to visit any Server or Cloud. It is absolutely **safe** & reliable without giving any personal information out.

1.5. This Backup Adapter comes with TF card. All the data you back up would be saved in this TF card by default (if no extra USB memory inserted).

The Maximum capacity of TF card supports up to 512GB.

When you insert the USB-A port into computer, it works as a normal TF card reader, you can transfer the backup data between this Backup Adapter and

computer directly.

1.6. This Backup Adapter also supports USB flash drive (The Maximum capacity supported up to 512GB) or hard drive in the same time. If both TF card and USB flash drive inserted in this Backup Adapter, you can set the backup path from the Settings.

2. Warm Tips

1.1. Do connect the Backup Adapter to power supply **1st**, then it auto backs up your mobile phone while charging.

1.2. Please Do Not Remove the Backup Adapter from mobile phones/computer when it's working.

1.3. When using the backup Adapter to back up data, please ensure that the backup Adapter has a stable power

supply. A power failure or unstable power supply may cause transfer failure or file even USB damaged.

1.4. ※Not all computers and TF card can be supported.

1.5. For the first time, all default selected items will be backed up. After that, it will only back up the newly added items, it will not repeatedly back up the old and already backed up items.

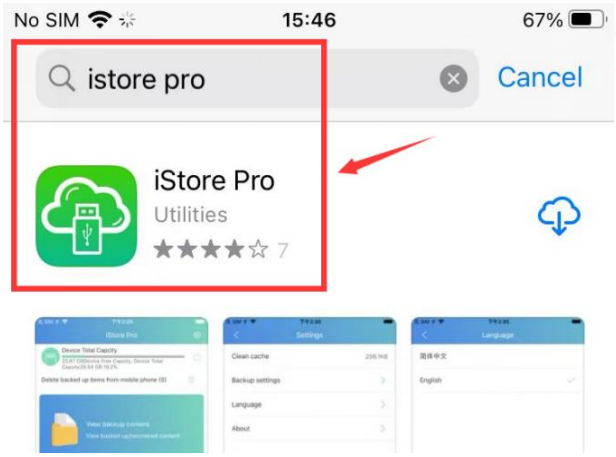
3. APP Installation on Mobile Phones

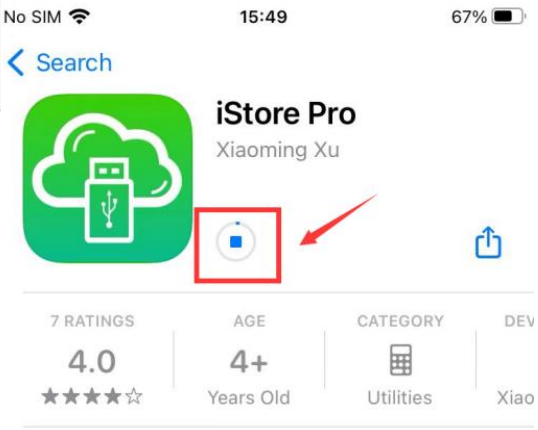
3.1 On iPhone/iPad Side

There are 2 ways to install the APP:

(1) You also can download and install the app from the App Store. Search for "iStore Pro ". (Please Note: search from APP store, instead of Apple Store)

(2) Scan the QR code on the Giftbox or User Manual to download and install the APP.



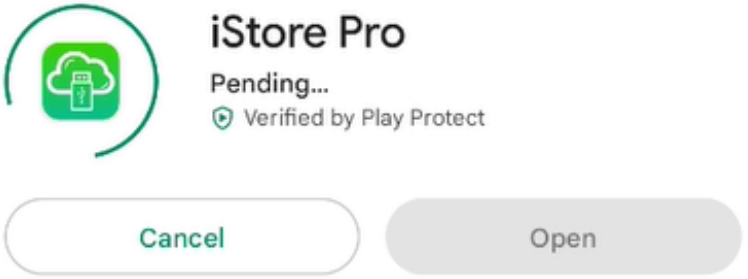


3.2 On Android Mobile Phones Side

There are 2 ways to install the APP

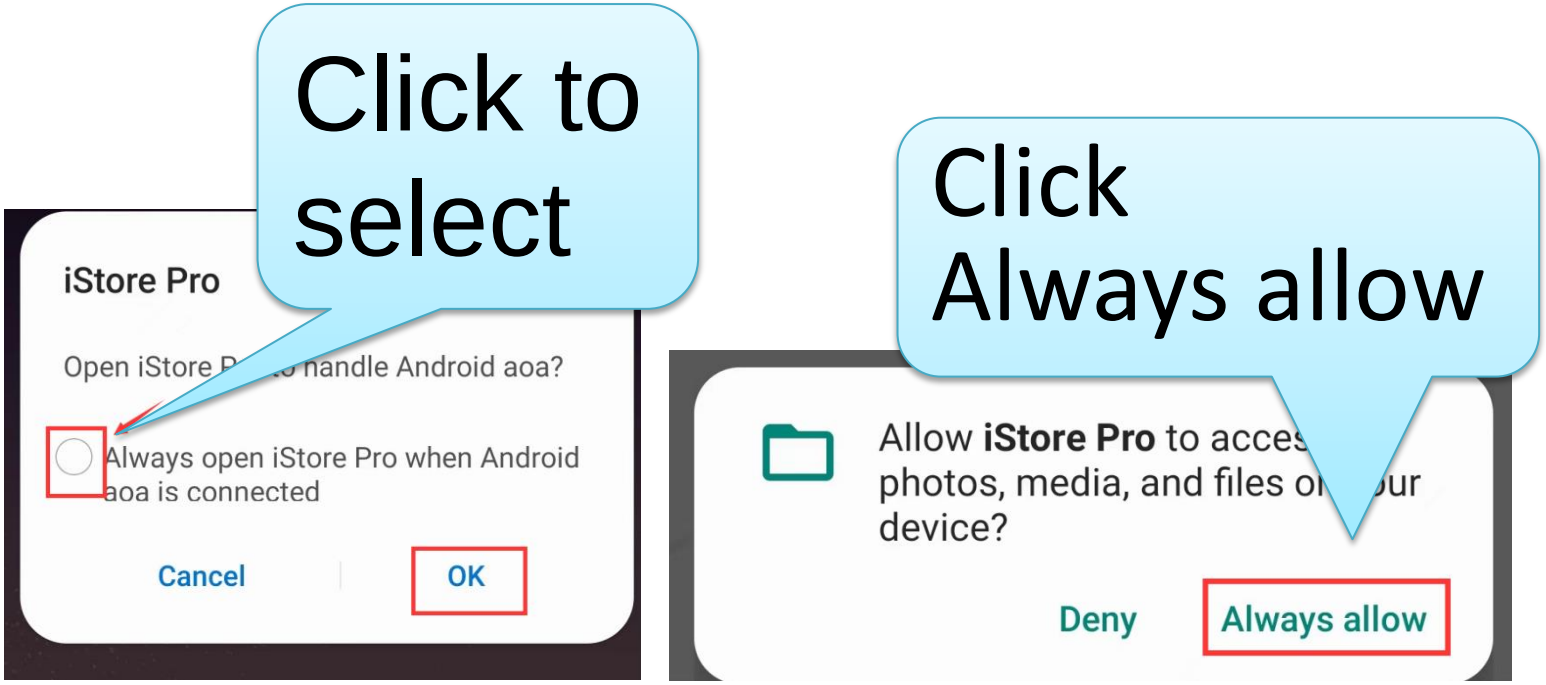
(1) Scan the QR code on the Giftbox or User Manual to download and install.

(2) You also can download and install the app from the Google Play. Search for "iStore Pro"



4. The use on Android Mobile Phones.

4.1. Auto-Backup function:



Choose the place to be saved.

Note:No need to set if no external USB flash drive inserted.
