digital technology digital technology

The wetroom waste water pump to create a step-free level access shower.

Where gravity drainage is not an option, Whale Instant Match® with Bluetooth® wireless technology is the solution

Proud to manufacture in the UK

Making it possible to install wetrooms and walk-in showers even in the most challenging locations.

The Whale Instant Match[®] with *Bluetooth*[®] wireless technology is designed specifically to solve shower drainage problems, allowing you to create a level access bathroom without compromise.

Allows you to easily achieve a step-free showering area in your bathroom adaptation.

The Whale Instant Match® with Bluetooth® wireless technology is built on 20 years of experience and now comes with a number of new benefits.

- Quiet operation
- The pump speed adjusts to changes in the shower flow rate to minimise suction noise from the gulley
- Maintenance free
- No need for filters
- Gulleys compatible with standard shower trays.
 Shallow pumped gulleys available separately

Key Features

- Lightweight all in one unit
- Plug and play installation
- Unique flood reduction technology with Bluetooth® wireless technology operation
- Non-return valves prevent odours from escaping
