

# **Ouick Start Guide**

This product meets applicable national SAR limits of 1.6 W/kg. The specific maximum SAR values can be found on page 19 of this user guide.

When carrying the product or using it while worn on your body. either use an approved accessory such as a holster or otherwise maintain a distance of 15 mm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

### PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

English - CJB1GC005AAA

### 2.2 Power on your phone

Hold down the \_\_\_ key until the phone powers on.

### 2.3 Power off your phone

Hold down the \_\_\_ key from the idle screen.

### 3.1 Making a call

Dial the desired number, press the key to place the call. If you make a mistake, you can delete the incorrect digits by pressing the \to key. To hang up the call, press the \_\_\_\_ key.

### Making an emergency call

If your phone is covered by the network, dial emergency number and press the \_\_ key to make an emergency call. This works even without a SIM card and without typing the PIN code or unlocking the keypad.

### 3.2 Calling your Voice mail (1)

To access your voicemail, hold down the 1 w key.

### 3.3 Receiving a call

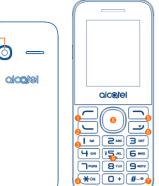

When you receive an incoming call, press the  $\$  key to talk and then hang up using the \_\_\_ key.

### 3.4 Available functions during the call

During a call, you can access your directory, calendar, short messages, etc. without hanging up the phone.

(1) Contact your network operator to check service availability

## Safety and use .....

We recommend that you read this chapter carefully before using your nhone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein

### • TRAFFIC SAFETY:

When driving, do not use your phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your phone on top of the dashboard or within an airhag denloyment area
- check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from mobile phone RF energy.

### CONDITIONS OF USE:

LICENCES

You are advised to switch off the telephone from time to time to ontimise its performance

Switch the phone off before boarding an aircraft. Switch the phone off when you are in health care facilities, except

in designated areas. As with many other types of equipment now in regular use, mobile telephones can interfere with other electrical or electronic devices, or equipment using radio frequency. Switch the phone off when you are near gas or flammable liquids.

Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere. When the phone is switched on, it should be kept at least 15 cm.

from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any,

To avoid hearing impairment, pick up the call before holding your phone to your ear. Also move the handset away from your ear while using the "hands-free" mode because the amplified volume might cause hearing damage.

Do not let children use the phone and/or play with the telephone and accessories without supervision.

When replacing the cover note that your phone may contain substances that could create an allergic reaction

Always handle your phone with care and keep it in a clean and dustfree place.

Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture humidity rain infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +55°C.

Over 55°C the legibility of the phone's display may be impaired, though this is temporary and not serious.

Emergency call numbers may not be reachable on all mobile network You should never rely only on your phone for emergency calls.

Do not drop, throw or bend your mobile phone.

Do not use the phone if the glass made screen, is damaged, cracked or broken to avoid any injury.

Do not paint it

enabling a flashing-lights feature on your phone. Parents should monitor their children's use of video games or other

features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of

awareness, involuntary movements, or disorientation. To limit the Do not puncture, disassemble or cause a short-circuit in a battery. likelihood of such symptoms, take the following safety precautions: Do not burn or dispose of a used battery in household rubbish or

Do not play or use a flashing-lights feature if you are tired or need

Take a minimum of a 15-minute break hourly.

Play in a room in which all lights are on

Play at the farthest distance possible from the screen. If your hands, wrists, or arms become tired or sore while plaving,

stop and rest for several hours before playing again.

If you continue to have sore hands, wrists, or arms during or after nlaving ston the game and see a doctor

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.

### PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

### BATTERY-

Following air regulation, the battery of your product is not charged. Please charge it first.

Before removing the battery from your phone, make sure that the nhone is switched off

store it at temperatures above 60°C Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for

which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd, and/or its affiliates. This symbol on your telephone, the battery and the

accessories means that these products must be taken to collection points at the end of their life: - Municipal waste disposal centres with specific bins for these items of equipmen

Collection bins at points of sale. They will then be recycled, preventing substances being disposed of

in the environment, so that their components can be reused In European Union countries:

These collection points are accessible free of charge

All products with this sign must be brought to these collection

### In non European Union jurisdictions:

Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE, DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

### CHARGERS

17

Mains powered chargers will operate within the temperature range of: 0°C to 40°C.

The chargers designed for your mobile phone meet with the standard for safety of information technology equipment and office equipment use. They are also compliant to the ecodesign directive 2009/125/EC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

Characteristics of power supply (depending on the country): Travel charger:

Input: 100-240 V, 50/60 Hz, 100 mA Output: 5 V, 200 mA Battery: Lithium 800 mAh

ship the SIM card, memory cards, or any other accessories such as the power adapter. You must properly package and ship the wireless device to the repair center TCI Communication Ltd is not responsible for devices that do not arrive at the service center or are damaged in transit. RADIO WAVES:

THIS MORILE PHONE MEETS THE GOVERNMENT'S

Your mobile phone is a radio transmitter and receiver. It is designed

and manufactured not to exceed the emission limits for exposure to

radio-frequency (RF) energy. These limits are part of comprehensive

guidelines and establish permitted levels of RE energy for the

general population. The guidelines are based on standards that

were developed by independent scientific organizations through

periodic and thorough evaluation of scientific studies. These

guidelines include a substantial safety margin designed to ensure

The exposure standard for mobile phones employs a unit of

The SAR limit set by public authorities such as the Federal

Communications Commission of the US Government (FCC), or by

Industry Canada, is 1.6 W/kg averaged over 1 gram of body tissue.

Tests for SAR are conducted using standard operating positions

with the mobile phone transmitting at its highest certified power

Although the SAR is determined at the highest certified power level,

the actual SAR level of the mobile phone while operating can be

well below the maximum value. This is because the mobile phone is

designed to operate at multiple power levels so as to use only the

power required to reach the network. In general, the closer you are

to a wireless base station antenna, the lower the power output of

Before a mobile phone model is available for sale to the public,

compliance with national regulations and standards must be shown.

While there may be differences between the SAR levels of various

mobile phones and at various positions, they all meet the

government requirement for RF exposure. For body-worn

operation, the mobile phone meets ECC RF exposure guidelines.

provided that it is used with a non-metallic accessory with the

handset at least 15 mm from the body. Use of other accessories

Additional information on SAR can be found on the Cellular

## Protection against theft (1

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your telephone or specific operator services.

TCL Communication shall not be held legally responsible for such differences, if any, nor for their notential consequences, which responsibility shall be borne by the operator exclusively.

## TCL Communication Ltd. Warranty.....

TCL Communication Ltd. warrants to the original retail nurchaser of this wireless device that should this product or part thereof during normal consumer usage and condition be proven to be defective in material or workmanship that results in product failure within the first twelve (12) months from the date of purchase as shown on your original sales receipt from an authorized sales agent. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the defect(s).

Batteries, power adapters, and other accessories sold as in box items are also warranted against defects and workmanship that results in product failure within the first six (6) months period from the date of purchase as shown on your original sales receipt. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the defect(s).

The limited warranty for your wireless device will be voided if any of the following conditions occur:

area where your phone is used; Connection to any equipment not supplied or not recommended by TCL Communication Ltd.:

TCL Communication Ltd. or its affiliates: Changes to the device operating system by the user or third party

download of files, crash, high voltage, corrosion, oxidation;
